Arrest. Capt. Knight Govr. Mr. John Fullerton Mr. Gilbert Ker Ward Thompson Mr. Isop Lieut. Cam Adams Lt. yeoury Fullerton.

Whereas you John Carlwright have been stirring up Mutiny and Rebellion in the Factory Endeavouring the utter destruction of the Government and Countrey, throwing out lyes and false reports upon my Deputy and his Brother, relateing up and down the factory that they should stirr up the men to demand the ship of me to carry them all home, which I have made diligient inquiry into & strictly examined all persons and find it to be no other thing, than your own invention, Malicious contrivances and Devilish designs to embroil, utterly destroy and overthrow the whole Countrey, both to the ruin of the Companys interest and Losse of the Kingdom of England Being at such a time before it can be well expected that any ships can be so soon here out of England.

Moreover To aggravate your mutiny and faction, When Thomas Lee should say yt if it was our fortune to have no ships and supply this year from England, wee most of necessity be forced to eat Succoot. wch is ye Indian Name of a Corp, You replied, that there was a word two or three more to say to that yet, wee will go to the Govr. and demand the ship to go home —

HUDSON'S BAY COMPANY

The Govr. And Councill taking the above mentioned Charges into Serious consideration, well pondering and Considering the Bad inconveniencies that doth accrue from such factious turbulent Fellows. To prevent the like for the future and that it may be an example to others, hath ordered that You John Carlwright shall be whipt, thirty stripes & lye in Irons confined close prisoner and feed upon Succoot as you call them, till either Our ships arrive here from England to carry you home, Or the Ship wee have Now in ye Countrey Go from this — Dated at Albany Fort in America ye 19th day of August 1696.

[E.1696] 3

You William Gilpot, (by the malicious instigations of the Devil and the wicked inclinations of your own heart not having regard either to the fear of God or man) stand here charged for endeavouring to overthrow, utterly ruin and subvert from the crown of England one of his majestys plantations here in the Northwest parts of America – by your attempting, purposing and enforcing your self to stir up a party to act and joyn with you in committing outrage and burglary, in forceing and breaking open the Company's Store-houses to steal, plunder, embazle and waste those provisions the Company had therein for the preservation and safeguard of our lives and Country, you knowing that the Indians had no ships these two years last past, and not unsensible that there can be no more relief then there is, Lykewise that there has been more then ordinary care taken or else wee should have fallen short of those provisions we have so that wee must have been of necessity drove to very great extremities if such care and oversight had not been taken, Notwithstanding of all this, you have (as before mentioned) been By the subtilty of the Devil and Malicious inclinations of your own heart, proceed to draw over a party ~~[illegible]~~ to joyn with you in forceing and breaking open the Company's Warehouses to embazle and waste what wee have here to the utter destruction and losse of our lives and factory

The Gov^r and Council takeing these things into their consideration and considering the ill consequence of your design whereby they find it was utterly to overthrow subvert and ruin the Factory Therefore to make you a fullest example, and to be a warning to others have thought good to order you to be whipt thirty nine lashes upon the bare back for three several days following the punishment being too favourable for your desert and there forth you are to be carried aboard the Pery Friggat and after the punishment's over to be laid there in Irons having straw and a Beaver coat, half a pynt peas a day and water, and so to be carried home prisoner

Note

The orders for Outfits 1848 & 1849 I cannot attempt to make out for want of documents to guide me. I hope therefore I will be excused on this score for the present but as it is expected that information from the Inland Posts will reach here as soon after the navigation opens as possible, it may then be in my power to make out these orders, if not correctly, in a manner that will render us correctness. The articles inserted in columns headed "Orders for Outfits 1848 and 1849 are what the Steersmaster William Linklater mentions are required for the vessel.

I should feel obliged for a copy of the Albany orders for Outfits 1847 & 1848 by return of the Brigs.

The gentlemen in charge of the Inland Posts are requested to send down by the Boats in the Spring all the surplus meat kegs &c &c that they may have, but until information reaches here no one at Albany can tell whether they have any to spare or not. Should it however so happen that they have none we will in that case require about 12 meat kegs of 8 lbs each from Moose. Another thing to be observed is should it unfortunately so happen that we have no Goose hunt this coming Spring we will in that case require about 350 lbs of pork for 1 man which will be only ⅔ of what is actually required for the crews of the Boats to take them back to their respective Posts and the other ⅓ will have to be made up in Buffalo meat here.

The following articles inserted in Columns headed Albany Outfit 1847 are wanted for immediate use. I should therefore feel thankful if they are sent per return of Brigs if the Boats can be spared to send them here

- 2 Screw augers ¾ & ⅞ Inch
- 2 paint Brushes
- 1 pr Candlesticks
- 1 lb red Chalk
- 1 Rimmers Compass
- 3 Gls boiled Linseed Oil
- ½ cwt Black paint
- ½ cwt White do.
- 2 Barrels salt

List of Servants in the Albany River District, who have given Notice of their intention to retire from the Service at the expiration of their Contracts

Patrick Abdemar Guide has a large family and wishes to proceed to Red River Settlement after the 1st June 1857. He has money say to amt of £60 or £70 and is willing to pay for a lot of land in advance

James Daniel who acts as Steersman between Albany & Martins Falls wishes to join his father at Red River at the close of his contract in 1857. He has a wife & 3 Children and will have a Balance in his favor at the close of the current outfit to amt of about £28.

Malcolm McKichie Sailor has a wife and three Children with whom if allowed he wishes to retire to Canada at the close of his Contract in 1857. Although out of debt he will scarcely have a penny due to him at the end of his engagement

Antoine Morrisseau Steersman wishes to proceed to Red River after the 1st June 1857 when his engagement expires. he has a large family and the balance that will be in his favor at the close of the current outfit will not exceed £30. The poor man is very much afflicted with gravel and it is for this reason he wishes to leave the Service.

Thos Morrison - Blacksmith - Wishes to retire to Canada in 1857 as I have mentioned in my letter of January last. He is at present unencumbered with a family and will be worth £50 or £60 at the end of his Contract.

Please to let me know if the wishes of the above are to be acceded to or not. If, however Abdemar & Morrisseau leave us they will put us to serious inconvenience as we have no others at present Competent for the duty of Steersman. As to Daniel, McKichie and Morrison their services can be dispensed with because I should think that there will be no difficulty to find others to fill their places.

HUDSON'S BAY COMPANY

If this is an Independent, my name ain't Charley.

I affirm on a long life Regretted, on occasions, that the Company could not dispense with certain Characters who thought to be some body by Bullying, others to make believe they can do while they can Nothing but Tongue & Lungs.

To Thomas Corcoran Esqr.

