HUDSON'S BAY COMPANY

Dear Sir,

I have much pleasure in submitting to you a very brief report of proceedings &c &c of the past year.

You have already been apprised of the safe delivery of the goods &c, of the Spud Outfit, as well as the arrival of Brigade without casualty.

Immediately after my arrival here last autumn I forwarded to the out Post Cat Lake the usual outfit of goods and provisions &c for the trade, under the superintendence of the party before in charge, amounting to nearly £240 sterling. The party has just returned, with proceeds of the Winter trade, and I am glad to say that the little affairs of the Post have been satisfactorily conducted. The Returns I regret to say, in Martins, Lynx Mink, are somewhat less than those of the past season, but in all the other kinds of fur there is a slight increase. The deficiency in Martins, one hundred and fifty, Lynx fifty and Mink four hundred. The nett proceeds of Returns, when passed at the rate of £1874 amounts to £607 sterling. The usual number of Indians were seen and dealt with at the outset, on

traders living here among them -
In spite of the establishment and Indians were passed a thrifty easy winter in regard to food - Rabbits thro' not plentiful were obtained in sufficient quantities to satisfy their wants - The fall fishing too was excellent but the severe weather unfortunately robbed the greater part of these fish

The fishing of the Post, too was likewise a success but the same misfortune befell us as happened to the Lac La Pluie party -

We however, had a large quantity caught which proved of very great use to us during the hard months of Spring & the whole might have been rather hard up as Rabbits were scarce

The employment of the men during the winter months, was the usual avocations of the Post - such as sawing, cutting wood &c and in procuring furs for fur - The sometime hunt this have been employed restockading the establishment & the entire removal of which I mean, with a view to reestablish this summer -

Our agricultural products of last fall were not equal to those of the preceding year - cause, want of rain, I presume - The same again but a few gardens under seed,

With regard to the trade in most kinds of furs, it is quite tiring to be able to speak favorably -

The very small quantity of snow on the ground all winter, and the favorable

weather ~~influenced~~, particularly facilitated the hunting of some sort of fur, whilst on the other hand it proved quite the contrary and for foxes, martens, and ~~lynx~~ particularly so — Were it a good reason for the trapping of Foxes, we would have shown a considerable increase, as it is, we have increase on that of last year —

Martens and ~~fisher~~ are ~~very scarce~~, ~~hardly to be found~~ and difficult to trap, consequently I regret to say we have secured less than last outfit — The season has been good for the trapping of Bears, Otter and Musk. and in these skins we have a considerable increase — The Rat hunt turns out much the same as usual — Ice came plentiful many are reported to have been frozen to death —

It is unhelping to say, the majority of ~~the Indians~~ who have already come in, have soundly paid off their advances, I am a few accounts they have failed, ~~especially~~ ~~and particularly~~ those towards Lac Seul — A number has yet to join, all of whom I think will pay off their balances —

Taking the Outposts as a whole, I think they have hunted more, a good deal more of the less valuable fur, and little less of the more valuable fur, than that was hunted the ~~hunting~~ last season —

I am, Dear Sir,
Yours Obt Servant
James Clouston

Suggestions for the exploration of a new route of communication, by which if (should) found practicable, the transport of the supplies and returns to and from the Districts of New Caledonia and Thompson's River might be advantageously carried on in connexion with Fort Langley and the new establishment of Victoria

---

The proposed route crosses Frasers River about 30 miles above its junction with Thompsons River, at the point A on the annexed sketch; and thence runs in a westerly direction to the shores of Thompsons River at the point B. The distance between these two points appears to be about 3 miles, two thirds of which are occupied by the navigable lake marked A, a short portage, the remainder by a well beaten Indian portage across the intervening height of land

The open between the two points A & B, the accounts that have reached us are to be depended upon, is the only portion of the proposed communication which presents any difficulty: for the navigation of Thompsons River & its junction with Frasers River and thence to Fort Langley, is all about three days canoe-travelling, is alleged to be free from all impediment. But there is some question whether a portion of the country bordering upon the latter will admit

of the passage of loaded horses; by which means, for the reasons stated under the sketch annexed, this part of the transport would probably require to be objected. It is supposed, however, that upon examination this apparent difficulty might be overcome; in which case a very facile, and it is presumed advantageous, route of communication would lie open to us.

The annexed sketch compiled from Indian information and other sources, will exhibit approximately the route in question. Its eligibility is a question of course which actual exploration alone could satisfactorily determine.

NB From the crossing place A. to C. said to be navigable with canoes or boats: but owing to the impracticability of transporting a large outfit, with the necessary crafts, across the long portage from C to B in the ordinary manner, it would be necessary to extend the horse transport at once to B: where only the available navigation may be said to commence. It is supposed that a horse-road might upon examination, be traced out in the direction of the red dotted line. The natives, in their frequent passage between the two rivers, use canoes upon the Lakes, and make the necessary portage on

on foot. In this manner with heavy burthens, they ordinarily perform the distance in four days. Three or three days more they reach Fort Langley with canoes. It gives a total of 7 days journey from the crossing place at A to Fort Langley. In coming back they take three days longer. The navigation is represented as being free from all obstruction; and Mr Work has been more than once performing both trips by having boats from Fort Langley to within a short distance of the point B.

In the accompanying plan has endeavoured to exhibit by a small cross at B, the position of the proposed establishment under the Puget's System of Forts implied. The additional advantages which it is supposed, would arise from compensate the expense of its maintenance.

Montreal 22nd May 1868

Memoranda for Mr Colvick.

1 Always when you receive goods before they are disposed in their places, or their bulk broken, mark the cost price on them from the invoices which accompany them. You can do this in the case of Dry Goods by means of a pasteboard ticket, which can be pinned to the big end of each piece, and in the case of Goods contained in boxes, such as Smallwares and some kinds of Groceries, the price can be put on the end or bottom of the package. Wherever you put on the price, whether by ticket or otherwise, put down also the description of each particular kind of goods as given in the invoices. On ticketted goods put the description on the reverse side of the ticket, and on other kinds immediately below the price. Attention to these simple instructions will enable you in the future to draw up your Indents and Inventories quicker and more correctly, as all the necessary information can be had by looking at the goods and these important documents will be made up in the exact terms of the invoices furnished you which is the

the proper way to make them.

2. In your last Requisition for English Goods you indicate by red lines, no less than 6 different kinds of goods almost all imported articles received last year, which you state, were of very inferior quality and consequently not well adapted for the trade and on which there must have been at least a partial loss.

It is, of course, most essential that you should be supplied with the exact kinds of goods required for the business and you did well to point out as inferior those referred to, and you should always report on the adaptability as well as on the condition of the goods furnished to you for the trade of the district. — There is quite as much danger on the part of those who execute our orders of falling into the mistake of sending too Superior goods which are too fine and too dear, as of sending goods of the opposite description — a mistake which is quite as great as the other, and if you have any such cases in future, please note them carefully and report them to this office. — Proper attention however to the marking of the cost price and description on the goods at the time you receive them will put in your hands in a convenient form, the means of making up your Indents in a complete manner, and the risk of getting inferior goods of any kind will be much lessened.

3. Classify your Inventories and Indents Alphabetically — giving a line to each article and taking particular care when making up the former that you do not mix Canada goods with English or vice versa

Dear Sir,

I have to acknowledge receipt of your favor bearing date 27th Sept. which duly came to hand and contents noted.

I herewith enclose you a Statement containing Indian debts at the close of last Outfit, as well as amount of advances given by Mr. McDonald and myself on account of current Outfit, by it you will see that the Indians had already received the bulk of their winter supplies before I reached here, and to enable them to proceed to their hunting grounds, I was put to the necessity of advancing them to the amount shown in the statement, the supplies consisting principally of Flour, Tea, Sugar, Sand Job, & O ammunition, supplies which they could not possibly leave without. I endeavoured to cut them down as much as possible, but was placed in a very awkward position to do so. Mr. McDonald should have declined giving any advances on current Outfit knowing I was appointed to supersede him in the charge of this district, and likewise having received instructions both from the Commissioner yourself to the effect of discontinuing giving such heavy advances as he was in the habit of doing, and I am the more surprised his having done so knowing the amount of debts outstanding from the last Outfit.

Although the advances shown in the statement for the current Outfit amount to a pretty high figure, yet I am convinced that they are

much lower than the last year both in goods & cash the former amounting to $2011.63 and the latter to $116.20, very near the ⅔ of the total amount was supplied by Mr Donald. I can very well see the absolute necessity of considerably reducing the advances, but from the fact of my not having been here at the commencement of the Outfit, I could not possibly introduce any great change, and thought it advisable to get them (the Indians) away as quietly as possible and without causing any discontent amongst them otherwise they might rebelliate and dispose of their furs somewhere else.

I will endeavour to carry out your instructions in regard to Indians advances, particularly cash which I consider is a very foolish transaction and should be abolished as soon as possible as well as the system of issuing "bons" which you refer to. I will write more definitely on the subject further on, when I am more fully acquainted with the Indians of the places individually and the prospect of fur bearing animals throughout the surrounding country.

The Indians have all left for their hunting grounds but expect a number of them in by the first of November. I will then be in a position to judge what the prospect of the trade is likely to be the coming winter.

Herewith enclosed you will please find Requisitions for English and Canada Books, both for this and Seven Islands Post Outfit 1891 which I hope will meet with your approval. In making them out I was guided by previous Indents and with very few exceptions have asked for much about the same quantity.

Per Fred. W. Lennon of Seven Islands has made a request on me for $200.00 for the trade of his Post. Will you please supply the amount and charge to Seven Islands District and forward as soon as possible.

Our fall supplies haven't as yet reached here, but hope to get them soon.

HUDSON'S BAY COMPANY

Dear Sir

I have received your letter
of 11th instant, also advices of your
draft £100 stg & £5 - and £5 to 61

Any drafts on your forward
account in London must be adjusted
by yourself by letter to the Secretary,
there are no funds for the purpose.

I am surprised to hear that
the Indians have accused their
usual fall supplies" [illegible] boundary
as Mr McDonald used to often
been accused that advances such
as he used been on the habit
of giving had to be discontinued

It is hoped however that
you do not mean to be urged
that the same quantities of
cash and goods as heretofore,
have been given out.

Kindly send me statement
of all advances showing separately
cash and goods given to Indians
on account of 1890; such
statement to indicate the amount
of each Indians debt at the close

of 1850 and also what amount of your supplies, (cash & goods separately) on the end of each December has been given by Wm McDonald, as he yearly (each separately) has to account, among your own shew your agent what is required.

I can well understand that the majority of the Indians had been advanced before your arrival, you must have had difficulty in cutting down the advances to the strongest, but difficulty is not difficult, the instructions given to the Commissioner and myself take on letters to Wm Sinclair and personally to yourself regarding the absolute necessity of very considerably reducing all advances both on boats and goods must, regularly be carried out without further delay.

Every man Indian who leaves his debt unpaid, must receive no advances until that debt is paid, and those who do pay must not get more supplies expenditure say two thirds of their previous years account.

This must be strictly carried out, and in addition the cash given as advances must be

restricted to the lowest possible limit.

The practice of giving casks of all as advances is much objectionable and unnecessary as the Company keep all requisites requisite to enable any trapper to go to the woods; you which purpose alone advances are necessary and for which cash should be remitted if ever required.

The system of "loans" introduced by Mr McDonald appears most objectionable, and I hope you will be able to abolish it.

In conclusion I would remind you that the responsibility for obeying these instructions rests entirely with you; they must be adhered to, although of course the details are left to your own judgement but I suppose it will not be advisable to do anything much before Spring as to the policy you propose adopting, until you have learned their results next Spring.

Wishing you every success in the difficult task before you I am

Dear Sir

Faithfully Yours

In pursuance of my orders to accompany Mr Rowand to Albany Fort, and there receive charge of the Post from Mr Lethbridge & proceed to Rainy Lake House, I arrived at Brandon House the 3rd May where I found the people in a state of mutiny under the direction of a William Gerston, who had taken upon himself, by the advice of one Archibald Mason, the charge from Mr Henry who had been obliged to leave Brandon House and take up his residence at Salina

