Fall Goose Hunt. Otagos.

Memorandum for John Hunter

When the boat arrives at Kapuaka you will send on a cask of salt and the empty barrels from Kapuaka to Akuniokoro and tell John Hoosack to secure the salts barrels for the winter and to bring back the Hogsheads from Akuniokoro to Kapuaka after which the boat will return here.

When you have a load of geese nearly ready send word to Albany & at the same time shake if you are running short of any shem. The Boat will bring along the Barrels which were left at Albany on the first trip.

Tell your messengers to call in at Otiotiroy and see the Blackmail so as he may be able to send in wood if he requires any more Barrels &c

Mr Samuel Loethoff
Langhoh River Post

Dear Sir,

Your boat arrived at this place on the 3rd inst. and after having been repaired will start on her return trip to-morrow.

Be good enough to send down all canoes you have for disposal with the crew for your large boat from this place.

Your small boat has been loaded as near as possible to your request. John Davis however is afraid he will not be able to take all the flour you ask for.

Kindly send down a copy of John Davis' account for 01 1900 and let me know how much of any he has paid towards the same.

Trusting the boat and cargo will reach you safely

I am
Yours faithfully

to do the job therefore it might be necessary to stand it out and have the repairs done elsewhere. We should be required some time by the Crew to go to Athabasca and the Chief for that place as well as the services of Boys being required, the place it might be to late in the season before they could get back from there, however the wind repairs greatly on the time of arrival of ships & the state of the ship but I am very much afraid that it will cost above the work another season, sometime repairs

I enclose Mem: Re Amount for Chief 1903. As Chief we have Bonnet Steel on hand name & [illegible] quantity if the requisition is not already Closed.

Sir

Herewith please find Invoice in Triplicate of
Goods shipped
Per Steamer Agency
Ministry Depot
Fort Fanny Falls
Moose Factory

There are a few articles that I have not found out of the Depot, that can be spared. It is supposed during the change the shipping list was left out in one of the outside old drawers called here.

We are going to the Head of Albany for 2 or three days on canoe business.

The information for open sail appears hazy also is enough Provisions shipped and if so supposed to receive all the information with the next Depot that may be sent. If not there are many points to be answered that are not explained here. I have supplies ready to go...

Chief Fac. visited. Chief Fac. quitted. Invited him to call on his way down. He was headed this way when I left. I have not to already I have put in an application

Yours
Thos. [illegible]

A.H.G. Cockburn Esq.
Moose Factory

Dear Sir

Your P. boat sent with cargo from Albany Factory on account Chemical Station on 17 inst is reported to have run a Bateau on 18th inst.

Regarding the account rendered for Steam apparently it was intended that only the amount may stand in the Albany account. The following are the accounts rendered for Steam, Albany 11.05
Moose 64.05
1109
Supplies Albany 3.50
1109.50 etc

We found among many books Std above, but do not know for Supplies were not included therein, one even below book showing it as Moose Factory a/c. It is now however being included therein as 1109 Moose Factory.

Have any further about the Loading charges for Rat Portage as Albany charges at Moose Factory?

Yours