Request of Chs. McKenzie on St. Jacques Sale Shop 1854 — in the full hope of being to Return to Red River, fall 54. Which has fields Thanks Can Carry him a step or Postage and finds his disappointment, Poverty and shame from his more fortunate Contemporaries of three or any of half a Century. I am as grounds as he possible can be — in my Poverty —

Vol.	1 Rupia Shutney Oil Cloth or Flen Cloth
"	1 Jean Buckskin Trousers 7/
"	1 Navy Black Vest in cloth 6
"	1 Cotton Umbrella, or Silk (Mayn was Cast over board on Albs River and not
"	2 Square black Silk for Handkfs of his taking legal one of Jean Johns Lords was
"	1 fine Indian Shawl 3/6 (Not Shipboard) broken the 5th day from Rupa Jacques —
"	1 Pair Plain Blkts & Pants. best Quality
"	5 lbs Hyson Tea.
"	5 lbs Shandong "
"	19 lbs Crash Sugar
"	30 lbs Scotch Biscuit

As I have a house to Return at Red River — there is here an old Tent that might serve my journey & might be sent back — but on second thoughts I think it were better that Mr Corcoran should send for a 15 Ells Tent from Morris on my private account — let any thing more said about it.

I should be happy to Know of any one is going to Red River from the Coast — in that Case the North Canoe here on a Stage — 2 Summers & winters would serve our turn — rather too large for Mr alone — but if any other family come going there would be no occasion of making a smaller — I got the Canoe made 2 years ago in Case of some accidence to the Boats — or a Call for R. R. Colonists — the frost split here in some three or four places the the Canoe was in Water — Of Course I shall have to pay all Expense in bringing the Canoe, as I did on entering the H.B. in 1824 — I stand for no provisions — as there would be Rice & Beef in Canada, both side Montreal the Road —

Whatever Canoe I may have, must have some advances here before leaving — The Miscellaneous goes £2. from Selkirk, which is about half way for R. River — I shall have to trouble him more —

I am Yours truly My Dear Friend! —

Memorandum for Mr Corcoran

Part Payment to Two Steers on his Trip to Albany

1 Blanket Plaine 3 Points	6 Mb.
1/8 yd. Blue Strouds	4
1/2 " Red " 4 do. Gartering	2
1/4 " Brads Enamel	1
8 yd. Col[d] Gartering	1-14

Had to Gt a White Cloth Capot at B.H. there being no Capots here Large than 2 Pts. Except Illinois Which no one will take for Neither Furs Work or willingly accept them as presents

The Boy "Robinson" Got nothing Except 1 Small Belt

I made No Price or Bargain with Either of these I hope they'll be well Paid at Albany. 'Tis not Easy to Gt Indians here in Every Season or any Season. Nor would the Two Steers go this Time. Some be not entirely Naked & Could Gt Nothing after Paying his debt of 32 Mb. which is Scarcely Enough for Even Necessaries to a Man of Some Family

I was much afraid of having a Large Inventory on hand at one Time I See now that I shall be Short of Cloth Blankets & Large Capots. I therefore added a Couple Pieces Cloth to the last Outfit. and I hope that they both will be Sent in As well as Every other Articles. and the Indians Paid at Albany for their Coat work this Summer. It will not be Easy for me to Gt Indians at our Standard for Furs. They tell me that Indians on the Other Side are better Paid & fed. than Ours are. I cannot decide. See how loose Indians are made by going about. a Certain Indian was disputing with me about a Coat Fox. Which he wished to make it a Silver Fox. "For that Fox". Said he "You Gt 3 Pieces of Yellow Money "and Each of these Yellows Silver is Equal to 20 Pieces of White Silver" and how Could I dispute so Nice a Point with so much Wisdom.

He Said afterwards in the Kitchen "did I Know that he Could take the Fox for 2 Skins only, he would not have Sold it" but they are not as to any Price as the Above and the Westward Indians. These are What they

soon born a Cunning, Lying, and troublesome Set. bold, Savage & Cruel opponents—

I am not sorry, that I shall have no Inventory of heavy articles. There are many Indians here to Come in who has not had a Blanket or an Inch of Cloth last fall and nothing but these Articles will serve now. They Cannot be Satisfied with Promises for Ever. Patrick and Tom. Came off Early this Morning for the Forks. What Could Simple Patrick do. Should the Rat People be there before him with Rum & Goods. as I have been told 2 days ago, that they were to be. I know not. he has a New Gun Some Cloth. ammunition and Tobacco. but If there is Rum there, Alas poor Indians will think not of their ornaments.

Besides all this my dear Sir. Who Can foretell your own Calls on the Post for Rice. on long Lance I am almost Certain that a Good 1/3 of the Outfit Must for Rice this Season. and Can You Say that there will be less any other Season? Hope, I must let out Steam. lest My Boiler Should Collapse but not upon Paper. or you would help Patrick in telling me that am getting Crabbed. and Quarrelsome People for Nothing. I may be Crabbed. but I do not Quarrel People for Nothing—

I Must Absolutely Stop the Steam! So hard 'tis to part with You Now on a Sunday. God forgive us Both!—

Memorandum relating to Albany Affairs & the information of Mr. Wilson

Charles Swain has requested ½ Gl. Brandy on his private Acct which would be rather too costly were he to get it from here and pay for the Keg in which it would have to be sent and as there is none at Albany for Sale he may have ½ Gl. proof Rum in place of it.

John Clouston has requested a horse for Hunting Early and Mr. C. F. Mills has been kind enough to order one of Moore here to be shipped on board the Albany Packet which Charles Swain will have to walk along shore from Albany to his place. If it should be found that the driving of this Animal to Mr. Falls is likely to occasion any delay provisions will have to be forwarded along with the party to meet it. If Harness be sent along with the Mare from Moore it should be sent from Albany along with her to Mr. Falls. In the event of Mr. John Clouston coming to Albany. I think he will be soon enough there on the 10th Augt as I see no prospect of getting away from here before the 6th prox. of Rum. Should however Mr. C wish to come down sooner he may do so & Mr. Wilson will do all he can to make him comfortable until I return to resume my Labor at the Establishment.

Sam. Mosley & John Sutherland both Apprentices are intended for Inland Service but as there is some chance of Rum being ordered for the Sorry of Lac Seul & Osnaburgh this Autumn it will be necessary that both should be kept at Albany until the decision of Council respecting the Article in question is known

Cont'd. is known. If, however, the hands which took the Boats down to Albany are not able to take them back. the 2 lads - Sam Wesley & John Sutherland must be sent along with them. if in that case both will have to Winter at Gay Head.

George McPherson of Osnaburgh Complains of Hugh Polster as being a very worthless Character for any Inland duty: he is not only awkward & clumsy but he is also by McPherson's Acct extremely indolent - so much so that the work which he should do - he contrives matters so well as to leave it for others to do. With respect to his clumsiness it is perhaps a thing that he cannot help and on that Acct very little can be said on the Subject - but if he be lazy as reported he may be told that means will be found to cure him of it. He or any other Servant cannot expect to be paid for doing no more than he likes. He should also be told that he will have to support the Child he has by Nancy Moore for a certain number of years & that if he thinks of returning to his native Country before the time in question expires he will either have to make some provision for the Maintenance of his child or take it along with him. He will have to return to Osnaburgh as I have no other at present to fill his place.