Finding this to be the case on my arrival I found myself under the necessity of interfering so far as to endeavour to persuade William Gerston & the rest of the Men, to return to a sense of their duty but found they were so little inclined at first to pay any attention to what I had to say, as they had been to what Mr Henry had said, that I thought it best to consider that the Company's affairs would suffer, for the ensuing year in that quarter, more than had sufficient this determination of all going down to Albany. I then told him it was a duty encumbent on me to try and persuade them to the contrary, and as William Gerston was the principal Man whom they chiefly confided in, I addressed myself in the first place to him, desired to know his determination before I spoke to any of the others, & spoke to him after my arrival. I called him to one side and told him I came there with an intention of encouraging them and to work, I desired him to know whether he was inclined to accompany me and the rest of the Men under his charge according to the orders of the North Committee. He gave me no satisfactory answer, but seemed displeased that I had not brought the Company's papers to him as he said he considered no man in this Country to be his Master, The Hudsons Bay Company were not his Masters, and he did not know he would be answerable for his conduct. I told him I did not wish to assume to myself the right of commanding his Men contrary to their own inclinations, but only wished to know what was his intentions with regard to the future, he then said that for his part he was determined to go to Albany and he believed every one to be of the same determination but he only spoke for himself. He then ordered the men formerly employed on, and still treated by Mr Henry as the Men of the Company, to have nothing to do with the Goods, and ordered them to keep their arms on, which they were not accustomed to do, never to take them off, called them Colony Dogs, and told them they have nothing that they wanted or even owned to do with the Company's duty, that the Men wished Archd Mason to take charge which he refused they then joined with Archd Mason insisted on his Gerston's taking charge which he did and has acted to the best of his judgement for the Company's interest. I told him that I feared in case I supposed himself to be imposed on or misled by Mr Mason who appeared to be a very imposing and assuming man, he was no confidential servant from the Company as he says he is, and that it was surprising to me how a man of his Gerston's sagacity could be so much mistaken in the Masons Character. Gerston replied he had no dealings with the Man and that he believed there was no Man in the Country knew what he (Mason) was sent

sent out for - Jones told me it was in vain to persuade him from his opinions of Mr Mason & endeavoured in vain to prevail upon him to propose to the Committee to send Mr Mason - I assured him he would get the offer of it & some future time this he could not see drawn as he was going an ace & told him to reflect seriously on what he was about and gave me his final determination tomorrow - The next Day Gordon came to me with many fair promises & then angry on his way & when I got an opportunity of speaking to him he seemed more reserved and would scarcely give me an answer to any question Gordon told him what was the occasion he appeared very much surprised why did he not open his mind and expose himself freely as I had to him - He said that he found himself obliged that he was locked up on a sudden with a sense of duty & fear that I did not think it most while I was using all[illegible] to - last he expressed his being dissatisfied at nothing transacted with the Company's papers & told him if I had left papers, it should not be able to board of having compelled me to produce them as he has done with Mr Jones & that if he did not choose to take my word he might do as he pleased but that he should stand to the consequence he went away & suggested he would come in Mr Isaac Cooks before Mr Mason James Inkster Jn Cooper & John McKay - he said this temper should not allow him however he sometime after told him that notwithstanding what had past if he would return to a sense of his duty, and go not to York with me or remain Inland - might be inquiring & should interest myself in his favour in as all I could to him & obliged to go to York & join Mr Jones in his insinuations against him he might depend on being received Mr - He told me that was a piece of villainy, to join him as Mr Jones did not thank me for my pains or the reward no man deserved - He would justify himself before the Company - & that it was immaterial to me how such a fellow or a Committee as he might misrepresent my words - That I should neither join Mr Jones nor him in any thing unlawful & that he & the other men who were found might be made sensible of my meaning - Signified the same & then went away -

Took an opportunity to call the Cooper James Inkster to come to me, & told him what he thought of the transactions at Brandon House last winter & said it was a shame to see - & that Mr Jones had been cruelly ill treated & that he has told me as past to it - & then asked him if he would remain Inland for the summer as Master at Brandon House, he promised he would provided I could get a few men to stay with him & spare me one Gordon but if Gordon could be favorable on to stay he would like it much better, he told me also that Gordon had the men so much under his thumb that he could lead them any way he pleased he bigger than Jones & by Gordon may more as he thought if he was not favorable on stay he might not lead all the men to Albany by a sufficient number as would be got together with him however he believed but to them would stay, he not promised them out & they promised to stay until asked to leave Gordon also - as they said he was but a servant with the Gentlemen there - Continued on from that not a man would leave he was but a servant with the Gentlemen there - Continued on from that not a man would leave agreed to come from to York if Gordon had not remained Inland - I was determined to stay him once more and ask[illegible] any thing from Gordon for the last time & to try him once more and ask any thing from Gordon for the last time & to try him once more and ask any thing from Gordon for the last time & to try him once more and ask

Burn immediately after I now endeavoured by every conciliating measure to gain the confidence of the Men, in order if possible to recover Mr Hemsley's private property, which they had seized and also Journal to recover the Persons of Archibald Mason & John Anderson who had been sent from a passage to Montreal by the N.W. Company. As I could do nothing by force I thought it the best way to have recourse to Stratagem, and determined to try what effect a little grog would have on the Men. I applied to Mr Gordon for some Spirits to give the men a treat as part of them had promised to accompany me to York. He told me there was none in the House but he could get some from the N.W. Fort, by applying for it. However it was not time for the purpose of trade. he told me I had already borrowed the greatest part of a keg from Mr Pritchard, Master at the N.W. Fort on their conditions, that the Men might have a Glass of grogg, when they were resting, & working in cold water on the leaving of the ice. That Mr Pritchard wished him to take the remainder of the keg, that it might be filled up again, when returned. I knew this circumstance before Gordon told me, & had told Mr Pritchard not to supply Gordon or any other person from the Brandon House, with Brandy or any other article in the name of the Hudsons Bay Company. He told me he would not unless I myself requested it. but hoped what had been borrowed before would be paid. I told him it should & immediately sent him some after by a Man to send up the remainder of the keg, that Gordon had borrowed — I gave a treat to the Men, but they had been so accustomed to treats of this kind, that made mine of little value, for it only served to shew me that Archibald Mason was a Complete Drunkard, added to his other accomplishments. I wished to have an Opportunity of buying him, as it appeared to me the first night I came to Brandon House that he was a little elevated with Liquor by the incoherent way in which he spoke. He told me he had been sent out by the Gentlemen to discover the Lands in the Country, and the nature of the soil, & there was one great observation, he had made which was that there was four great governors in the Country, & that was Mr Wilkie at Pasquia & Mr Thomas Mr Thomas at Albany, Mr William Gordon at Brandon House & Mr Kennedy at Swan River — This slow, and a great deal of mixed

mixed liquor, or grog which was standing near him, which he said he had ordered in to offer me a glass, gave me a much worse opinion of him than I had from the account I had heard of him. It may be necessary to add here that Yorston himself was at the old House, for he had taken upon himself to remove old Brandon House about five Miles farther up the River, to a Spot more advantageous for getting wood, as well as several other conveniences attending it. When in Work to himself the merit of forwarding such a piece of work in a short time, I told him that a thing done contrary to orders was sure to be wrong be it never so right. Being I would not succeed in gaining the confidence of the Men, so far as to get Mastership power. I did every thing to hasten our departure for the Forks of Red River, where I Purposed to meet Mr Heney, & on receiving the Invoice of Furs, Journal and other papers from Willm Yorston I embarked at Brandon House the 23d June with three boat loaded with 54 bundles of Furs & 49 bags of Pemmican and Manned with Sixteen men Viz John Lyons Thos Favel Dr Wishart, Thos Mason Montgravile Favel John Sinclair Jerman Monjenour Jno Corrizell, Andw Belkie Louis Gollet Cuvr & John Linklet & George Sinclair from Swan River John Bellanden Willm Scott Jno Cumins & George Henderson, the four last determined for Albany, Also John McKay junr Thos Norris & Jack Mason Passengers. After proceeding down the River Six Days we arrived at the Forks where we encamped a little below the N W Fort to wait the arrival of Mr Heney. I called on Mr Wills one of the N W Gentlemen who received me politely & told me he understood Mr Heney did not intend to start from Pembina for some time to come. We remained near the Forks of the River till about the 5th of June when Mr Heney arrived in a Canoe manned by Six Canadians. He staid on after saluting me till the 9th he intended to put

up ~~accompanied~~ the point below. Hale and I should soon follow him. He had hardly turned the point below us when we saw a Canoe coming with the Canadians two of the N.W. Proprietors (Messrs. McDonald & Wells) and two Clerks, pushing off to follow Mr Heney. They came in sight above us when encamped and asked if Mr Heney had landed, him. Hale told them he had not, but that he would ~~just~~ encamp a little below us. They pushed off and proceeded down the River after Mr Heney immediately after their departure Hale ~~called~~ the Men to Man a boat, & we would follow them down the River. They hesitated & said that had no business with Mr Heney and did not wish to interfere. Said I could either hire to give me a passage down, but seeing them determined backward I told George Vanclair to jump in a small Canoe and accompany me down to where Mr Heney was. He embarked immediately & found Mr Heney had only turned the point before us and debarked. He was sitting on the N.E. bank with an old man by him alongside four armed Men, the two proprietors above mentioned and two their two Clerks who had come to claim Mr Heneys Canoe Men, whom they alleged were under agreements with them, and that unless Mr Heney would consent to pay their debts he should not embark them. I called Mr Heney to one side & while we took a walk in the plain I suggested to him that Messrs Mowat had bespoke a passage to Montreal from these two proprietors, which I believed had been promised & as I presumed he was a servant of the H.B.C. it should be on their requiring him a passage to Montreal, only that he should answer for the debts of the Canadians he had engaged - I also mentioned to him, I had two men there under my command, which I would put on his Canoe, rather than he should find himself compelled to become accountable for the debts that were due by two of his Canoe men - the said two men valuable men & he had orders from the Governor of the Hudsons Bay Co to engage such men & their debts would be paid out of their wages as soon as it became due. He returned to Mr Donald & Wells, when Mr Heney told them he would not consider himself bound to fulfill any promise he would make for the payment of any debts due by the men he had engaged or words to that purport if they gave the least protection, or encouragement to

to Messrs Mason, they argued the matter & said it was not a parallel case and gave as every reason to believe that were more bent, on having justice come themselves, than they were ready to show to others, they however promised not to give him a passage and as Bills were presented against them of Mr Heneys Men, which they confessed were due Mr Heney found himself under the necessity of giving a receipt for payment when they requested me also to sign these receipts which I would not ~~and with~~ properly refuse as I saw him entirely deserted by the men who ought to have protected him and who was in hopes of seeing him left behind on the beach.

After settling this business I related to Mr Heney what I had done at Brandon House which at he thought wrong I was ready to assist him in correcting with all my might. I hoped he would not think me too officious in what I had done, as I assured him however I might have erred my intentions were only to promote the Honble Company's Interest, & as he now had arrived I left it to him to write to Messrs Mowat, and settle with the Salteaux Indian as he pleased only I mentioned to him the necessity of getting four of them to supply the place of four of the Brandon House Delegates who insisted on going to Albany, which he immediately complied with and expressed himself satisfied with ~~what I had done~~ my conduct.

We now separated the Canoes & dispatched two Batteaux to Albany with the 21 Pieces loaded with Leather & Provision. I was embarked for Lake Winnipeg & Mr Heney in his Canoe with the Canadians.

Thomas Mason of the parish of Kirkwall has been 10 years in the Service Wages £25 a Labourer — at Brandon House Says he

Met Mr H. 30th Octr at the Portage near the forks by appointment with Horses & Carts to transport Mr H.'s Property to B.H. — Mr H required him to remain until McAuld arrived to which he objected for want of clothing & provisions as this Mr H. ordered him if duty & told him he should no longer be admitted into the service But Mason would not deliver up the horses but said as he had brought them so would he take them back again. Mr Kennedy armed himself with pistols but says he knows not what his intentions were They altogether set off to B.H. and on Mr H.'s arrival the charge was given to him by Mr Goulston & nothing disagreable happened untill the 24th Feby as he thinks to the best of his recollection being Sunday during that interval only little cases occured such as not supplying them out of the warehouse with goods requisite for their comfort & necessities tho they would willingly have paid for them if in our power to do so — On the night mentioned at 11 O'Clock Mr H. came into their house armed with pistols in quest of Mich. Mason with whom he had some quarrel not finding him there he went to another of the Mens houses & there he was disarmed by the men — The men then took the keys from him and Mr Mason took Mr H.'s writing Desk which he yet keeps. On Tuesday morning following Mr H. got a few Canadian & set off for the Cabina House without Dogs or horses The next day 3 men followed each with 3 dogs & overtook him on the road passed him & got there before him Says their purpose was to get 2 keg kegs ca 10 Gal. of Liquor with which they returned to B.H. He adds that Mr Mason took the keys as he stated himself to be the Agent of the Bay Land on the morning of the 25th the charge was given up to Mr Goulston Mr Kennedy says that this man was more civil to him than the others & agreed to stop inland or proceed to G.F. as required which are in his favour.

John Wishart of the parish of Cross has been 8 years in the Service Wages £22 Steersman at Brandon House Says he nearly the very same things as Mason he adds that both Mr Finlay & R. Mason were in liquor on the morning of the 24th Feby he accompanied Mason to the Forks and on their arrival at B.H. the men required of Mr H. to know the new regulations which he refused when they also refused to work for some days they however went to work — On Friday Mr H. wanted him to accompany to Pabina Wishart asked for New or Cutten shoes but receiv'd none so could not go & Mr H. sent down a Skin to be cut into shoes for mending snow shoes that he Wishart would not take it to the women who usually repair such articles He however was one of the 5 who followed after Mr H. & arrived at Pabina before him says they went for goods but got none whatever of no kind except their own & some of Frenchs Masons Things with which they returned to Pabina B. H.

John Ebisher of the Parish of Stanhouse has been 6 years in the Service Wages £18. Labourer at Brandon House Says he accompanied Mr F. from Albany says he has seen Mr H 3 times in the course of the year in liquor repeat nearly the same things that the Orkneymen have said but says explicitly that the 5 men went to Pabina expressly to protect the men there that Mr H. might not revenge himself on them because their fellow servants had served him as they have done Says that Mr H. had got an old Gun from a free Canadian close by B. House that on Mr H. arriving at Pabina the Men took the Gun from him. — Mr Sinclair asked whether any Natives usually bringing furs came to B. H. during Mr H. being there says very few came & none a second time as they were all told by Mr H. that he was come only for Provision & wanted no furs Mr S. Smith asked whether he knows if Mr Gordon or others at the house gave directions to the natives to refuse bringing in furs to Mr H. says he never knew any such but adds that immediately the Fur Indians came in as usual with their trade — Says that it was owing to the preference shewn to the Natives bringing Provis that the other Natives were displeased & had Mr H. continued there they never would have brought any trade at all but have gone to the Canadians —

John Corrigal Brush of Erin has been 5 years in the Service Wages £18. Labourer at Brandon Hse Says on Mr Heney's arrival they understood there were new regulations & new prices to the goods the men sent to know what usage they were to get thro' the year and what they were to pay for the goods they purchased they were told such goods as they had bought before his Arrival should be at the old prices but thereafter at the new prices - That they then wrote to him to require them to sell the goods at the old prices & he answered the same way that he would not so they all refused to work but after a day they did go to duty of their own [illegible] Says on the 24th Feby the men only took his pistols from him & nothing besides tho' the others said they took his gun & Sword and Keys of Warehouse Says he never heard that the 5 men who followed Mr H. to Pabina were to assist in [illegible] the Pabina Men as the former man said but thinks they went for Goods — On every further questions Says the Men took this thing from Mr H. as he had said he could arm himself out of the warehouse if he wanted to do mischief to prevent this they gave the Keys to R. Mason Says that there never was known so few goods being sent from Albany only 2 Bales in the place of 4 or 5 as before these

done it could not be expected that the Furs could be consid-
erable — Says he heard Thos Favel his Interpreter say that
Mr Heney gave instructions to the Indians not to kill furs
but to get Provisions Says after Mr H. went to Pabina
most of the Indians came in with furs than had come while
he was there — Says that Archibald Mason was only once
at Canadian House in the Spring this J. Isbister expressly
said Mason was several times there making his engage-
ments with the Canadians for a passage to Canada from
thence he was to go England.