George Moore has requested liberty to send his family to the Coast to Winter & that he will remain Inland, but I think the lesson which he has had already on this Score should cure him of such dreams. If his family cannot, like others, content themselves with such fare as can be provided for them at any of the Inland Posts where George is stationed George can as soon as he likes come along with them

them to Albany - whence a passage will be provided for them to Moose & thence to the Sault St. Mary's They will not be allowed to Winter at Moose and even we willing - which is not the case - to afford them a shelter at Albany - We cannot under existing circumstances do it: indeed our own lot and that of every individual at Albany is hard enough - and it will not do to make it worse by the addition of a family that can be more comfortable at Lac Seul than they can possibly be at any place on the Coast. George should be plainly told of these matters; for the day that he sends them to the Coast - that day he may consider himself a discharged Servant. —

HUDSON'S BAY COMPANY

One of the Kegs of Grease going to Albany is for Inland say 60 lbs of it for Lac Seul & the remainder - 28 lbs for Osnaburgh - The other is to be retained at Albany. The Keg going Inland is not to be opened until it gets to Osnaburgh & George McPherson will have to be instructed how to act in this case -

With respect to the Memoranda of additionals to be ordered herewith I have been as explicit as possible. so much so, that I am in hopes you will not have much trouble in making up the Articles for each Post -

Mr McKenzie of Lac Seul has asked for some blankets. should he be for the use of his Post in addition to those made up at Moose and as these things can be spared from the Outfit to be forwarded to Osnaburgh you will please direct George McPherson if Post

Post to supply such articles in case Lake Seul should be in need of them. —

The Indians from the Interior who are employed as voyageurs should be paid as follows, Viz.: —

From Albany to Martins Falls 20 MB each Indn } Albany Tariff
" Do to Osnaburgh — 30 — " — " — }
" Do to Lac Seul — 40 — " — " —

Mr. McTavish has however requested that his Indians should be paid equally to Lac Seul Tariff but as there is no Copy of it now at Albany we must use the Albany Tariff. Last Summer we paid the Lac Seul & Osnaburgh Indns according to Island Tariffs but the Indns of each place got less goods although each of them got 5 MB more than is above specified for the Trip. Copies of such things as they may require for their Trip will have to be forwarded to those in Charge of the Inland Posts. Bowsmen have to be paid 5 MB more than Middlemen. —

With respect to the Indians cutting Cordwood they may be employed at the work as long as they like to continue. 200 Cords will scarcely be sufficient for the Mens House & in the one I am doomed to pass the Winter in 60 or 70 will be required — they may cut until they have 300 Cords.

For the Cattle Now at Albany 2 or 3 boat loads of Hay will be sufficient for the Winter — but Weather thro this work should interfere with Log hauling I should get their throats cut in the Fall — we must make some effort to provide ourselves with some sort of huts; for it is scarcely possible for any class of people to live in the houses at present at Albany. If you do get any Hay it will be time enough to begin it about the

Memoranda relating to Albany Affairs for the information of Mr. Swinton

On Arrival of Brigade from Island each Servant is to receive

1 Pint proof Rum
1 ℔ Flour
½ ℔ Oatmeal
1 Goose
1 pipe & 6 plugs Tobacco

over the usual Rations

and each Indian the same together with

HUDSON'S BAY COMPANY

If the Island Servants are to be at Albany any time, they will have to be served with provisions the same as the Servants on the roads, but if their stay should be short it is not worth while to make any alteration from the journey allowances. If they assist with Log Work, however, they may get the Journey allowance even though they should remain a fortnight or 3 weeks besides a Gill of Rum each day. When they are about ready to slip into boats to proceed Inland each Servant is to get 1 Pt. proof Rum and each Indian the same besides 6 plugs Tobacco. If any of the Ind.s from the Interior should ask for an Awl, Gunworm or Steel it is not worth while to refuse them.

The provisions to be supplied for the Trip Inland will be regulated as follows:

From Albany to Martins Falls 18 days
From Martins Falls to Osnaburgh 18 "
From Osnaburgh to Lac Seul 8 "

All parties are to be supplied with provisions equal to 1 ℔ Flour ½ ℔ Oatmeal & 1 Goose each day to the end of the Journey.

Mr. McKenzie sometimes sends out provisions from Lac Seul to be kept at Osnaburgh for the Return Journey of his people from that Post to his. Should he have done so this year, it will of course render it unnecessary for any to be made up at Albany for that part of the Journey.—

2 Pair of Shoes & 2 pair of Soles are to be given to each Islander for his Return Journey. That is to say if the Soles are at Albany to be given. If not one pair must do.

The Cargoes for Osnaburgh & Lac Seul Posts should be equally divided amongst the Boats going to those places, which will prevent grumbling.

Mr. C. McKenzie of Lac Seul has complained of the guide Patrick Abbeman, as being disobedient, and in consequence wishes that he should be removed & some other place; it will therefore be necessary to send him to Osnaburgh, and Moosonee who is stationed at Osnaburgh will have to take the Guides place at Lac Seul. Abbeman will not however be deprived of his situation as Guide whilst he continues to give satisfaction in that Capacity.

No Islander should be allowed to purchase more Rum than 1 Pt. but it would be as well that the latter if they do not buy a drop.—

The following Inland Servants are to be reengaged and on the following terms, Viz:

James Isaacs as Steersman if Competent for that duty for the term of 3 Years at the rate of £32 p ann^m. If he does not engage as Steersman he will on that case be engaged as Bowsman at £20 p ann^m

Adam Head for 3 Years as Middleman at £17 p ann^m but if he be fit to act as Bowsman he can be engaged as such at £19 p ann^m

Thomas Tait for 3 years as Middleman @ £17 p ann^m but if he be competent for acting as Bowsman he can be engaged at £19 p ann^m

If the 150 Lacrosse Attuskins ordered to be sent this Autumn to the Rat Portage are not obtained Inland as directed, they will have to be sent from here along with the Inland Boats on their return - to be forwarded from Lac Seul to the former Post.

The Sloop is to leave here as soon as possible and all the Albany Furs, the packed feathers & Quills are to be sent on her to Moose and also the following articles

1 Stone Shiper
62 pcs Blankets 1 pt
25 " do 1½
20 " do 3
42 Lbs Twine 13
9 " do 19
150 Lbs do Net Thread

Should the Inland Returns be at Albany before the Sloop takes her departure this first Trip - they may in that case be all sent to Moose - No packs are to be opened at Albany unless such as may be wet and they should be opened and dried with as little delay as possible — On the Sloops return to Moose, she is to be sent to Kaypuskie for all the furs & feathers remaining there and after she gets back to Albany the feathers are to be shipped for Europe in the usual Manner - say into bags each to Contain 112 Lbs. After the feathers are packed they should be shipped together with 45 Lbs furs for Moose. The furs to be sent are marked in Goose Book. If the furs from Inland should not be sent to Moose by the first Trip they will have to be forwarded thither by the 2nd together with the feathers & quills already alluded to. The original packing Accts of the furs from Inland are to accompany them to Moose but Copies of them should be retained at Albany. When the vessel leaves here the first Trip to Moose the Crew are to be supplied with one bushel grains at the rate of 10 Lbs net & 1 Goose p each p day and 2 bushels meal provisions boarded

16 Indians on take employed as long as they will work in cutting and rafting Logs of 20 @ 30 feet long. Should they get 3 or 400 of this description so much the better. No Complaint will be made should they get more. No advances to be given to any of them until I return from Moose unless absolute wants. If it is found that they work well at the Logs they may be supplied with Ostens on same as travellers but not more flour than 2 or 3 lbs each weekly. Those who do not drink are to get 3 plugs of Tobacco weekly but those who take a dram occasionally will only get 1 plug. No Rum should be given to any of them unless sick tupling or upwards of his age. —

2 pair Shoes & 1 pr Socks to be given to each Indn for the Season. No Indn Women to be allowed to remain about the Place on any acct. They only help to eat up their husbands Ostens which does not tend to strengthen them for Log Work.

Any furs, feathers, or quills that may be brought here during the Summer are to be traded on a/c of Ot. & J and according to Tariff. No debts to be given to any Indians until I return. Should any Severn Indians call here (but this is not likely to happen) their furs &c are to be traded but no debts given to them. The Indn Shaymaychamaw Jayhookumaw's son in law, who hunts half way between Albany & Severn has not been here since last Autumn. Should he call in Light with his last Winters Acct. it will have to be taken on a/c of his debt. But if it pays his debt & the Balance the surplus can be paid to him in Goods at Tariff Rates He will of course be entitled to the usual premium Say 1 Mk of Ammunition Tobacco or Rum on every 5 Mks of prime rich dressd furs.

The Indn above alluded to should get no debt or Goods in advance, As all his brothers are at Severn & he may follow them thither. He may however remain at Albany as I hand in getting Logs until I return from Moose as I wish to have some chat with him.

If the Island Boats be here before Mr Watsons arrival from Moose all the official letters &c to my address should be sent forward. If Mr W. should on the other hand be here before the Islanders he will in that case open all the official letters to my address and if there be any post

Extract From Sir George Simpson's letter to Mr Corcoran – dated "Carlton House Hudson's Bay House 30th Dec. 1848."

I am surprised to find you make no mention of the visit of the Missionary Mr Lavelocher to Albany last Summer. Should that gentleman visit the factory next year I have to beg you will show him the hospitalities of the Establishment and facilitate his Communication with the Natives, but you must not encourage the visits of Indians belonging to other posts to Albany, as such visits would lead to a consumption of provisions and other serious inconvenience. Should the priest require any Supplies, you may provide them, charging them, not in the Indian Currency of Made Beaver or Made Martin but in B. S. D. pricing such Supplies at the established tariff for strangers – including in your account all charges – such as Canoes, guides, labor of Servants, Provisions, Goods in store every thing but his living while at the Establishment, the hospitalities of which to all strangers are to be considered free of charge. You are not to facilitate the Missionary proceeding to other posts without special authority

"Authority to this effect. In applying to this I beg you will "particularly notice the result of the Friends Labors at Albany "both among the Indians and our Servants, and whether any "Canadian Servants or followers he may have had interfered "with the trade, which must be protected against if discovered "and the priest informed that he must not be attended by "Servants from Canada, who are found to be exceedingly "Mischievous wherever they present themselves when not "under our own immediate Control."

On arrival of the Islanders they will get a dram each and after the boats are unloaded each is to get as a Regale 1 pint Rum (or ¾ Tobacco in lieu thereof) 1 lb Biscuit, & a goose besides the usual daily allowance of Provisions, say 1 lb Flour & ½ Pork and 1 Goose. If they should be at Albany any time awaiting the arrival of the Sloop it would be well to Coop them (Islanders do not like working at the Coop) and on that Account require a little Cooking) to get some few wood cutting Women to assist the Servants belonging to Albany at whatever work is to be done. The Inland Indians that come to Albany as hands on the boats should get 1 pipe & 4 plugs Tobacco each on arrival and any of them that ask for a Mat or round Trays should not be refused.

The Provisions to be supplied to any Canoes for their Trip Inland will be regulated as follows:

From Albany to Martins Falls 11 days at the rate of 1½ Flour
" Abbitibbi 18 " 3 ½ W. Oatm. and 1 Goose &c
" Lake Seul 5 " 3 lbs Oatm. in lieu thereof each day

Should the water be low in the River it will be necessary to increase the Allowance to Martins Falls and Abbitibbi 2 days each for each Canoe. Any provisions that Mr. McKenzie may have at Martins Falls will be taken into acct. ½ pint of Rum & ½ pint of Peas if they can be spared should be given to each of the Voyageurs

Should Mr. McKenzie come down to Albany he may go to Moose as I believe he is anxious to have an interview with Mr. Finlay should he however decline going thither Mr. Henderson you will I dare hardly tell you treat him with as much kindness & hospitality as in your power & Mr. McKenzie should come down he will save you some trouble by keeping his Boats & Indians in order &c &c.

The Islanders should be allowed to purchase Moss Rum whilst at Albany there 3/6 Gall.

The Canoes for Inland boats should be equally divided amongst them.

The Indians who are employed as hands in the Inland boats should be paid as follows, viz:

From Albany to Abbitibbi 30 Mds each 2 Mds Albany Trip
" Lake Seul 40 " "

Bowsmen are however to get 5 Mds additional.

Should the Inland boats reach Albany before the Sloop takes her dispatches for Moose, the Returns should be sent along with her. The packing Accounts of which should also accompany them. The Albany pass &c which have to be sent to Moose at the same time. 40 Rounds of Moss say Kapphuka Falls 40 @ 1/ @ 40 should be sent by the first Trip of the Sloop.

In the event of Rum being sent to the ports of Lac Seul and Abbitibbi this Summer a Copy of the following extract from Sir George Simpson's Letter should be sent to George McKenzie who is in Charge of the one and to Mr. Charles Isbister who is in Charge of the other

"In Consequence of the urgent applications made "last year for Rum at the ports of Lac Seul & Abbitibbi "with the view to promote Indians attached to those posts passing "to the Protestant Worship, instead of to those posts passing "to the Roman Catholic Missions established & about "to be established at Albany the Returns, which Thomas McMurray "has drawn, that I have to say it may be kept in view

The Sloop is to proceed to Moose with as little delay as possible, on which will be sent 60 barrels (@ 1 @ 90) of the Gunpowder at Rapid Hart Falls, all the Albany Furs &c — and the Inland Returns if here at the time. The Inland furs are not to be opened unless any of the packs may be wet and in that case it will be necessary to unpack them and get them

If the Boys are taken to Albany by the Islanders it will in that case be necessary to get as many home from the Fishing Creek or elsewhere as will complete the gable ends of the Dyer and the Kitchen intended to be built. Adam will of course be required to assist in getting this work done and Alex Bronson should be sent along with them whilst getting Logs. The board in lengths will have to be cut and rafters hewn. Should however the Boys be unwilling to work at this business they may be discharged — until the grass is sufficiently long for mowing when the hay business should be com-
menced. The quantity of hay to be procured will altogether depend on the number of Cattle that will be sent here in the Course of the Summer & Autumn from Moose & Hayes River Factories.