Andw Baikie Parish of Evie 7 years in the Service
Wages £18. Labourer at Brandon House Says.
He was one of the 3 who owed Mr H. at the Bpage in the
fall — Says after the Pistols were taken from Mr H. they a
short while after also took his Gun & Pistols. Positively says
they neither went to protect or assist their fellow Servants at
Pabina but only went for goods as he supposes Distinctly
says that if Mr Heney really had an evil disposition towards
the Men of Brandon House or Pabina he had many Op-
portunities of doing them a mischief as he could have got arms
from numbers of the Free Canadians every where —
Says he never heard or knew that Mr Heney told one the Indians
not to fetch furs but to bring provisions neither did he ever hear
that any one else had told the Indians such Says he never thought
the Indians came in with fewer seldomer to Mr H. than they used to
when Wm Gordon; never heard any preference being given to the
Meat hunters over the fur hunters —

Thos Favel a native of Hudsons Bay. 8 years in the
Service Wages £26. at Brandon House Says he went &
fetched the Keys to the Men as he was afraid of his life if Mr H.
got their Arms Says he had instructions from Mr Heney
to tell the Indians he wanted only Beaver Meat & Rats Otter
Swanskins & did not care much for Bears & still less for
Moles & Leather He also wanted Provisions from them and
the Indians who bring Furs bring but a very small pro-
portion of the Provisions — Says the reason the pre-
ference was given to the Meat Indians was because the
Fur Hunters only were bringing Leather & Moles Being
a Linguist or Interpreter to Brandon House says there is a
new superstition entered among them which is the chief
cause of their killing fewer furs this season than formerly
as well no doubt as some thing owing to the smallness of
the Cargoes sent from Albany — & that he never recollects
them killing such few furs

The above Thomas Favel on being spoke to concerning the misconduct of
the Natives he has committed answered himself by saying he was always afraid of
his life else he never would have fetched the Keys neither did he well know what
he was about as he had been called out of his sleep He expressed very deep sorrow
for having acted so But that was the only thing in which he at all joined the European
Servants he with tears began forgiveness and most pathetically promised that
as he had been born & brought up in the Service he would spend the remainder of
his life in the discharge of his duty & to support the authority of such officers
as were placed over him from this & other things in his favour we have
him to hope for the Honble Committees forgiveness — W. H.

Oxford House - July 1811 13

Wm Hanbury

Having received from Mr Sinclair the Chief of the Winipeg Factory a relation of the state of the men under you at Brandon House during the last year which has commenced unpleasant concern & surprized that any of the Servants of the Hudsons Bay Company should take upon themselves to act without any authority from their superiors or beyond the orders of their Masters or the Honble Committee themselves & Mr Heney certainly was

While I am deeply concerned to find that the men from Cumberland House so remarkable for propriety & conduct & faithful obedience to whatsoever was placed over them — Yet it is reasonable and just to enquire into the motives that could urge them in Red River particularly at Brandon House to forfeit their character — Every Gentleman Company Man thus accused has to be heard in their own defence, while it is the Honble Committees express intentions that this in all cases be granted. You as well as every man in the service are perfectly aware that at the period of your coming over, our engagements have the Chiefs & Officers shewn the slightest intimation to the people of any unjustifiable Acts done who have been placed under their authority, therefore it is that we have carefully enquired into the motives or alledged causes, for the disagreeable differences which commenced at Brandon House —

From those of Brandon House Men who are here we learn that the Men under you had objections to serve under Mr Heney — We have diligently enquired into the nature of those and are happy on his account to find, that they will by no means justify their misbehaviour. It has been said that Archibald Mason has propagated reports of his being sent out in a capacity quite different from his real one, that he absents the advancement of the Company's Goods was a mere fabrication between Mr Vincent, Mr Heney & myself on the voyage out from England last Summer besides a variety of other ridiculous falsehoods which I have neither time nor inclination to repeat here — Then there is the amount of the alledged nothing that have always the men at Brandon House to act in defiance of the Company's Chief's orders, direct opposition to their own solemn engagements by which they bound themselves to obey all orders from their Chief

from them to their Chief Factor and from such Officers as he shall appoint to command them. As faithfull Servants they ought to have quietly and obediently submitted to Mr Kennys Command during their Contract or at least for one year at the expiration of which they might have taken their former complaints, if they had any, in a becoming manner to the Chief. It is here proper to add that Mr Kennedy has taken us of your anxiety to discharge your own duty faithfully to the Honble Company's interests — this is so far satisfactory as I consider it a pledge of your disposition with all your influence over your followers to support the authority of Mr Alexr Kennedy who is appointed by the Chief of the Hudsons Bay Factory to take on himself the management of the Company's concerns at Brandon House & its subordinate posts for the ensuing year. You are therefore warned by me to conform yourself most strictly to all the Orders you receive from Mr Sinclair your Chief Factor or such Officer or Officers as he may appoint to act in his absence. You are further required to caution the Men against deserting for an instant longer the Orders of their superiors as you & they must be convinced that no appeal or complaint will be received except for that of Murder or such personal injuries as the Chief of posts, must be productive of the most awfull consequences & which you would have to answer for in this world, as well as the next.

In order to prevent any possibility of your alledging that you were not aware of the Persons that you ought to obey, Mr or they whom Mr Sinclair may appoint your Superiors, you will implicitly submit to their authority. I remain by my own authority except Archibald Mason who is a very wicked man and an Infamous Impostor & the Natives & other officers in our Service than as being a person who knowing how to cultivate a little Corn in Scotland it was therefore intended he should assist in a similar way or any lands about Red Rivers that might hereafter be used for the purposes of Agriculture. I am now therefore to assure you and all under you that I will use my utmost endeavours with the Honble Committee to procure for you their pardon for this fault if you will secure this person and keep him safely so that he may be sent to England for Trial as guilty of fomenting Mutiny & conspiring to ruin the interests of the Company in their Territories

Mr Kennedy has undertaken to forward this to you as early as possible on purpose to acquaint you with the new arrangement which the Honble Committee have made in making over their Settlements in the Red River to this Northern District and your particular posts are henceforth to be considered as a dependency on the New Factory of the Winnipeg which embraces Cumberland House Swan River Red River & all the Lake Shore Mr Kennedy will forward to you a list of the new prices which the Company charge to us as they have wholly given up the old method of keeping their accounts in Made Beaver. You will readily perceive that the Goods Stores & English provisions as well as all the Steamers wages must be paid for by the furs we receive from the Indians & if we cannot do this we must relinquish the trade – The Goods you have this year sold to the men will be at the present prices and your Accounts are considered as closed on the 1st day of June.

Mr Kennedy will take the advantage of you having people at Brandon House & means to bring down his furs & Provisions from his upper post he will accompany the Albany People this Lake Winnipeg & to this Factory or to where Mr Sinclair may be Should any of the Men under you whose times are out & mean pro-

tirely to go home be considered as more especially employed in carrying a Cargo of Pemican in 2 Batteaux of the Boat & least use-ful to Albany I shall have no objections provided they take no more than 10 hands. It will be proper to load them as full as they can possibly bear and the Steersman if no Officer accompanies them will be responsible for the Cargoes, All staged Skins must be re-jected Beaver excepted — The price hitherto paid in the Red River has been too great ~~& must be~~ for Provisions & ought to be reduced

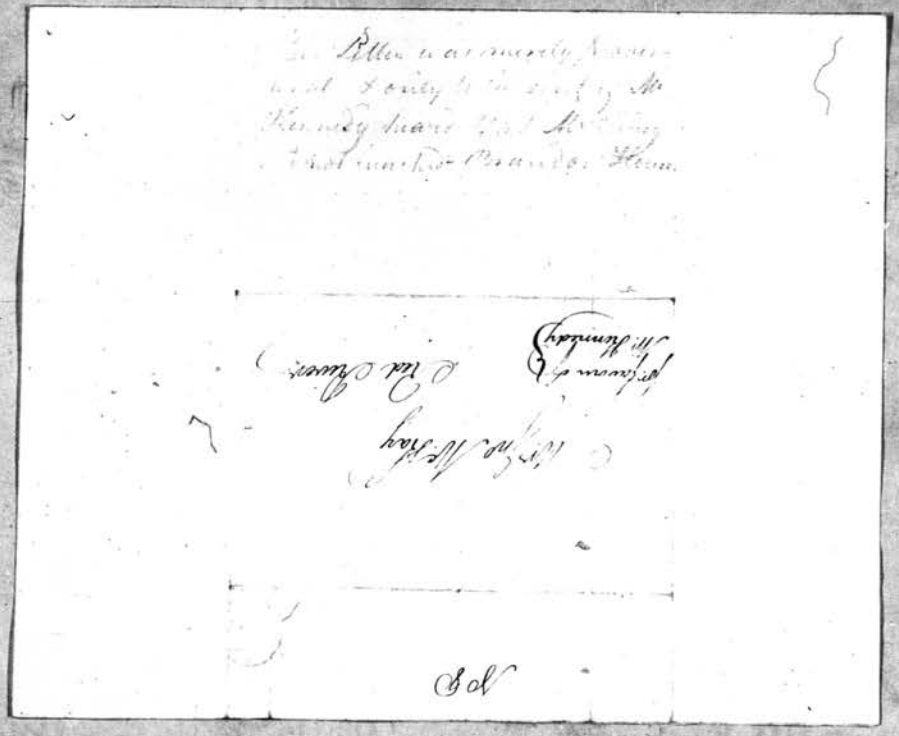

The Men under you will have no cause for remaining on account of their property which may be left at Albany as particular instruction will be given to the Clerk there for every care being taken of their Things — The utmost care must be taken of the goods and Stores belonging to the Company and a correct state of the Remains made out next year distinguishing Cultivators from those in use & that which is quite new — all Officers are to be charged with the amount of the quantities of Articles that they purchase or use for their own Account, except such allowances of Provisions as they have been accustomed to get as Inland Masters —

You will receive such other information from Mr Connolly as may be of service to you in the careful disposal of the property of the Company and next Summer either Mr Sinclair the Clerk of the Saskatchewan ~~will~~ or myself will see what is further necessary to be done — In the mean while I remain

Sir Your most Obed.t Servant

The Balance of this man's account w.t his Summer advances at Y.F. did not accompany him when Mr McDonald sent him here last fall, so we had only his word, to guide Bookkeeping by. but the man having a good character to say so hoped he did not get beyond his years Salary should he have been in Debt.

H. S.

Should Le Quesne or his Nephew pay you a visit you will please to observe that he has paid his Debt as specified in your list sent to you last fall and has since contracted another Debt here to the amount of 30 Skins which you will have the goodness to see it paid if possible — Mr

Dear Sir

Your Ville of the 15th March has this moment been handed to me by Mr Edwards.

It is satisfactory to learn that you will supply two hundred & fifty Bags Pemmican for Provincial service Cash £1.0.0: tho this will fall far short of the quantity required I am in hopes that you will supply double the number you now promise.

My supplies sent on for Pemmican will be thrown as you direct. Supplies account will be charged Edmonton as you desire.

Hants will be settled with on Provincial Account.

If you want down the Saskatchewan Boat for your Brigade of Boats, the Carriage will have to remain to be shipped in June on the Steamer. Neither can I spare a Boat for your trip.

It would be an enormous expense to send a Boat by the way from Carlton & Edmonton to bring down one Boat load of Pemmican. Why not build Batteaux? in my opinion nothing would be gained by sending a Boat, as the Steamer would in any case take on your Returns from this place, and may just as well do it from Edmonton direct.

Dear Sir

Besides the documents usually forwarded from the Fort Bay Department Office, and other Depositts, you will herewith receive copies of letters addressed by me to some of our Officers relative to the business of the Depositt and other papers which have been considered necessary for your guidance in the management of English River Depositt. To these documents I have to solicit your attention

Mr. L. F. Clarke and I have gone over S. Jeans for account against C for the current Outfit, and I have every reason to think that this account will be found correct. You will observe that you have charged C £70.0.0 as having been supplied C Mr. Hunt. The Horse was not taken over by Mr. Hunt beyond Mr. Hines' Mission Indian, but till one of the mares now at Green Lake, is sent back to replace one of the two Horses received here in July past for which there is no charge made, the account will have to remain as it is

The two Horses I had the use of from here last November, have not as you will observe been charged to C Outfit. They can both be taken back to this place by Mr. George Sleett, who should be here about the 10th June, Mr. L. Clarke will arrange about the Horses passage to Manitoba. Please direct C for £2.0.0 to take in passing the Fort. C Mr. Hunt.

poles, Buck-board and Harness which I have to leave at Rev. Mr. Hines' Mission Station. I also left at that place a good, bushes, oak, cart.

Catholique Morin left an Ox here last summer which has been slaughtered for beef. If another Ox is not given to Morin on his return next spring his account will have to be credited with $75.00 and the amount charged in the Transfers against this District.

You will please direct the Morins to be here with as many Oxen & carts as they can muster not later than the 20th May. To get these Freighters to gradually pay off their debts it would be advisable to get them to sign a contract and bind them to have ½ of the earnings of each trip to be applied to this purpose. ½ of the earnings of each trip ought to be quite sufficient to pay off men, for provisions, & other supplies.

It will be necessary to have the stone at the south end of Green Lake finished as soon as possible next summer. If shingles can be made in time, it would be better to have the buildings covered with this material than any other.

Either Mr. Sinclair or Mr. Simpson will have to be stationed at the south end of Green Lake next spring, so as to receive or forward packages that may reach that point. You will please issue the necessary instructions to the officer you may appoint for this duty so as to enable him to carry on this branch of our business with regularity and correctness.

The D. Dist. accounts (Inventories enclosed)

included) should be closed, at as an early date as possible and forwarded with proper Requisitions for Outfit 1870 and other documents that may have to be laid before the Chief Commissioner at the annual meeting, so as to reach this in the early part of July

Your attention is requested to the remarks which appear in the Chief Commissioners communication to me from Fort Garry of August last, and which I handed to you before leaving Isle a la Crosse relative to accounts, and other matters

The returns will have to be packed in the usual manner, and proper packing accounts transmitted to the Officer in charge of the place and Fort Garry

In engaging Indian Postriers in the District, it would be advisable to make them clearly to understand that the landing of a boat going up from Isle a la Crosse to Portage La Loche, will have to consist of 10 full pieces (100 lbs each) for each man of the new

With the exception of Gervais and Chas Sutherland I would not recommend you to increase the wages of any of the C Dist servants whose contracts expire this ensuing spring beyond the scale at present in use for the different capacities. If it is necessary to do so, let it be clearly understood in all cases that a proportionate cut in the price of Goods supplied from the sale shops & stores will have to be made

Mr Wm Barnard in a private letter, informs me that he will be very short of Oil cloths for his boats next spring

If

If you can possibly do so, it would be advisable to send per 6 Pc Cloths to Portage la Loche, with instructions to have them forwarded to Fort Chipewyan as soon as the navigation is open. For this purpose you can assume part of the contents of the Bale at present at Green Lake under the mark C ℔ 423. 424. 425. Mr McFarlane is also very desirous that 6 Bags of Pemican be sent to Fort McMurray early in June, as he is apprehensive that he will not be able to collect enough of provisions in spring for the use of his men for the first trip to Portage la Loche

Mr C. J. Clarke in his capacity as Justice of the Peace has informed you that he has deemed it necessary to place Paquette in the custody of the Mounted Police Force at present stationed here till such time as his trial for supposed robbery comes on. In settling with Paquettes account you can allow him wages at the rate of £10 ℔ annum, with a Boatmasters winter allowance. His wages will have to cease on the 26th of this month. any Tea, Flour, & Sugar that he may receive on his account beyond the amount usually allowed to the Servants, will have to be charged at the actual cost of these articles as landed in Districts

Mr Sinclair & Bezalaie will leave this on their return to Green Lake on the first proximo, and take with them the Packet for the North, as well as some Flour for Green Lake. Blunk & Flett go on with me, but will very probably be sent back from Fort Ellice

HUDSON'S BAY COMPANY

Sir

I have the honor to acknowledge verbal conversation with you this morning in reference to an account and letter of advice from Mr W. A. Simpson, clerk in the Hudsons Bay Company's employ, stationed at Green Lake, in which a charge of Fifty dollars ($50.00) is made for wintering three (3) head of cattle belonging to the Chief of the Green Lake Indians and your communication that such charge was considered as being excessive.

The customary price paid by the Hudsons Bay Company in the Saskatchewan District for wintering cattle is Fifteen dollars ($15.00) per head to be fed on hay alone.

The reason for the additional charge of Five dollars ($5.00) Mr Simpson gives in detail; extra labor of men, feeding boiled grain and chopped feed; and keeping them until late in April, a month longer than is required in the Saskatchewan District to stable cattle; all the other cattle given to the Green and Pelican Lake Indians died

from starvation, it may be presumed that had Mr Simpson refused to winter the three head of cattle, as above, that they also would have met with the same fate.

I do not think that the extra charge is at all excessive, on the contrary I consider the Company was a loser by the transaction, nevertheless, on behalf of the Company I now write off the extra Five dollars (₤5.00.00) and submit to your consideration herewith triplicate account for ₤45.00.00 only the usual price for wintering cattle under ordinary circumstances.

HUDSON'S BAY COMPANY

Dear Sir.

Your private note is just to hand and I am quite annoyed by the news from Isle à la Crosse especially as I saw some of the leading Indians when I was there and made some special concessions to them as regards Tariff which seemed to please them. I also authorized Mr McDonald to engage La Ronde to help Maurice with a Flying Post and I await for an official report from Mr McDonald of the difficulty with considerable anxiety, being at a loss how to apply a remedy without knowing what is the matter.

I did not propose leaving for Winnipeg for another month, but know have to be somewhat malgré moi. I suppose we will have to move McDonald as the Spring if things are so precarious, but I am at a loss whom to replace him with. It is too late if you come out to Winnipeg before I go telegraph your arrival and I will go up to meet you. If you cannot come out from Carlton and I do not see how you can, you must use your own judgment if you go to Isle à la Crosse before official information is received from there. Remember we have not heard from any Agent there yet and must not act precipitately. He may be able to explain everything and in going there you must remember and explain it is our wish to strengthen his hands and consult with him how best to put matters right. If it is best to make a change of management Mr McDonald will no doubt see the necessity himself and ask for a change next season.

I cannot imagine what Mr Hardisty wants with so many wild cattle and so much Bacon.

As for the Expert and the Mills, time will, I fancy,

Mr Blanchard has also handed them to me to understand & brought to my notice that he has not as yet received any payment thereon. You must therefore understand that provision is made to repay the advances you have made to the heirs of the Estate.

Mr McJacobs Will was made a Executor to settle Estate which Mr Blanchard claims a debt against. Mr McKay on his part stated he could not be induced to recognize them. From what I saw of Fort Pitt I do not

your Commission on the 1st of 1851 will of course delay the arrival of the special articles for purpose ordering which your Commission was sent out.

18 Your suggestion of conveying to Winnipeg your Cash collected at Fort Pelly for goods to be applied against Furs may be accumulated after Montreal navigation is over, as I understand you should make about your usual District Outfit which may then be conveyed, since the opening of the route overland to Hudson's Bay

19 If Upfold has no stock to sell you may do so by comparing with the District Requisition and the Goods distributed may be known. The stock on hand at Fort Garry belongs to the Red River District and is not to be sold except special Orders so that any application for other Districts will not be attended to. The same rule observed by Mr Sinclair. Should Mr Sinclair commence to purchase for the Red River District Stock you will render assistance in preparing your Requisition for the special articles you require to sell your goods as the Red River Stock cannot be sold.

20 The question of removing the Headquarters of your District to Fairford Post requires to be dealt with most cautiously. You know yourself that considerable outlay has been incurred in buildings both at Fairford and Fairford the Indian

you suggest would involve neither outlay
of the same nature at Prince Albert. We
must therefore for the present bear the
matter an advance until further development.

You will please instruct Mr. Lowe 18
to the Officer in charge of Northern Districts
lists of the Stores belonging to those several
Districts that have reached Carlton together
with the place where they are stored for the

I shall much regret to find Mr. 19
satisfied with the conditions of the Great
Lake Trade especially at the Northern and
your last Season of their passing over it
last August and under the impression
that the party employed by Mr. McDonald on
repairing it did not do his work. This I shall
point out to Mr. McDonald on my
return and upon which I believe
the necessity of a more reliable supervision
of the repairs being effected

The makeweights you made up of 20

very unsuitable and I trust the result

profit to the concern but in shipping
the expenses of the trial must be

clear accounts of the transactions of the Steamer Isle and Sea goods agreeable to your instructions at Carlton and you may rely that the strictest economy in your District –

23 A reliable person should be placed aboard of the vessel on the Spring and the goods delivered to such person only upon payment of freight. Had this course been adopted by Mr. Millard Mackinaw sent to Edmonton would not have been converted into Mr. Cobb.

24 As regards the weights charged on the Steamer against your District the principle of the Steamer asking payment according to terms created by the Hudson's Bay Co. was adopted by the Steamer Isle. The freight from Fort Garry to the Isle à la Crosse was [illegible] and from Isle à la Crosse to Fort Pitt [illegible] HUDSON'S BAY COMPANY [illegible] should not have been charged for Fort Pitt goods to Carlton, for all the advantage you have gained by the Steamer was the saving of the land carriage from Isle à la Crosse to Fort Pitt. I am sorry to hear after that you overlooked the error and did not understand the accounts

The condition of the Steamboat engines has been most seriously considered and I shall regret all the trouble & delay in the "Pelican" reaching Carlton this season was caused by circumstances over which we could have no control. The Indians applied to me to be taken on board the "Mackenzie" for Edmonton and you are aware that the last repairs of the engines at Lake Pelican were completed and Steamer ascended them up to the day of arrival there in Sept.

I dispatched the "Pelican" as far as I was able to the Shallowing of the Lake, from information received from Captain Pruden and Mr Macleod that I did not consider the arrangements made on leaving Edmonton the close of navigation & regretted that you should not have been informed of the true position of the Steamer & the circumstances which led to her being left behind. Had I been aware of the long detention which occurred on the Bar near Fort Pelican I should have sent you another supply of provisions from Edmonton but I was not aware of the Steamer's position until I received your letter of the 29th Sept. from Fort Pelican.

I have directed the progress of the shallowing and also of the "Pelican" to be daily reported to me by Captain Smith and the Captain of the "Mackenzie" here.

Dear Sir,

I am in receipt of your private letter of 24th ult. with enclosures copies of which had already reached me from Mr. Traill, and also to-day report of 29th December last, following the course pointed out in the order you place them.

Green Lake Road. Mr Cowan, Mr Donald's attorney has been directed to the last sod of the road & I have been pointed out to him that Mr. Sclater did not have the 4 yards per chain, Mr Donald maintains that a considerable amount of labor was expended in improving the road but that sentiment was not endorsed by the work done.

3 I have been instructed to say that the road is quite a proper sod one & that the Saving place is as wide as the road & must make no fuss.

and found the deceased lying on his right side, the head resting on the right arm, the eyes shut, a little snow was resting on the body. I called up Alexander & John McBeath and directed them to take notice of what I saw, as their evidence would probably be required. With their assistance I examined the body and found a gun shot wound in the breast. I found a gun lying across the seat of the back board under the ironguard, It was in a cover I withdrew it and found both barrels discharged, an empty case being in each chamber. The end of the cover was burnt. A watch which I took from the body was stopped at ten minutes past 5. I also took a compass and some papers, but left a pocket book with money on the body being covered with blood. From the position of the deceased had he stood where his feet were lying the muzzle of the gun would have been opposite the wound, I directed the body to be wrapped in a tent found lying loose about the camp, put into one of my carts and covered with a blanket, put all the harness and other loose articles, into the back board, unhoppled the horses, and taking them with me, proceeded towards Carlton. I left a written notice on the backboard, requesting the luggage not to be touched, the owner having been found dead at a hundred yards from the camp I found a large piece of pemican surrounded by wolf tracks. I searched carefully for foot prints round the camp but found none, the snow

Snow having Lately fallen, but the horse tracks were clearly visible and tracks of the toolboard. Monday, October 28th I passed a cart with two trunks in it, and on the afternoon met the party headed by Mr Matheson to whom, on Tuesday morning, I gave over the Corpse. Until Monday, the tracks of two horses returning towards Carlton were clearly visible, the watch and compass and a knife, two tracks and a calycon with the latter from the body by me, Snow knife into Cash

Deposition of John Richard Matheson, freighter
On Tuesday the 27th October I was employed by Mr George McLennan of the Hudsons Bay Company, Carlton, to lead a party to proceed in search of the body of the Reverend Mr Thomas who had been reported as having accidentally shot himself while on a journey to Victoria, between Carlton and Fort Pitt. We started immediately and travelled on late each when we Camped, started at day break next morning and continued our journey until we met the Honble Algernon St Pray who delivered over to me, the body of the deceased Rev'd Mr Thomas, he then returned with the body and delivered the Corpse at Carlton on Wednesday the 30th October

Deposition of Alexander McBeath, farmer, Prince Albert Settlement, N.W. Territories:— Am at present connecting Honble A.St. Percy's travelling party. On Saturday 26th October instant about 75 miles west from Carlton, on the cart track between Carlton and Fort Pitt. I saw two loose horses stopped and feeding. Saw a deserted camp, and saw the body of a man lying along by the wheels of a buck board. Mr & Mrs Percy & John McBeath were with me at the time. We examined the body and found that the man had been shot. We brought the body in with us until we met the party sent out from Carlton, to whom we delivered it. The body was stiff, but not frozen when we found it. From the way the body was lying and the nature of the wound, I believe death to have been instantaneous

(Signed) "Alexander McBeath"

Deposition of John McBeath, farmer, of St Paul's parish, Winnipeg:— The deposition of Alexander McBeath is corroborated and Sworn to by me as being a correct and truthful statement of our finding the body of the deceased Mr Thunn.

Deposition of Andrew Everett Porter Medical Doctor, residing at Prince Albert in the North West Territories.

On examination of the body of the deceased Reverend Mr Skinner I found a gun shot wounded in the left chest one and a half inches in diameter, midway between the nipple and sternum, carrying away part of the fourth, fifth and sixth ribs, the base of the heart arch of the aorta and pulmonary and coronary arteries all cut edging in the shot, a small wound on the left hand between the thumb and first finger and the second joint.

From the nature of the wound I am of opinion that death must have been instantaneous.

The finding of the Court is that the said Reverend Skinner was shot to death by the explosion of a gun whilst he the said Reverend Skinner was in the act of loading his buckboard and the belief of the Court is that the Calamity was purely accidental and that death was instantaneous.

The deceased's servant, Moses Kelsey, was severely censured by the Court for his inhumanity in abandoning the body in the hasty manner stated in his deposition and for not having made the slightest effort to find out before he left whether the deceased was dead or alive.