The Inland Outfits are to be packed as soon after the Sloops return from Moose as possible. Lists of the Goods for Osnaburgh & Lac Seul will be found in the book prepared for packing Goods the goods are to be sold to any Servants if however any of them should want Blankets for covering their Horses and any other trifles that can be conveniently spared such things may be sent to them and an acct. sent of them to Moose in order that they may be replaced.

The Gun Cases, Cases for Iron Work & Candles should be made whilst the Sloop is at Moose. Morrison will be the best hand for this work. Any thing to be done in the Garden Robt Gunn will have to attend to. John Marcelle will have to act as Tinner whilst Strangers may be at Albany. He can however lend a hand at any other work whenever he has time. The Boy Joe will have to attend to Cattle which should be sent to the Islands out of the way of dogs when there is grass enough on them to feed them. The Lad will lend a hand at any other work if he has time — but the looking after Cattle will be the principal.

When Islanders are despatched it would be well to take an Acct of the Number of Geese that will be remaining and if it is found that there will be more than will supply the Servants & Indians employed at Albany until the 1st Sept the Surplus can be sent to Moose with the second Trip of the Sloop.

The Sloop will of course be sent to Rupert for the Geese Feathers & Quills remaining there as soon after she returns from Moose first Trip as possible — The quills are like entire & the feathers are despatched for England in the usual

was.

The Inventories of the several Posts in the District should be sent to Moose as soon as possible. That of Albany will be made out before I leave here and Mr Swanley and Mr Mowatt should may have to be sent on acct of Trade &c 48. will have to be detained hereafter. An acct of them will have to be sent to Moose. An acct of the Transfer against Moose Factory and Sundry Sept. Sent Charges will have to be sent also. That against Moose is already made out and the other so far as it could be made out y done so as may be seen in the Transfer Book. The only thing to be added so far as I know, is the acct of expences occasioned by the packing of Otter at Osnaburgh & Lac Seul and sending them to the Rat Portage.

The work to be done at Albany will give ample employment to all the Servants that will be at it during the Summer. The Kitchen and a Chimney to convey the smoke from the Stove of the East building are absolutely required and should be got done as quickly as possible. If however, the people do not understand this work they may let it alone for the present and go on with the Byer which is to be only two Logs (one of them the Wall Plating) above the Joists. The floor of the Byer can be laid with Slabs after the Walls are finished. The Roof can be let alone until I come back. Richards had 2 or 3 Mr Tables and 12 dz Chairs to make after he gets the East Building completed. The Roof of which should be examined and any leaks that may be observed in the Weather boards should be filled up with putty. All this work, however, cannot be very much attended to until after the Indians are off.

If any strange Indians should visit Albany they will be told not to have any thing to do with them in the shape of Trade.

The Albany boat will have to be sent to Rupertsfort for the Goods Factory is remaining there, Richard will remain

2

unnecessary to send the Sloop thither as stated in the memorandum regarding that business. Robt Gunn will be sent along with Indians to look after the property left there and to take all along with him that will be required. The Indians however will have Charge of the boat as he is altogether unacquainted with the Coast.

Thorburn will do all he can towards the Completion of the boat & the Sloop as it is much required. Sutherland whilst at Albany is to be his mate. but he is to be sent to Moose for the first Trip of the Sloop. Sutherland & Mr Fisher will accompany myself to Moose.

Hackland is to be employed in the Store whilst any work is to be done there. He is also to be employed in hunting the Rabbits which should be sent to Moose for the first Trip of the Sloop as part of the Returns. All the Goose Casks are to be examined & such of them as require repairs will have to be sent in good time for same.

When John Mascaille has any leisure he should be employed as mate to Kirkness.

If any Missionary should come to Albany this Summer the Indians who are employed cannot be allowed to attend him during their hours of labor, but after their days work is over every facility should be afforded the Missionary to teach or instruct them in the principles of Christianity.

All official Letters, Packets of accts Books &c from the Inland Posts are to be opened by Mr Wilson and replied to.

The Servants who are to be at Albany are to get a dram every day except Sunday, until I return. The Monday whilst here may get the Summer and the usual Regale at Christmas for Inland. The East Building who are employed at Albany will get no Rum on any occasion during the Summer, but they

get some ammunition in lieu of it at the close of the work if they should give satisfaction in the discharge of their duty. No Indian will get any thing for his labor until they have done working for the season unless Furrs for Duty which they ought to be supplied with whenever they require it. No provisions are to be sold to any Boat during the Summer — nor should any be given gratis to Comers & Goers except to such as come to the place with furs.

The 8 Kegs Gunpowder lodged at Martins Falls this Spring may be divided as follows:— say 4 for Osnaburgh and 4 for Lac Seul. 2 more from Albany will complete the Outfits for Poland in this Article — Gunpowder. —

Benjamin Sinclaire, Malcolm McKinlay, and Thomas Thomson are to be Sinclaire's Crew. They are to be served out in the usual manner say 2½ Oatmeal each daily over and above the allowance of Servants at the Establishd. Sinclaire may have 3 quarts of Rum for his 1st Voyage to Moose as he will have a Passenger along with him.

The Petaw that will be sent to Martins Falls is the one which Thos. Morrison used. It is nearly new and the strongest at Albany and on that Acct will carry Oatmeal Inland Safer better than any other that can be sent from here.

There are 66 Trap Chains to be made for the Traps going Inland which should be done whilst the Vessels is at Moose. After the Vessel returns from Thos. Thomas Morrison will have to be sent to the forge to complete the Door Work, of which he has a list for Poland.

Mr. Flett has purchased 20 Geese which he requests will be given to his Mother here on her way to Red River they will be charged to his Acct. Oct. 1849.

Reply to Mr C. J. Corcoran's Memoranda

In respect of the Goods Supplied to Albany to Sea to Moose and of the Goods remaining at Albany from the Supplies sent there, which it was proposed to form part of the Albany Outfit and of the Current Outfit, we thought it more advisable the last Autumn to bring them to a final close. - By the Invoice herewith & a Memorandum of the Goods added thereto Mr C. J. Corcoran will see the final adjustment, Sea to Moose District being charged & credit given agreeable to Mr C. J. Corcoran's advice received of the extra Supplies in Rum from Albany. - We trust these arrangements will not be unsatisfactory to Mr C. J. Corcoran, as it would be exceedingly inconvenient for us now to make further alterations with reference to those transactions which are now passed through the accounts of the Factory. - No expense is incurred by Albany in the transport of the Goods they added to the Invoices of the Current Season. -

---

The four Kegs Rum being already charged to the Albany District for the present we would prefer remaining as belonging to Albany, and if not required to be sent Inland from thence next year, they can be then returned in their present State or the Empty Kegs as most agreeable & for which Credit can be given

---

The Tierce of Pork should be 3 Cwt in but some of them will not run that weight - & the one 3 3/4 Cwt Tare is 4 lbs & the 4 Cwt 5 lbs. - All European Imported Goods Supplied to Albany & Sea to Moose District should be transferred at the same prices as between all other Districts - by the Inventory advance of 25 p Cent on the Depot Tariff of 33 1/3 p Cent - Thus Pork would be 6d p lb and Flour Oatmeal &c &c the advance in the same proportion. -

Haymaking should be commenced as soon as possible. 13 large & 13 small Red Ends are required. The crew of the large Red should consist of 12. of the smalls of 6 Indians. Besides these a few Indians may be employed to assist in turning & stacking the hay. The Indians who work with the Scots will receive 1/2 lb Oatmeal additional per day. These at the house the usual ration. Upon Sundays all receive the same, say 1 lb flour 1 pint & 2 strips to those such. No Indian will receive any payments until the conclusion of their labor.