The Court strongly points out the danger in sending young and inexperienced men into the country without proper escort. The deceased Mr Skinner had to trust to chance help on his journey and the servant employed by him as a voyaging companion was totally unfitted to cope with any difficulties that might be met with in a prolonged journey through a wild uninhabited country. The Court orders that the body of the deceased Reverend Skinner shall be coffined and sent to the Settlement of Prince Albert to be buried in the Church of England (some yard at that place) and that the Incumbent of St Marys Church shall be requested to officiate at the interment

The Court orders that the property belonging to the deceased Rev. W^m Skinner shall be held in possession of the Hudsons Bay Company until delivered up to the proper authorities.

The court orders that Coates Porters account for Post mortem examination of the deceased Rev. — Skinner shall be handed into Court in duplicate and said account shall be annexed to this minute and payment be ordered as soon as funds are forthcoming from Government.

Thomas Aguanishkata etant duement asermenté dit et declare que l'automne de l'année 1816 il se trouvoit en Arabasca au service de la Compagnie du Nord-Ouest, un jour dans la soirée, il fut accosté par Mr. M.Leod Bourgeois de la Compagnie du Nord-Ouest de 6 = barques dans un Canot qui contenoit neuf hommes armés commandé par Mr. Murray, commis de la Compagnie du Nord-Ouest qu'ils se rendoient à une pointe de terre ou ils debarquerent, Mr. Mr. Murray lui demanda s'il savoit ou ils alloient. Le deposant lui repondit que non! sur quoi Mr. Mr. Murray lui dit qu'ils alloient prendre les hommes de Mr. M.Clark qui etoit au service de la Compagnie d'Hudson :- le deposant observa qu'il ne s'etoit pas engagé, pour se battre, mais seulement comme Voyageur, le Commis lui dit qu'on ne feroit pas de mal aux Serviteurs de la Compagnie d'Hudson s'ils ne cherchoient pas à se deffendre, mais que s'ils le faisoient, il faudroit qu'ils se battent. Le deposant se rendit le premier à la Maison de la Compagnie d'Hudson

etoit son prisonnier ainsi que tous les autres Serviteurs de la Compagnie
d'Hudson qui se trouvoient dans l'endroit, et qu'ils les devoient tous
se rendre au Fort de la Compagnie du Nord-ouest, et emporter leurs
Bateaux avec eux, que dans la suite on les laisseroit retourner dans leurs
Maisons. Les Serviteurs de la Compagnie du Nord-ouest amenerent leurs
prisonniers dans leur fort, Mr McLeod les appella dans sa Maison et
leur parla. Le même jour il vit arriver trois Canots chargés de Pro-
~~vivres~~ provisions appartenants à la Compagnie d'Hudson qui
avoient été pris par les Serviteurs de la Compagnie du Nord-ouest à
l'île à l'outarde, le deposant declare, qu'il a vû dans le même
Fort Mr Clarke qui y etoit detenu comme prisonnier gardé par deux
Sentinelles, qu'il ne connoit pas qu'aucune provocation a été offert
par les Serviteurs de la Baie d'Hudson à ceux de la Compagnie du
Nord-ouest, pour causer ces actes de violence. La dite decla-
ration faite dans la langue Iroquoise et traduite en françois

had happened last spring at Red River. The deponent is certain that the
arrest and seizure of themselves and Goods was resolved on before Stewarts
arrival at Beaver Lake in October, for conformity to the usual custom of
the North West Company. Stewart took no steps whatever to obtain Furs from
the Indians or prevent them from bringing Furs and Provisions to the Hudsons
Bay Company House. — The day after they were taken prisoners as above
mentioned, the said Alexander Stewart went to their house with his men,
and in the course of the day brought all the Goods the property of the Hudsons
Bay Company over and lodged it in the Store of the North West Company, the
Goods then taken consisted of 1176 packs of valuable Furs, a considerable
quantity of Provisions, Trading Goods and Stores. The same day they
partly dismantled the building, appropriating to the use of the North West
company, Doors, Flooring, Windows, Hinges, Fastenings and whatever they could
convenient to use, and destroying whatever such as they left behind. Mr Hall
only Free man at home when we were seized, and then were prevented from
assisting us, and overawed by the superior force and menaces of Stewart
and his party, such of our men as were absent at the time came to Mr Decoigne
as they arrived to receive orders. Mr Decoigne told them to live in their own
houses and receive their rations from Stewart, but the latter refused to
feed them unless they chose to live at his house, where he incessantly attempted
to engage them in the service of the North West Company, but deponent believes
he obtained no success except in one instance he effected in gain the
temptation of £130 a year as wages to the latter. Bejean to enter their service

four or five days after the sixteen Stewart told McDougall, the other Sixteen and Deponent that they might go where they pleased, when Deponent tired of his disagreeable situation chose to go with some of the men to seek a livelihood in the woods. Deponent proceeded towards the Saskatchewan to acquaint McBird with what had happened. On his way he had to pass a post of the North West Company in charge of one Cardenal who told Deponent that he had received orders late last fall from the above mentioned Alexander Stewart to stop every person belonging to the Hudsons Bay Company who should attempt to pass there any during the winter, and that for that purpose Stewart had engaged some Half breeds and some Indians to assist the said Cardenal, some of them allies the Deponent met at Cardenals Post. - On hearing what had happened, Cardenal permitted Deponent to proceed and he soon after arrived at Moose Lake house belonging to the Hudsons Bay Company, from whence he learnt that Bonneau one of the Bois Brules engaged in the affair of the 19th June at Red River, had set out three days before to return to that place, boasting of his feats against the English the preceding Spring and of his resolution to commit them if he had an opportunity this. At the Saskatchewan Deponent met with Opeshaskesh a half breed who had been of the party employed by the aforesaid Alexander Stewart in seizing their goods at Cumberland Lake aforesaid and had been with difficulty prevented from shooting McDougall after he was taken out of the house — Opeshaskesh declared to Deponent that all that he had done was by order of Alexander Stewart, who had made him drunk and threatened him with the loss of his wages and with ill treatment throughout the winter if he refused to obey. — The said Alexander Stewart told McDougall and Deponent separately that he would be answerable for all that had been done before a

Provinces of Lower and Upper Canada and the Indian Territories

Deposition of John McLeod taken before me William Bachelor Coltman one of the Special Commissioners for enquiring into Crimes committed in the Indian Territories, and one of His Majesty's Justices of the Peace for the said Indian Territories and for the Western District of Upper Canada — John Mackeen a servant of the Honorable Hudsons Bay Company, being duly sworn says and declares that on or about the twentieth day of October last he went with John McDonald, John Macdonald, Patrick Dunn and several other servants of the Hudsons Bay Company to a band of Indians who were encamped on the bank of Lake la Crosse Lake at about five miles distance from deponents house that on approaching the Camp where the Indians were, he heard the firing of guns at the Camp, and saw several balls drop close to the deponents boat — That he landed near the Indians camp, and there saw several Canadian, servants of the North west Company, amongst whom were Joseph Paul, and Joseph Chartier, that supposing them to be the persons who had fired the guns he asked Joseph Paul and Joseph Chartier what they had been firing at to which they replied at a mark that deponent then said that there was no mark near to where Balls fell near his Boat, That deponent then desired his Interpreter to speak to the Indians, but that he no sooner began than the said Joseph Chartier and another servant of the North west Company endeavoured to stop him and Joseph Paul said that deponent and his men had better leave the Camp as the Indians were badly disposed towards them, that finding the Indians friendly he deponent continued conversing with them and that notwithstanding the North west Company's servants attempted by

force to keep the Indians from deponent, they succeeded in accompanying him to his boat where they joyfully accepted some small presents and told deponent that they would gladly trade with him, if he could protect them from the servants of the North west Company — Deponent further says that on the second day of January last Samuel Black and Benjamin Frobisher, partners of the North west company accompanied by Peter Skene Ogden their clerk and about thirty Canadians and half-breeds their servants, amongst whom were Joseph Charette — Turcotte — Pacquette — Pichet — Brunson — Godin — Pierre Bouchie, Pierre Paul and Jean Marie Bouchie, part of them armed with swords and pistols came near to the houses of Deponent, and repeatedly challenged his men to come out and fight, that some of the party of Samuel Black and Benjamin Frobisher came within the gate of Deponents Fort, making use of the most abusive and insulting language — That deponent had been privately informed that Samuel Black and John Thomson both partners of the North west Company had formed a premeditated plan to provoke him with a view of affording them an opportunity to seize his person, the persons of his men and the property of the Hudsons Bay Company with some appearance of Justice, that deponent with very great difficulty prevented his men from going out & resent the provocation they received Deponent also says that on the twelfth day of February last he received a note from John Thomson by which he deponent was informed that three of his men viz Francois Deschamps, Charles Dufort, and one McKay were in the North west Company's Fort of which John Thomson was master, and that he John Thomson wished deponent to go over to the North west Company's Fort as soon as convenient, that deponent having reason to believe that John Thomson desired him to go to his Fort for

no other purpose than to make him a prisoner declined going, that on the following day viz: the thirteenth of February he deponent received a note signed by Samuel Black and Peter Skeen Ogden in which he was informed that if he persisted in refusing to comply with the request of John Thomson to go and see him at his house, Francois Deschamps and his two companions would be committed to close confinement. that he deponent told the bearer of the note that he would see Samuel Black the next day — Deponent also says that on the fourteenth day of February last he sent off John MacDougald, Batiste Paul, Bernard Vien, and George Gunn with letters addressed to James Bird Esquire Governor of the Northern Department of Ruperts Land, to acquaint that gentleman with the proceedings of John Thomson, Samuel Black, Peter Skeen Ogden and their servants that a few hours after John McDougald and his party had left deponent he observed a number of armed men going out of the House of John Thomson, and taking the road that John McDougald and his party went, that being apprehensive that those men were going to seize John McDougald and his companions, he deponent accompanied by John Macdonald, Casper Mathieu, Michel Dumais Jacques Rollette, Norbert Pepin, and one Regot all armed, followed the men of John Thomson. that when he had proceeded about one mile from his house he came up with Samuel Black, Peter Skeen Ogden, and twenty nine armed men servants of the North west Company who had then surrounded John McDougald Batiste Paul, George Gunn and Bernard Vien as well as Patrick Cunningham and Alexis Bellland, the two last were on their way from Edmonton House to the house of Deponent with letters, that as he deponent approached Samuel Black, Peter Skeen Ogden and four Canadians their servants met him, that he asked Samuel Black what

induced him to stop his deponents men, that Samuel Black replied that he had done it in consequence of deponent not going to see John Thomson, that he deponent told Samuel Black that if John Thomson had any business with him he might come to the house of Samuel Black situated within about twenty yards of the deponents house, when he deponent would meet him. that Samuel Black then left deponent and returned to the main body of his party with all of whom he came towards deponent, that John McDougald and his companion took that opportunity to endeavour to get to deponents house; but were immediately pursued, and after a great deal of struggling, disarmed by Samuel Black and his companions that during this affray, in which several cocked guns were presented, the deponent endeavoured to join his men, but could not make his way through Samuel Blacks men. that whilst he deponent was making this attempt to join his men Peter Skene Ogden levelled the butt end of his pistol towards deponent saying I do not want to fight I want only to speak to you" that deponent then asked Peter Skene Ogden what he had to say, who replied in the following words, ride your pony and see Mr Thomson that he deponent seeing that most of his men were disarmed, that his life as well as the lives of his men were in danger, deponent having a few moments before heard Samuel Black say to John McDougald who presented his gun in his own defence "look at my boys who surround you" meaning the halfbreeds who stood on each side of McDougald with their guns, ready to execute the commands of Samuel Black – told Samuel Black and Peter Skene Ogden that if they would promise that his deponents men to return home to his house, and restore their arms, he would go and see Mr Thomson, to which Samuel Black and Peter Skene Ogden agreed that the men received their arms, and were allowed to go home,

that he deponent went to the house of John Thomson, who on his entrance presented him with the letters that he had taken from deponent men viz Francois Deschamps and party, desiring deponent to open and read them, that he deponent took the letters and put them into his pocket saying he would open them at his own house, and turned about to leave the house when Samuel Black shut the door of the room, and John Thomson told deponent that he was arrested, that some arrangement must take place before he could be liberated, and desired deponent to send for John McDougall or some other person to witness the agreement that was to be made, that John McDougall came over to the house of John Thomson and was there detained with deponent two days in the course of which time he deponent was repeatedly pressed by John Thomson to deliver into his hands property of the Hudsons Bay Co to the value of four hundred pounds on unheard terms only deponent was told that he would obtain his liberty, that he deponent told John Thomson that he would not give a shillings worth of the Hudsons Bay Company property that if he acted in opposition the laws of his country, he might detain his person, or accept such other security as he could provide, that the said Samuel Black replied that they (meaning himself and John Thomson) did not care a damn for his deponents person, and that if he did not give up the goods they would take them, and deponent knew to get them, deponent also says that having been detained with John McDougall in the House of John Thomson two days, they were at length liberated on signing an agreement in relation of a Bail— Deponent further says and declares that on the fifteenth day of march last, being on the road between Isle a la Crosse and Carlton house, the following persons viz Samuel Black, Joseph Cheveier, Jean Marrie Boucher, Pierre Paul,

on the twenty second day of April last, one Le Due a servant of John Thomson (the same person who guarded deponent when a prisoner in John Thomsons house) came to the house of deponent, and asked in the hearing of deponent if he was at home, that Francois Deschamps answered in the affirmative that upon he replied Le Due, and that Le Due added your master had better be quiet, for otherwise we will take him to a place where he will not be at liberty to walk about; that he deponent having been informed by Benjamin Merchand (one of his men) that he had learnd from a source that might be depended on, that John Thomson had resolved on again seizing him (deponent) and that he could be allowed to remain at his own house no longer than three or four days, attempted on the twenty third day of april to get away but in vain, that convinced that he should not long be permitted to enjoy the small degree of liberty he then possessed and his men being all of the same opinion, he deponent, in the evening of the twenty fourth day of April left his house accompanied by Francois Deschamps, Jacques Collette, one McKay and William Pelly & endeavoured to get to Carlton house a distance of about three hundred miles with only six days provisions, one gun, and a little ammunition, which with their Blankets they carried on their backs, and after suffering many privations and extreme fatigue in travelling through the woods, swamps ice, and cold water, arrived at Carlton house on the seventh day of May last. themselves to from the Laws of their Country, by suffering themselves to be led by their Master into the commission of so many crimes, in consequence of which (as deponent supposes) Samuel Black one day said to deponent you had better not have any thing to say to my men, or they will be left at liberty to treat you as they think proper. And deponent says that these words of Samuel Black immediately brought to his recollection the Fate of the late W. B. Kerney — — Deponent also say's that when confined in the house of John Thomson he (John Thomson) shewed deponent his Commission as Justice of the Peace for the Indian Territories that he (deponent) asked John Thomson if he had acted according to that Commission to which John Thomson replied "No" I know that I have committed myself but I have really been forced to do as I have done; by which he the deponent understood him to mean he was acting under orders.

Deposition of Alexander MacDougall of the Parish of Berthier Lower Canada, taken before me William Bachelor Coltman one of the Special Commissioners for investigating Crimes committed in the Indian Territories and one of his majesty's Justices of the Peace for the said Indian Territories, and for the Western District of Upper Canada — The said Alexander McDougall being duly sworn deposeth and saith that he was engaged at Montreal in the month of April 1815, for three years as a servant of the Hudsons Bay Company, that he left Montreal in the month of May following with many other servants of the said Compy and were afterwards joined at Lake Nipissing by Mr Colin Robertson a gentleman in the service of the said Company — That several days after passing Fort William on their way into the interior the Brigade to which deponent belonged was met by several Canoes of the North West Company in which were pointed out to deponent Duncan Cameron and Alexander McKenzie (commonly called the Emperor) partners of the North West Company and also Miles Macdonell Esqr Governor, as deponent understood of the Colony at Red River (whom) as this deponent was told the said McKenzie was conveying as a prisoner to Montreal — That they also met in the various Brigades several other North West Canoes in which were a number of men, women and children who as deponent was informed had belonged to the Colony at Red River — That subsequently in the Lake of the woods they met other Canoes of the North West Company containing some men women and children likewise from the said Colony as deponent was informed, and going as well as those whom he had before met to Canada — That deponent then also heard from persons in the said Canoes that the Colony was broken up, and some of the women who spoke to deponent cried and said they were sorry to have been taken away — That deponent arrived at Jack River in the month of August 1815 — where deponent

saw a number of Families who had before been settled at Red River, but had been driven off by the North west Company and half breeds, as they informed him – That after assisting by directions of Mr Robertson, the said Families to return to Red River, deponent himself wintered at Isle a la Crosse and in the following Spring went with a brigade of boats, sent by Governor Bird of the Hudsons Bay Company servise as far as Knee Lake to the North of Lake Winipic where at Knee Lake in the month of July 1816. Deponent joined a brigade under charge of Mr John Clark going into Athabasca – That in the way to the Hudsons Bay post in Athabasca they were passed at a place called Portage La Loche about four days paddle from the said post by a single Canoe in which were Archibald Norman McLeod Esq.re a Partner and Mr Thomas McMurray a partner or Clerk in the North west Company who were going into Athabasca That deponent had been left with the heavy part of said Brigade, did not arrive at the said Hudsons Bay post until several days after the said Mr Clark and several others, and cannot therefore state what passed immediately after the said Mr Clarks arrival – That a short time after deponent arrived at the post the said Mr Clark sent three parties to different places to fish for provisions for the use of his post to wit one under the charge of George Innes to Isle a la Crosse distant about twelve miles distant; another to an island called Goose or Grande Isle about six leagues distant and another to a place called Long Point about seven leagues distant – That this deponent was himself sent out hunting with another, and returning back met a large number of Canoes &c. Freemen of his Lord & Master coming about the beginning of October 1816 – at Isle a la Crosse to pass the night at the encampment of the said Innes – That the said Innes and his party together with deponent were surprized in their beds that same night by about twenty servants of the North west Company in arms headed by a Mr George Keith whom this deponent hath understood to be a

Partners of the North west Company and Roderick McLeod a Clerk of the said
company — That the North west party immediately seized on all the arms that
belonged to deponent and his companions, and told them to make no resistance
for that they were taken by order of Wm McLeod a Justice of the Peace — That
Keith did not, nor did any of his party exhibit any warrant, or say that
they had any for this proceeding, although deponent demanded their warrant.
That they afterwards ordered the rest of the said Goods to be taken up from the
beach, and the other property to be delivered, and a part of them went off with
the deponent and his companions with their nets to McLeods post — That the
same night a party morning the other two parties who had been sent from
Mr Clarks post to procure provisions were brought prisoners to Wm Leods
post to the number in all of about twenty, five who were distributed into
different places of confinement — That in the morning after the deponents
arrival the said Archibald Norman McLeod sent for McClark who came as
deponent understood to obtain the liberation of his men, and the restoration
of his property — That when the said Clark had entered the North west post
the gates were immediately shut upon him, and he was made a prisoner
and confined in a small apartment in the east end of the Fort. That
on the second morning after his captivity, deponent was with several others
taken into Wm McLeods presence and required by him to take an oath that
they would not use arms against any of his Majesty's subjects for two years
That deponent and others then said that they considered themselves his Majesty's
subjects as well as Wm McLeod but deponent thought they could not refuse to
take the oath as Wm McLeod said that it was not to prevent them from
using arms in their own defence if any persons should attempt to rob or murder
them, and deponent and others accordingly took the oath and were afterwards
released and allowed to go to McClarks post — That the day following

Deponent took over a Mr Roderick M'Kenzie in the Hudsons Bay service in a Canoe to the North west Post to see Mr Clark, but understood that the said M'Kenzie was not allowed to see Mr Clark except in presence of Mr M'Leod — That deponent the next day went again to Grant and did not return till eight or nine days after Mr Clark had been taken Prisoner and on the same day Mr Clark came from the North west Post having been as he informed deponent just liberated from confinement that the said Clark also told deponent that he had been menaced by the said M'Leod with being transported beyond the Rocky Mountains, unless he gave to the said M'Leod thirty Canoe pieces of the Hudsons Bay Company's goods or five hundred pounds as a security that he would keep the peace, and that in consequence he had been obliged to give the said Thirty pieces of goods — That between the said month of October and the month of January last past the said John Clark was several times desired to go over to the North west Post and detained a prisoner but always obtained his liberty as he stated to deponent upon giving up some of the Hudsons Bay Company's goods — That deponent on one of these occasions himself saw twelve pieces of said last mentioned Company's goods delivered — That about the middle of January last past, Mr Robert Henry a partner of the North west Company came to desire Mr Clark to go over to Mr M'Leods Post to settle some affairs of the preceding year. That the following day Mr Clark went to the North west Post accompanied by Mr John M'Farlane and Mr Roderick M'Kenzie and were all detained — Shortly after they were gone a body of armed men engaged by the North west Company under the command of Roderick M'Leod a North west Clerk, entered Mr Clarks Post took possession thereof, and made the

deponent, Mr John McVicar and the Hudsons Bay Company's servants then at the place aforesaid. — That immediately after the said North west engages had taken possession of the Post they hoisted their flag on the flagstaff and amongst the said Engages the deponent recognized one Cottonois, Thomas Gardin, one Laramay one LaRogue one Lajeunesse, one Sinclair, and one Fleurie whose other names deponent knows not — That the Captain then informed the said Mr McVicar that they would keep possession of the Post until all the arms as well as those of the Company as those belonging to individuals there were given up. That thereupon the said Mr McVicar wrote a letter and gave it to this deponent to carry to Mr Clark who was still detained at the North west Post informing him of what had passed. That shortly afterwards deponent returned bringing an order from Mr Clark to deliver up to the North west Company not only all the arms at that post but also at their other posts to wit the one at Slave Lake distant about eighteen days march on a winter to the Northward and the other at Pierre aux Calumets distant about four days march in the winter to the Southward That immediately after the receipt of this order all the arms at Mr Clarks post were delivered up and Mr Clark was allowed to return and arrived about the midnight following — That parties of the North west Company engages were sent off with orders to get all the arms of the two other posts but that the said North west Engages nevertheless retained possession of Mr Clarks post and kept a guard there ever afterwards until this deponent quitted the country — That this deponent also saw Mr Clarks Thomas who had been in charge of the post at Pierre aux Calumets arrive with his men at Mr Clarks post about a fortnight after the North west Company had taken possession thereof, being unable as he stated to obtain subsistence at Pierre aux Calumets after his arms were delivered up, although with

Cattle abandoned them inasmuch as the Sordeins were not allowed to hunt for him or to have any intercourse with his post and the place did not afford a sufficient supply of fish – That about the beginning of April following Mr Clark sent the deponent to Grande Isle upon Lake to fish and a few days afterwards a Mr James Murray Grant came to deponents dwelling and informed him that Mr Clark as well as himself had been taken over to the North west post and confined there – That Mr Clarke was still in confinement, but that Mr Grant had been sent over to that Island – That Mr Archibald Norman McLeod had caused all the provision at Mr Clarks post as well as all the remainder of the Hudsons Bay Goods and also their Canoes to be carried over on the ice to the said North west post – That as all the Canoes from the Island Fisheries had also been carried over on the ice to the North west post the said Grant would advise the deponent and all the Hudsons Bay Servants to go to the North west post before the ice was broken up as they had not the means of going afterwards and demand canoes and provision to enable them to get out of the country – That about the ninth day of May following the ice getting clear upon the Hudsons Bay servants thought they could not remain longer in Grande Isle with any expectation of being able to get out and therefore walked over although with great danger. This deponent being nearly drowned by breaking through the ice to the North west post to the number of seventy Forts – That Mr Clark was also there a prisoner, and immediately after their arrival as they had been deprived of the means of subsistence at Mr Clarks post, or of conveyance from thence they applied to Mr Archibald Norman McLeod requesting him to restore their canoes and provisions in order that they might be enabled to get out of the Country as soon as the navigation would admit. That thereupon the said Mr Leod in person informed them that he could not let them have their canoes

or Provisions unless they would conform to his demands which he afterwards told them would be to bind themselves in writing, and also by an oath not to return to that Country to work against the interest of the North West Company during the space of two years — That this Deponent and his companions refused to accept of these conditions, and asked him why he had taken their Provisions and Canoes, and said that if he had not done so, they would not have applied to him for either — That the said McLeod then said that they were dastard Fools, and even if he had not taken their provisions they would not have left the Country. That in consequence of their refusal no Food was given to Deponents Companions for some time and that they passed three days, and this Deponent three days and a half without any thing to eat, during which time McLeod told Deponent they would soon be forced to comply, whereupon one of Deponents Companions remarked that what was agreed to by force would not bind in Law. That all the Hudsons Bay Servants at Fort Wedderburn seeing that it would be to no purpose to persevere and compelled by famine signified that they were ready to agree to his demands. — That thereupon a writing or agreement was drawn up and subscribed either in writing or a Cross, and also sworn to by all the Hudsons Bay Servants at the place who amounted to nearly fifty some having come after Deponents arrival — And this Deponent further saith that the conditions to be kept and performed by the said North West Company in conformity to the said agreement, as the same were read and explained in English and French to the Deponent and others, were to Feed, provide, and procure a passage as far as Cumberland House for the men and Voyages of the Hudsons Bay Company who subscribed the same, but that the said conditions were not in effect kept and performed inasmuch as the said men and engages were sometimes left one and two days at a time without receiving or being able to procure Food, and were not provided with Canoes

allowed to set off on their journey out of the country until the month of July last past. That one of the men also who had set his hand to the said agreement, and also taken the oath, to wit. one Pierre Morais was taken by the said M'Leod compelled to serve the North west Company and not allowed to leave the country under pretence of a former contract with the North west Company. That the Hudson's Bay Servants shortly after signing the said agreement were sent to a distance of about two miles from the North west post with two men Engages of the North west Company to fish for them that they were afterwards sent with a canoe, as deponent believes that the persons at the North west post might escape the imprisonment for provision to an Island called English Island where the same persons as before were employed to fish for them. That here they several times passed a day without tasting any food whatever, and both here and at their former station were under the necessity of killing and eating several valuable dogs then our property. That about the eighth of June they were removed to another Island called Manoueis where they sometimes passed three days without any food being delivered to them, and sometimes two days together without tasting any food whatever, which was delivered to them being often dried meat covered with thick mouldy like moss, which in order to render it more palatable they would sometimes boil with grass or bulrushes but were still without being able to eat more than a mouthful or two at a time. because it was very bitter from mould or other causes. That here they killed and eat the remainder of their dogs, but that Deponent

notwithstanding all his endeavours to procure subsistence, was reduced to a great state of weakness from Hunger — That about the third of July Your Canoes, fifteen small bags of Pemican and 14 Mats were furnished them for their voyage out of the Country, with which they immediately departed to the number of about Forty eight persons including a woman and a child — That the Pemican provided was only sufficient for little more than half their journey to Cumberland house, but by catching Fish and purchasing some provisions from the Indians with some of their Clothes they experienced no further suffering from want of food. That on the fourteenth day of July eleven days after their departure they reached Lake la Crosse, where they found a number of the Clerks and Servants of the Hudsons Bay Company who had been left there without the means of travelling by the servants of the North west Company as they stated. — That ten of the persons on board of the Canoes went on shore there in order to make room for ten of the said Clerks whom they found at the said Lake la Crosse — That the said Your Canoes then continued their journey and about the twenty eighth of July arrived at Cumberland House, and about the fifth of the first month of August arrived at Jack River

Provinces of Upper and Lower Canada and Indian Territories

Deposition of John McDougald taken before me William Bachelor Coltman, one of the Special Commissioners for enquiring into the recent offences in the Indian Territories, and Justice of the Peace for the said Indian Territories and the western Districts of Upper Canada.