The Indians Wayman & Wayman Head have not yet brought in their furs. Wayman owes 21 Mr. Wayman Head 37 Mr. Should they come in with furs they should be made to pay part of these debts.

The fishers at the fishing Creek & in the pardeau will require to be kept open. Adam Goodwin has been desired to come in for that purpose.

A Keg of flour must be procured as early as possible packed & forwarded to Stone in time to go to England by the Ship.

The repair of the Semi made last year will require to be taken off & properly sheathed.

Should the Bishop of Red River arrive at Albany he will be accommodated with the use of the Carpenters Shop to address the Indians should he wish to do so. He will also be provided with every

requisite for his journey to Moose. The same
kind can be sent with him if he prefers that
mode of travelling to proceeding in his Canoe.
The Canoe he brings with him can man the boat
but an Indian can be furnished as guide. Such
provisions &c as may be requisite will be furnished
also at Albany — & charged to acct of Com. Chaps.

Blocks squared upon two sides should be made
during the summer for a building 20 feet x 30 feet of Stone
which the foundations will be laid in the fall.

The advances in debt a Returns must be made to
Indians —

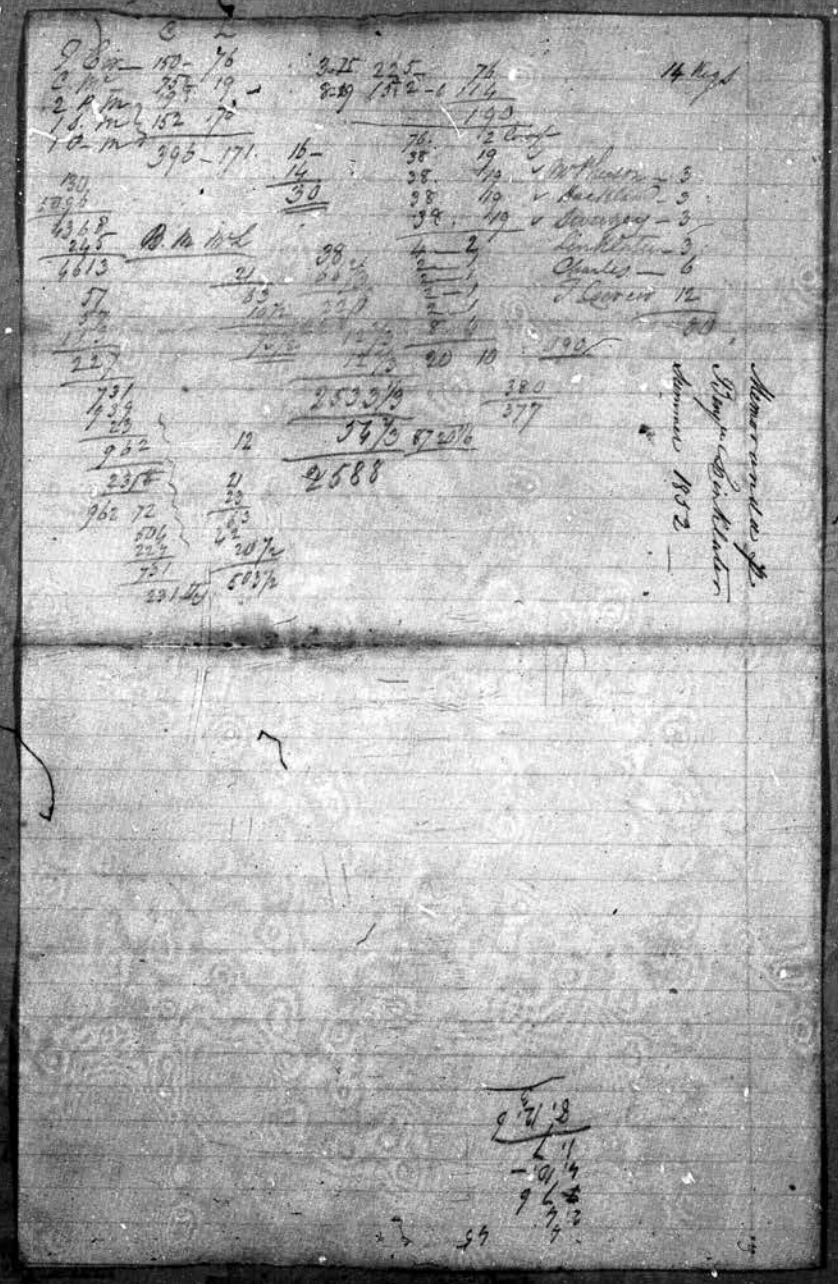

Robertson & his Son are making two Canoes for
the place — should they bring them in they can
be stowed safely — Both are already paid for —

Last Spring the Indian Okemasiquan was sent Trip
a trap. Should he come in he should be asked to return
to return it —

It would be preferable that the Indians whilst
making hay &c should be fed upon peas — as
there are plenty at Albany —

Indians who visit the place trapping furs may receive
1 pint 1 lb Shot & 1 flint & Tobacco upon arrival & the same
upon departure — but they should not be allowed
to remain longer than necessary — & should they do
so they should get nothing —

Memoranda regarding Albany affairs for Mr James Hackland.—

The Loop is to be sent to Moose as soon after she is launched as possible. The Rig and Skipper Boy[s] Linklater, Thomas Taylor and Joseph Wynne are to be the Crew. 16 Barrels #22 @ 37 of the Rayfurs last fall, Hunt are to be sent to Moose the first Trip and also all the Rum in store, Feathers, and also all the quilly and furs that may be packed — The large Canoe behind the store belongs to Moose and should be sent also by the first Trip of the Vessel

The Chickney Boat should be sent to Rayfurs as soon as possible for all the Furs, feathers and quilly procured there this season, and for the Ammunition &c left there a few days ago. Amongst the things left is a Keg Containing 11 gees, which, if not used by the party that is to go thither, should be brought to this place. 6 Indians and James Linklater or Peter Scottie will form the Crew. 30 empty goose barrels should be sent to Rayfurs in the boat to be sent thither.