The said John McDougald being duly sworn on the Holy Evangelists deposeth and saith that he is a native of the Parish of Killmennivey in the county of Inverness, and came out four years ago as an indented servant to the Hudson Bay Company, that he wintered last year at Isle a la crosse, at the trading post of the said Company under charge of Mr John McLeod that in the fall of last year as he was walking past the fort of the north west company, situated about a mile from theirs with the said McLeod, several musket balls fell near them which they conceived to have been fired to provoke and insult them, that the same thing occurred again about a week afterwards when the deponent the said McLeod and four others or more were approaching an Indian encampment where there were some of the North west Servants whom reason he cannot recollect except that of Joseph Paul a guide, that on landing they noticed while the said North west Servants were firing at one said as a mark presenting it self, but evidently in a direction that the shot would not in such case have come near them, but must have been expressly fired to alarm them. That on or about the second day of January, Samuel Black a partner in the North west company, came with Messrs Allan Stuart Cyden and Benjamin Frobisher, clerks of the said company and about thirty of their Canadian and Half breed Servants, and understanding by words and gestures to provoke the said Hudson Bay Servants to come out and fight them, but whilst the above mentioned John McLeod proceeded — that on or —

about the 11th or 12th day of February three servants of the Hudsons Bay Company were taken prisoners by those of the North west Company and carried to the Cotton Fort being the bearers of dispatches from Green Lake — That intelligence being sent from the North west Fort to the said Wm M'Leod of this circumstance, he sent the deponent to enquire what was the cause thereof who was told by Mr Thomson the person in principal charge of the North west Fort and a partner of that Company; that he wanted to know what intelligence there was in the packet for the safety of himself and people in the actual state of the country, and that if Mr M'Leod would come over he might see the packet — that the said Wm M'Leod did not however deem it prudent to go over, as it had been reported to him that it was Mr Thomsons intention to arrest him; that the morning day the deponent was sent off express to inform Mr James Bird Governor of the Northern department of the Hudsons Bay Territories of these occurrences who wintered that year at the post of Cumberland House on the River Saskatchewan, but had not proceeded above eight or nine miles, when he was met by another dispatch coming from Edmonton District, in charge of three men with whom he met and with his party making six persons in all, but was met at the distance of within more than a mile by Samuell Black, Peter Skene Ogden, and about thirty canadian and Halfbreed servants of the North west company: when the said Samuel Black coming up to him said he was his prisoner, on being asked for his warrant the said Black gave no direct answer but in deponents desiring him to keep off he said that if deponent made any resistance, his life would only cost him a word, pointing to a half breed who was standing behind deponent as he perceived on looking round with his gun presented at him — That the said Black taking advantage of deponents looking round as aforesaid, seized and made him a prisoner, that in the mean time

Mr. John McLeod appearing at a distance, it was agreed that the whole party should be released with the packets, on giving his word to go over to the Rock Creek post, which he accordingly did about an hour afterwards — That shortly after Mr McLeods arrival at the said post he sent for the deponent who was told on his arrival by John Thomson aforesaid that he and Mr McLeod had deemed it necessary that he should be present as a witness lest words should pass between them, that some conversation then ensued between Mr McLeod and Mr Thomson in which it was proposed that the former should give bond in Five hundred pounds not to send off any packet to Athabasca in any event nor whatever without previous notice being given to the said Thomson or to Samuel Black who was in charge of a certain house adjoining the trading shop of the Hudsons Bay Co and that Samuel Black aforesaid should be his security in the said bond, ten pieces of packages of goods being lodged with him as counterpart security, that to these terms the said John McLeod would not agree conceiving them to be a mere pretext to get the goods, as he told the said deponent who was himself also of the same opinion and still much believes the same to be true; that the conversation appearing to be at an end Mr McLeod told the deponent to return home, he himself having been arrested, whereupon John Thomson observed that the deponent was also a prisoner, on which Mr McLeod reproached him with his promise of allowing the deponent to come and depart freely, whereto the said Thomson made no direct answer — That the deponent and Mr John McLeod were in consequence detained prisoners two days, but that the said Thomson finding that the said Mr McLeod could by no means be prevailed upon to give up any part of the Hudsons Bay Companys goods, consented to liberate them on the third day, on the said Mr McLeods giving the bond required, and the deponent and another of the Hudsons Bay clerks joining as securities. That on the 15th day of March the deponent saw Samuel Black come into the Hudsons Bay house to enquire if Mr McLeod was

about to start for Carlton House to see Governor Bird having the preceding day sent a note for the purpose of making enquiry to which Mr Mc Leod had returned an answer in French the purport of which he told the deponent was that he so intended - to which enquiry Mr McLeod answered that he was then about to start, and accordingly soon set out with the deponent, and Samuel Black follow him with four half breeds and was afterwards told by the said Mr McLeod and others that he was taken prisoner by the said parties after they had been joined by a further larger party of the North West Servants who had been concealed for that purpose in the woods; that the next morning between five or six o'clock the deponent was alarmed by a violent noise in the said Hudsons Bay Company house, when supposing it to be a disturbance among the servants, he ran out into the principal room in his shirt when he was seized by force by armed men from whom he escaped and ran back to his own room where he was pursued and the door forced in upon him by several armed men whom he afterwards learnt to be under the command of Samuel Black, that the same armed men dragged deponent out upon the snow without allowing him to put on any part of his clothes and detained him there more than a quarter of an hour with the knowledge of the said Samuel Black whilst the house was plundered of all the arms therein that could be found, the deponent in the meantime being held by three men and the Desroches standing opposite to him, and threatening to beat and otherwise maltreat him if he attempted resistance and Samuel Black advising him to be quiet as what took place was by orders of John Thomson a Justice of the Peace and to guard against bloodshed, that after the arms were removed deponent was allowed to go into his room to dress but an armed guard was left in the house, whilst Black went with the arms to the North West Post, having

Having first by way of insult ~~cut~~ the Mast ~~and colours to be hoisted on the~~ flag staff of the Hudsons Bay post, and then ~~one~~ colours under the saucer, the about ~~the~~ eleven o'clock. John Thomson and Samuel Black came to the Hudsons Bay house and endeavoured to prevail upon the deponent by threats of the authority of the ~~former~~ as a Magistrate to allow them access to the store had been refused by him, the said Thomson said to Black we cannot stand loosing our time but must get in one way or other, or words to that effect, when upon the said Black broke open the door and called in several of the half-breeds and other servants of the North west Company, especially one Jean Marie Boucher a half breed, and brother to the woman Kept by Thomson who had been appointed Constable Dauphin above mentioned and Joseph Charette and desired them to take away the goods which was accordingly done the deponent being with difficulty allowed to take an account thereof with the assistance of Joseph Spence before mentioned & the accounts whereof he cannot remember to be certain, having been taken in great haste and the assistance of any of the Hudsons Bay servants positively refused him — That the same goods were afterwards taken over to the North west post, but that the deponent cannot say how the same were afterwards disposed of, although he has considerable reason to suspect a part were used for the trade of the said company, having seen there embezzled blue cloth, which had been by them supplied to an Indian, which kind of cloth he has been told by persons conversant in the trade, the said North west Company are not used at any time to bring into the country, and the deponent further saith that in getting into the Hudsons Bay house, the before mentioned armed men forcibly broke open three doors, two of them secured with bolts and one of them with a lock of which deponent had the key in his pocket, and that the first appearance of day light was scarcely visible on the clouds, and that on his asking the said Black whom demanding

entrance into the State for his warrant he replied that he had none but the Governors verbal orders which were sufficient — And the deponent further saith that from and after the period last mentioned, himself and all the servants of the Hudsons Bay Company remained prisoners at large within their own post under an armed guard of the North west Company servants and that after two or three weeks detainment they were informed by Mr McLeod that they were allowed and expected to fish for their livelihood, but that the men being unwilling to work when prisoners and nearly the whole of the canoes taken away before the opening of the navigation, they suffered a good deal from want — That Mr McLeod and four others escaped by land towards the end of the winter — That on the 8th day of June, Mr Archibald Norman McLeod the North west agent and partner coming from the Athabasca country took seventeen others of them but men away in his canoe, and carried them as the deponent is informed and believes, to the North west post at Isle la Crosse where he is totally ignorant of their detention — That on the 17th day of July four canoes of the Hudsons Bay servants arrived from Athabasca at the Hudsons Bay post at Isle la Crosse aforesaid, containing about twelve men each, that two of them men were left at Isle a la crosse and the deponent and John McDonald another clerk came out in them stead, leaving about twelve persons still prisoners at that place, consisting principally of the servants of the post of Green Lake who had been brought there in the spring — That the Deponent was informed by George Sinnis the clerk of the Hudsons Bay Company who came out in the four canoes aforementioned, that all the persons in charge of the Hudsons Bay post at Athabasca and Great Slave Lake respectively as well as all the servants there, had been made prisoners, and that there still remained twenty or thirty persons, prisoners at the said Athabasca Country. the North west Parteners above Fort Cumberland the Former of whom told him that Commissioners had arrived from Government in the Country but that he had not seen them, and saw them any share of provisions from all which deponent concluded they were escaping from said Commissioners reach. And the deponent further declares and saith that he was at the Hudsons Bay post at Green Lake in April 1815 at which time Robert McVicar was in charge of the said post, and that towards the end of the said month he was informed one morning that an Indian belonging to the Plains of the name of Mouchouche or Le Bauf was near the house in the woods standing & Shook with H Ostrich - accordingly went to him and welcomed saying that the Indian wanted credit for six Skins whereon Mr McVicar sent him the same by the Interpreter and at the same time sent one of the Company's Servants along with him at the request of the Indian which said Servant returning some time afterwards brought word that he had been met by the Indians Wife, who had warned him back telling him that Peter Skene Ogden a Clerk of the North west Company and some of the said Company's servants were at the Lodge of the said Indian; that in the course of the afternoon of the same day the deponent perceived an Indian coming along the beach towards the Hudsons Bay post and several of the North west servants running after and forcing upon him that in consequence he went to the house to fetch his own arms in case it should become necessary to defend himself and shortly afterwards Mr McVicar hearing the Indian let him in, whom he knew known to be the said Mouchouche or LeBauf — That Peter Skene Ogden aforesaid and several of the North west Servants (whom names the deponent has heard, never since seen) without previously hearing them, not being conversant in the French Language came immediately afterwards to the door of the said Hudsons Bay house, and demanded the said Indian to be given up to them, which Mr McVicar

refused, has he had taken refuge with him, and that he thought, therefore protected him being told that he was a Cannibal and a murderer who had killed and eat three Canadians. M^cMillan said that in such case they might take him at their own peril, and directed deponent to give him up, but which the latter refused, not wishing to have any thing to do in the business, as Peter Skeen Ogden had avowed his intention of killing the Indian that therefore some of the Canadian Servants of the North West Company stepped within the door of the house, and reached the said Indian whom they dragged out — That the deponent cannot positively say whether they were assisted by any of the Hudsons Bay Servants in pulling him out of the house but that not any of them to resist. That M^cMillan stated afterwards that he was induced to deliver up the said Indian from an apprehension that he might have been killed in the house, and his death imputed to them by the other Indians, and that it was dangerous to meddle in Indian quarrels as they might afterwards be molested by a tribe bigger to misconstrue what passed, and to take revenge upon those who had meant them well. That the deponent afterwards saw the said Peter Skeen Ogden and his party draw the said Indian two or three hundred paces on the ice, pulling their hands to their mouths and whooping like Indians, that he afterwards saw several guns fired by the said party at the said Indian, and blows given him with hatchets, and particularly the said Peter Skeen Ogden strike as if stabbing him three times with a dagger, which said dagger he afterwards brought over to the Hudsons Bay house quite bloody, and boasted he had pinned the Indian therewith three times to the ice, whilst in the struggles of death — That the deponent is totally ignorant of the truth or falsehood of the charges made against the Indian but that it was stated they had occurred several years back.

Cumberland District
Peguis Land } Deposition of John McVicar

Before me James Bird Governor in chief of Rupert's Land appeared John McVicar clerk in the service of the Hudsons Bay Company, and made the following declaration and complaint.