The New Building should be floored as soon as possible, and as the Sashes are made & glazed they should be fixed in their places. The doors for which the Material are prepared, should be made. The walls are to be weather boarded. The part of the old Work Shop in the way of the Sloop should be removed and the Sloop fixed so as to take the Vessel about 30 feet higher up than her usual Winter Berth. The Roofs of the New building and Church should get a Coat of Coal Tar — and the Roof of the Mens House, East Building, store & Byre would be the better of one also. Crooks & Logs for 2 Hay Sheds of the size of the Chickney and for a Building of about 30 feet long & 18 feet wide or thereabouts should be procured this Summer by means of Indians. As much Sparwood as will serve to the beginning of Dec[r] should be carried home what will be required after that date will have to be cut and hauled in the early part of the Winter —

The Hay Business should Commence on or about the 23rd July, and about 32 large boat loads should be procured. 8 Indians to be employed in going with the boats to the Marsh should be fed & paid in the usual way — all Indians employed either at or from the place ought to get 2 pints Indian barley and 1 lb of Ammunition in lieu of Rum for every 8 days they are employed

James Linklater is the only one at Albany that will be able to look after the Cattle after Mr Rae leaves him. The Cattle should be sent to the flats as soon

as

as the grass springs up. The person who may attend the Cattle will require a boy along with him and as Thos Hagarty's son was employed in that way last Winter he Alex may perhaps answer as well for the purpose as any other. No Indians should be employed at this work; for such of them as have been tried at it they work seldom did it well.

Inlanders on arrival will get 1# Biscuit 1# Flour, 1# Oatmeal, 1 Goose ½ # Butter 2 ½ Sugar, ½ # Tea 1 Pipe & 4 plugs Tobacco each. It is to be understood however that the Tea & Sugar are given in lieu of Rum. Whilst they remain at Albany they are to get travelling allowance say ½ # Oatmeal each p^d^ day over the Rations issued out to people belonging to the establishment. On their departure each Man will get 1# Biscuit 1 Goose 2 ½ Sugar ½ # Tea as a Regale, and each Indian will get the same beside 1 Pipe & 6 plugs Tobacco

The Guide is to get the allowances specified in the Memoranda to be left herewith regarding Regalia and Antoine Morriseau will be entitled to the same by Special Contract. If Patrick Abdemas who is the guide at present, persists in going to Red River, he may do so provided he gives an order on the Company payable to Mr Chief Factor Miley to amt of £37. 10. sterling being the value of 100 acres of Land to which he will get possession when he ceases that settlement. In the event of this (Abdemas) going Morriseau may be appointed guide.

Charly Cowie's engagement with the Company expires on the 1st Inst. and in case he will have to be reengaged on his old terms say at Steersman at £22. If Cowie should be unwilling to do so he must remain another year at least. and then he will not be allowed to proceed to Red River unless he pays for 50 acres of land at least at the rate of 7/6 ^p^ acre.

The Crews of the 3 Inland boats are to be issued with provisions to serve them to Abbatabbah say for 32 days. The daily rations of each will be 1# Flour ½ # Oatmeal & 1 Goose or an equivalent for the Goose 1½ # Pork 1½ # Oatmeal or 1 Quart Rice. If wishful to have Oatmeal in place of Meat provisions they can have ½ Oatmeal & ½ Meat. In serving them out for the journey any Rice that Mr Lonsdell may send for the purpose will have to be considered.

The Inland boats to be provided, on account of Canoes sold to Cowie and of the fact that many hands during the back Outfit should be sent along there to Moose

as soon after they reach Albany as possible. If Lac Seul or Osnaburgh should have any Transfers against any Post or district unconnected with this district the Acct should be forwarded, but any Transfer from Lac Seul or Osnaburgh against any Post in this district need not be noticed as it can be settled hereafter at this place.

Immediately after the Islanders leave him the Albany furs should be packed and forwarded to Moose along with the Inland Returns to be packed there for England.

Should the Gentleman to be appointed to the Charge of this district not be here in the latter end of August, it will in that Case be necessary to make up the supplies required for the Kenjuack Goose Hunt and Goose Hunting and to send them thither in the Sloop not later than 31st Augt or 1st Sept. The Sloop Master will of Course be the Goose Hunt Manager.

In dealing with Indians no goods should be given them in debt, unless to such Characters as may be depended on and that only Call him once a year even to them no more should be given than Ammunition, Iron work and Twine. — Homeguards, however, will require a little on the Fall, unless they are fortunate in goose hunting to enable them to pay for their supplies with feathers and Quills. The Goose Hunt Balance of last Spring, of which a list is left, if not paid up in the Fall should be carried to the Indians per Acct after the Fall Hunt is over.

Clergymen of any Rank or Creed that may call him during the time you may be in Charge are to be treated with becoming respect and Civility and are to be afforded every facility to instruct the natives in the principles of Christianity. Whilst here they will be entitled to the hospitality of the establishment free of expense but any thing else that they may require will have to be Charged to their Acct.

Nota Bene Cookstater, a, James Morrison, a, B Cookstater, Sr, Cookstater, P Cookstater & Joseph Nyman are entitled to 8 lbs Sugar & 1/4 Congou Tea each for each of the Months of June, July Augt Sept & October and to half the quantity for each of the remaining seven Months.

In O. Bale 19 — If this bale is the same as #16 as expressed the two fine shirts are short with Invoice — I am inclined to think the expression is wrong & that it should be stated same as No 18 as regards fine shirts.

Pack[2] acct should have said No 18 instead of 16

In L. S. Packing a/c of 2 point Blkts — 1 more is entered than Invoiced.

The Invoice will I think be found correct.

In L. S. Packing a/c of 1 point Blkts 2 less are entered than Invoiced.

The omission I think will be found in pack[2] Acct.

In L. S. Packing a/c of Blanket Capote there are 14 of 2½ Ells entered whereas only 10 are Invoiced — and 1 of 4 Ells is entered; but 5 are Invoiced.

The Invoice correct & the sizes erroneously given in pack[2].

Memorandums for Mr C. F. Hardisty

Mr Hardisty will I trust be good enough to advise the Officer in charge at Manufactory to direct his Bale makers not to use the fine striped Blankets for Bale wrappers but take the plain ones in Stead.—

Mr Hardisty will please advise me by return Packet if any of the Co's Servants attached to this Post are to be removed from here next outfit, so that Those who are to be removed may be allowed to take in the Co's Boats their families or private property Mr Hardisty will please bear in mind this Post requires men that can be trusted to go after our Indians' Guns.—

1 Farmer's Chisel ½ Inch is absolutely required here to make the Windows for the new House I trust Mr Hardisty will please send the required Chisel by return Packet.—

HUDSON'S B. COMPANY

Mr Hardisty will I hope be good enough to let me know by return Packet how we are to manage to get a Bull Calf for this Post.—

2 Gun Locks are now forwarded Mr Hardisty will please have them repaired at Albany & send them back by return Packet.—

Memorandum for Gentlemen in Charge of Outposts —

Indians when employed getting Logs & Poles & Cutting & Rafting home fire wood are victualled with 1½ lb. Oatmeal and 1 pint each per day, and for Sunday 1 lb. Flour 1 pint and 2 plugs Tobacco and are paid ½ Made Beaver for each working day of the week, but no pay for Sunday — and the Indians employed as above are not entitled to any premiums, but also supplied with 1 pr Shoes and 1 pr Soles while on above work. —

Indians employed Cutting and bringing home Hay are also victualled with 1½ lb. Oatmeal and 1 pint per day — and are paid at the rate of 1 Made Beaver each per ~~day~~ every Good load of hay they bring home and carry up the bank, and 5 Made Beaver premiums for every Eight days work at the hay, and the Mowers & Hay Cutters receive two made Beaver each when the hay is finished as an inducement to others to buy and learn to Cut — all these premiums are paid in Powder and Shot in lieu of Dry — they also receive while at the hay work 1 pr Shoes & 1 pr. Soles each & sometimes 2 pair each. —

Indians Employed about the Establishment at any kind of work, are paid ½ Made Beaver each per diem, and are rationed with 1 lb. Oatmeal & 1 pint per day. and 1 lb Flour, 1 pint, & 2 plug Tobacco per Sundays. —

The Premium to Indians for work is paid only in ammunition, say ¼ lb Powder 100 Bs. and 2 lb. Shot 1 Made. — The Premium for Furs is also paid in Ammunition, but the trading Measure is made use of Viz — 1 lb. Powder 100 Bs. 1 ¼ lb. Shot 1 Made. —

The Indians are allowed 1 Made Beaver premium, on 5 Made Beaver of Prime Furs, and Martens, — and on 20 Made Beaver of all kinds of other prime Furs, but no premium is allowed on Coarse Furs, Feathers or Quills. — the Premium is also paid in Ammunition say 1 lb. Powder 100 Bs. 1 ¼ lb. Shot 1 Made. —

HUDSON'S BAY COMPANY

On Indians hunting 300 Geese during the Season is entitled to a premium or gratuity of 5 Made Beaver in any goods in the Outfit of the trading Tariff, and for the Indian who makes the best general Assortment of Furs at Chimney Shore paid an Extra 5 Made Beaver, which encourages them etc to hunt and try to beat one another. The latter premium was adopted from predecessors, and it of course will be optional with any successor to use it or not as he chooses. I have found it to have a good effect. —

When Men & Indians are sent on a trip to [illegible] Provisions in summer but seldom more than 10 days on Winter, and their pay [illegible] as well as when sent to Esquimaux and Chimney is 1½ lb. Flour 1 pint Oatmeal [illegible] to an Indian per day 5 Made Beaver, Esquimaux 2 Made Beaver [illegible] Made Beaver

The usual weekly Return to the Servant at Albany is –

7 lb. Flour
6 Geese } but when Geese are scarce they get Pork at the rate of
1½ lb Oatmeal & ¼ lb. Grease } ¼ lb. per day in lieu of a Goose –

For the Goose hunt the Indians get
¾ lb. Gunpowder
2 " Shot. with
1 Flint &
1 Plug Tobacco
This is called 1 Measure, and for which the Indian is expected to give in 15 Geese or Ducks. The Measures that are left unpaid in the spring are carried to the Indians Fall hunt, and should any of his spring and Fall hunt then remain unpaid it is charged to his account at 2 Made Beaver the Measure to be paid for in Furs – The Indians bringing in Geese at Albany during the hunt are accustomed to get a little Biscuit say about ¼ lb but nothing else. –

Should any Martins Falls or Severn Indians visit Albany, they are not to be trusted with Debt – for they are great scamps and will never pay, some of the Severn Indians who come here have debts here of several years standing, and if they bring any Furs should be made pay Furs &c. –

Jon Neigaud and his Crew should leave here for Rapuskie with the Sloop about the 10th September, and not later than the 15th Neigaud to attend to the Goose hunt, and the Crew might remain this fall at Rapuskie to finish a small house that was begun last season, but owing to the vessel remaining such a short time at Rapuskie and the crew being busy salting Geese &c it was not finished – the men usually walk back from Rapuskie after leaving the Sloop this early and are sent back again in time to bring her back – A sufficient supply of Ammunition for the fall and spring Goose hunt must be sent to Rapuskie by the Sloop, besides Empty barrels and Salt &c – An Assortment of Goods is also to be sent to trade with the Indians, but Jon Neigaud is not allowed to give any goods out in debt to Indians. About 1 Qtl Oatmeal and a little sugar might also be sent to trade for Goose Grease and a few Cranberries – Jon Neigaud Son usually is sent with the Sloop in the fall and spring, and provisioned Goose hence for the hunters in the fall he receives 10 Made Beaver in goods at the Indian Tariff, but this he receives no pay for the spring, although he gets a little provision [illegible] which are [illegible] of Rapuskie in day book. –

Peter Linklet [illegible] about the middle of September to attend to the Goose hunt at Chickney [illegible] a supply of Ammunition, Salt. Empty barrels and Jeathern bags – no Goods [illegible] to be made at Chickney – a few empty barrels should be left at Chickney [illegible] hunt – say about 10 and 1 Barrel Salt as it is more expensive and [illegible] Salt.

Jow Mcgaud gets a Post Masters Annual Allowance of Tea Sugar &c &c as will be seen under the head of House Expences at Bay Port.—

James Manson, Benjamin Linklater & Peter Smith are allowed 1 lb Tea and 6 lbs Sugar per Month for the Months of June July, August, Sept & October, and for the other 7 Months of the year half the quantity of Tea and Sugar all the other men receive 2 lbs Tea monthly for Cook in lieu of Tea & Sugar.—

In writing by the Inland boats & the person in charge of Lac Seul and Osnaburgh, it will be necessary to write to the Gentleman in charge of Lac Seul, at what time he should send off the Packet for this place to Osnaburgh, and to the one in charge of Osnaburgh the names of the men he should send from there with the packet down here— The packet from Inland during the Winter usually consists of a packet from York Factory for Moose, and of the Indents from the Inland posts, and sometimes private orders on Moose Factory, The expence of conveying the York Factory packet from this place to Moose, and return here of the people is charged to the Northern Department General Charges.—

A quantity of Fish is usually procured here in the fall, and with it the old Widows and Children who remain round about the place during the winter are fed, the Dogs also get fish for their food during winter, and they are very good to have to give to Indians who may come in starving, as they frequently do about fifty or sixty Odem barrels full ought to be sufficient and some of them may be salted for the dogs during the summer, and are very good to eat.—

The roof of the dwelling house is very leaky and although I had it tarred last summer it still leaks as much as ever when it rains. I have had weather boarding round this spring and it should be weatherboarded in in the course of the summer if possible and then tarred, or painted.—

Lac Seul will be supplied with two new boats this summer (1862) and as a boat is expected to last Five Years, no boat will be required for Lac Seul until the Winter of 1866/67— Osnaburgh and Martins Falls were supplied each with a new boat in the summer of 1859, and 1 boat for each of these posts will be required for to be built for them during the Winter of 1863/64 the crews of the crafts of these posts in the summer of 1864 an extra boat was built for Osnaburgh last year and sent up summer 1861, and if another is required it can be built to replace the one now in use, I do not think however that 4 boats will always be required.—

One or two large hay boats will be required to be built during the winter of 1862/63 for Albany, I have built 1 boat myself but I have been here, but as no small boats will be required next summer at the more safe have time enough to build two hay boats.—