That on the 2nd of January last he arrived in company with Mr Wm Clarke chief in the service of the Hudsons Bay Company at Fort Wedderburne a settlement belonging to the said Company situated in Athabasca Lake North America, and some days after this arrival, as afore said, was informed that Duncan Campbell who had been in charge of Fort Wedderburne during the late summer, for the said Company, was at that time detained prisoner in Fort Chipewyan a settlement belonging to the north west company, and situated in the said Athabasca Lake, by Archibald Norman Macdonald Agent and part of the said north west company, and a petition to the Grand Jury for the Indian territories of North America. That on the morning of the 8th of last October John Stewart McFarlane a clerk in the service of the Hudsons Bay company, came into deponents room in Fort Wedderburne and told him that several clerks of the north west company were shortly come to the doors of the said Fort quarrelling with Mr Clarke, which information induced deponent to go to the place mentioned by Mr Farlane, where he saw the said clerks viz Hector McNeil — Wicks Alexander Roinick McLeod and Simon McGillivray, a part of whom had red coats on them, and the said Clarke standing, and apparently in a hot dispute; that on his deponent approaching near enough to hear what was said he heard the said Clarke say to Mr Neil "You must have come here on purpose to pick a quarrel with us or "You would not walk so near my house" to which said Mr Neil replied by saying "You are mistaken Mr Clarke I have not got "over any grievances and so long as I do not do that I have a right to "be walk where I please" on which the said Clarke pushed Mr Neil back a little, at the same time desiring him to go home, whom Mr Neil partly pulled off his coat, at the same time challenging the said Clarke to fight, but the latter declined accepting the challenge saying to Mr Neil I will not condescend to put myself on a footing with you but if your master were to challenge me I would not

not refuse him. That Mr Weil continuing to insult the said Clarke
he deponent told Mr Weil that he had no right to be so abusive to what
Mr Weil replies by saying that he deponent and one Bruneau to take
Mr Clarke's part he deponent made answer that it was his duty to
to take the part of his master whenever insulted or abused. Mr Weil
presented a sword to him deponent which he considering to be
a challenge to fight, accepted, and a combat with swords immediately
commenced between your said Mr Weil, which terminated on
deponent disarming himself by striking his sword against the
legs of a horse, and Mr Weil receiving a severe cut in the shoulder
That on getting disarmed deponent was taken into the mansion
and there did remain whilst private altercations between the said
Clarke Mr Weil & Malone Mr Gillespy Wicks and Mr Farlane.
That in the morning of the 2nd of October the said Clarke called him
deponent into the room and read to him deponent a letter written by
the said Mr Weil Norman M'Leod in name of M'Leod and the
persons who were present when the quarrel aforesaid took place, to
address before them immediately in Fort Chipewyan that said
Clarke was himself, deponent, declined obeying the said order of
M'Leod, as from the late conduct towards said Bruneau deponent
they could not doubt but his motives in ordering him into his
presence, was to make use of his magisterial authority to vindicate
in Clarke in case of employing it in the support of justice. That
on the 3rd of October last Dan Rafferty, Baptiste Maignan a guide in
the service of the Hudsons Bay Company arrived at Fort Wedderburne
from a trading place, & had on board several nine canoes of the said
Company laid loaden with by Mr Clarke to collect a number of furs
for carrying provisions and informed Mr Clarke, as he informed
deponent that he, Baptiste Maignan his companions at the fishery and all
the furs they had collected were safely arrived at the Lower
conducted Prisoners by George Back Thomas St Germain two
Voyageurs of the NWCo, the said Norman M'Leod, and about thirty
armed servants of the north west company to Fort Chipewyan on
which they, Maignan & companions, were told by the said Mr M'Leod,
that they should be detained prisoners till M'Clarke appeared before
him the said M'Leod. That in consequence of this information of Maignan
M'Clarke went the same evening to Fort Chipewyan accompanied
by the said Duncan Campbell, that M'Clarke was detained there
prisoner and that the said Campbell returned to Fort Wedderburne &

and informed him deponent that M'Clarke would be confined
till he deponent and the said Mr Farlane appeared before the
said Norman M'Leod. That in consequence of this information of Maignan
& Campbell, he deponent went the following morning accompanied by
Mr Farlane to Fort Chipewyan, and sitting down in the hall of that
fort was tapped on the shoulder by a half breed servant of the said
north west company, who said to him deponent words to this
purport "You are my prisoner come after which the said Mr
Norman M'Leod entered the said hall and read in this deponents hearing
papers which he, deponent said were affidavits made by the said
Norman M'Leod, Duncan M'Gillivray & Simon M'Gillivray relative to the
quarrel aforesaid, that then affidavits so read by M'Leod pertaining
the most gross misrepresentations and downright falsehoods, he,
deponent, was induced to observe to the said M'Leod that the
documents he had been reading contained false statements of
the affair they pretended to describe on which M'Leod desired him,
deponent, to take care what he said, and to go into another room
in which he deponent found the said Clarke and M'Farlane
prisoners as well as himself. That the next day the 4th October
the aforesaid Norman Campbell and Roderick M'Kenzie and Alexander
the Hudsons Bay company came into the room in which he,
deponent Clarke and M'Farlane were confined and told them
as well as the said Clarke and M'Farlane, that they had offered
bail to the said M'Leod in order to procure the release of the
prisoners, but without effect. He the said M'Leod, declaring declared
to them the said M'Kenzie and Campbell, that he would take
no other bail for the said Clarke and M'Farlane, than a quantity
of goods the property of the Hudsons Bay company, which goods must
be deposited in Fort Chipewyan and that he would not admit
him deponent, to bail in any account; that the said Clarke
and M'Farlane were accordingly detained prisoners with him,
deponent, till the 10th of said October when they were liberated
and he deponent remained prisoner alone. That about three days
after M'Clarke had left him, deponent, the said Simon M'Gillivray
came into his room or prison, and asked him, deponent, if he thought
long to which he deponent made answer in saying, not very much so
when the said M'Gillivray said "You may Claim your liberty if you
can get a few pieces of goods (of the worst) deposited with us as security
for your future good behaviour" To which he, deponent replied by
saying

saying that the goods demanded would probably be of more benefit to his opponents employers than the personal services could be and that he could therefore remain where he was. he deponent had been well informed previous to this that Sundry pieces of goods the property of the Hudsons bay Company were intended for trade with the natives, & been provided in part of payment to procure the liberty of M.r Clarke. That a short time after he deponent, had the conversation aforesaid with M.r Gillivray, he was ordered to appear before M.r Reid who proposed to him deponent that his wife should come over and reside in fort Chippewyan whilst he M.r Reid said he would receive every accommodation from his power. believe that he deponent declined accepting the offer of M.r Reid in saying that he deponent would continue sometime before he was hopes he allowed his wife to live in fort Chippewyan which observation of his he thinks was said by M.r Reid as he M.r Reid immediately said "You shall not remain long here" M.r M.c Kenzie send him to a place for I know nothing of him shall not have your own way with me Mind upon it" That on the 18.th of October M.r Clarke and Duncan Cameron came over in the canoe he believes of M.r Reid for him deponent, and he was permitted to return to his home. That during his deponents imprisonment as aforesaid he said M.r Reid said to him in presence of M.r M.c Kenzie and M.r Clarke "You may think M.r M.c Kenzie that I did not take your like when I am determined to which he deponent replied by saying "I am sure it would have done the no honor, and by taking the said M.r M.c Kenzie as a witness of what M.r Reid had said, meaning the said M.r M.c Kenzie called upon deponent, an impudent rascal and ordered him to his prison. That on or about the 24 of December last he deponent was accompanied by the said M.r M.c Kenzie and M.r Cadotte, to Fort Chippewyan in compliance with a summons from the said M.r Reid who interrogated him deponent, respecting stolen property which he, Reid, alledged the said Clarke had in his possession that during this examination Joseph Cuerrier a servant and voyageur Bully of the north west company, delivered a note to said M.r Reid, which the latter said came from M.r M.c Kenzie informing that the said Clarke had lately presented a pistol at the breast of the said M.r M.c Kenzie, in consequence of which demand of M.r Clarke he, M.r Reid added "I will detain him, deponent & his companions,

prisoners till M.r Clarke delivers himself up to justice" That he deponent remonstrated with the said M.r M.c Leod on the injustice of depriving him of his liberty on account of the actions of another man but to no effect. That while he deponent was still before the said M.r M.c Leod another servant of the north west company came into the room, and informed M.r M.c Leod that M.r Clarke's fishermen were on the Lake going to fish Whitefish with fish on which the said M.r M.c Leod said "Clarke will get himself shot as M.r M.c Leod is determined not to be trifled with this time" That he deponent soon after saw M.r Clarke appear before the said M.r M.c Leod who abused him the said Clarke, in the most gross and vulgar manner and that after much discussion, he deponent the said Clarke and all the servants of the Hudsons bay company who had been made prisoners were allowed to return to their homes That after getting home he deponent was informed, by the said M.r M.c Kenzie and Clarke that the said M.r M.c Leod had dispatched an Indian to the Lake to seize the fishermen of the said whom M.r Clarke was going to protect when the said M.r M.c Kenzie arrived from fort Chippewyan having been detained by M.r M.c Leod for the purpose and prevailed on M.r Clarke to abandon going to the assistance of the fishermen and to appear before the said M.r M.c Leod by which timely interference of the said M.r M.c Kenzie he deponent believes that a bloody affray was prevented and a breach of the Peace had nearly been broached. That at different times in the month of December last, the said Simon M.c Gillivray offered him deponent two high Wages on the part of the said M.r M.c Leod, if he deponent would immediately quit the service of the Hudsons bay company and join the said M.r M.c Leod, which offer he deponent invariably refused and that on the 25 of December the said M.r M.c Leod said to deponent "You were a great fool to refuse the offers made you by Simon M.c Gillivray You will never get such terms from the Hudsons Bay company" to which he deponent replied by saying "Often had made me such offers, but that, since I was engaged to the Hudsons bay company I could never be induced, to, but I cannot under the present circumstances, think of accepting an offer which I consider calculated to lead me into disgraceful" That

That on or about the 25th of January last the said Clarke Wilson and M.Eastaine went over to Fort Chipewyan in compliance with an invitation to dine, from Robert Henry, a partner of the north west company resident at Fort Chipewyan, said deponent was left in charge of Fort Wedderburne; That about four hours after Mr Clarke deponent the said J. B. Allard came into the said Fort Wedderburne and delivered to him deponent a note of which the following is a copy "the Gentlemen of Fort Chipewyan compliments to J. B. Allard and request the favor of his company to dinner as we will not come till sun rise" That whilst he deponent was perusing the said note several servants of the north west company amongst them he deponent knows, the said Louis Lacuyer one of the persons called Iroquois, rushed into the said Fort and immediately surrounded him deponent and George Bruce the only two persons in the room and he deponent then saw a horse pistol pulled out of Lacuyer's breast, on the flint being cocked and presented by the said Lacuyer at the breast of him deponent, who seeing he said to him deponent "we see we are not armed unprovided, assistance in Cigar will be useless therefore deliver to us all the Arms that are in your house" That he deponent; notwithstanding refused to deliver up the arms in consequence of which he said J. B. Allard sent one of his men to Fort Chipewyan who returned with a note addressed to him deponent and signed by M.Clarke by which he deponent was ordered to give up to the said J. B. Allard all the Arms in Fort Wedderburne that belonging to the property of the Hudsons bay company and the men would order he deponent obeyed, and all the arms in the house were soon after conveyed to Fort Chipewyan by the said J. B. Allard and his companions, soon after which the said Clarke M.Kenzie and M.Eastaine returned to their homes.

That on or about the 3d of February last a constable came into Fort Wedderburne, arrested M.Clarke upon an alledged breach of the Peace, and conducted him to Fort Chipewyan where he was detained prisoner. That on the 26th of February he deponent was told by the aforesaid Henry, that, if he, deponent, would go to Fort Chipewyan and sign an agreement which would there be shewn him, M.Clarke would immediately receive his liberty: That in consequence of this information he, deponent, went over to Fort Chipewyan where the

the said J. B. Allard explained to him the nature of said agreement, which is, the said Clarke said had already been signed by all the other Agents of the Hudsons bay company, and which stipulated that he, deponent, as well as his other Agents, should from that time, till the first of July following, submit to and be under the control & representations of the north west company then at Fort Chipewyan; That deponent refused to sign said agreement on which he, the said Allard, told him, deponent, that if he did not immediately comply he would be sent to a place where he would not see the face of any of his fellow servants for two years; that this threat, which he, deponent had no means of executing the execution of induced him deponent to sign an agreement, as aforesaid, which he knows to be both cruel and unjust, and that he was then allowed to return to his home where he found M.Clarke who had been liberated soon after his deponents entrance into Fort Chipewyan. That on or about the 15th of April last M.Clarke was again arrested and detained prisoner in Fort Chipewyan, and on the following day the said Simon M.Gillivray accompanied by Pardin Cleary a servant of the north west company, came into the hall of Fort Wedderburne and in presence of deponent demanded the keys of that house of the said M.Eastaine who had charge of them; that M.Eastaine refused to deliver up the keys, which were lying at the time on a mail in the hall, on which the said Cleary took the keys, being ordered so to do by said M.Gillivray, opened the door of the Warehouse, which contains the principal part of the property of the Hudsons bay company then in Fort Wedderburne, went into said warehouse followed by M.Gillivray, and took possession of all the property contained which the said M.Gillivray ordered four servants of the north west company viz the said Cleary, the said Louis Laguierre and one Laviolette to convey to Fort Chipewyan, which order was accordingly obeyed. That some time after M.Clarke had been again apprehended as a prisoner he, deponent, was in the Yard of Fort Chipewyan, and seeing the said Clarke there, spoke a few words to him he which he returned a few words in answer, which the said J. B. Allard hearing he spoke in a most insolent manner to the said Clarke threatening to put him in a cellar if he dared to have any communication with his,

Depon[t] that on or about the 24th of May last he deponent having been informed that the said J. W. Weed would leave Albanel for Canada sent to the said Weed and requested that he deponent might be allowed to leave Albanel at same time to receive his passage to England on the Hudsons bay company's ship which would probably arrive at Fort Factory in August following upon which deponent was joined by said Weed that he should be permitted to leave Albanel and be conveyed to Cumberland House early enough to secure his not losing a passage on the said Ship, that John Stewart (a partner of the said Company) servant to the said Weed made the said promise to him deponent, and at the same time informed the said Stewart, that he left him Stewart in charge of all the servants belonging by said Weed and authorised him Stewart to act towards him in the same manner as he himself Weed would do if present. That notwithstanding this promise of the said Weed, the said Stewart would not forward him deponent and his fellow servants detained with him at Albanel till the 8th of said August although he deponent and his companions were frequently during six weeks supplied with Offer food but on nothing during that time but very indifferent and scarce provisions more than one meal per day. That on the 8th August aforesaid the said Stewart informed him deponent and his fellow servants viz Roderick M'Kenzie, Thos. Sutherland, Jno. Mc Donald, Hugh M'Ruby, Charles Thomas & Peter Kennapa clerks of the Hudsons bay company and eighteen canadians servants of the same company with three canoes the property of the north west company and twelve Esquimaux, and allowed them to proceed escorted by Jno. Stewart, on a journey with eight Men towards Cumberland House but not till he the said Stewart had first obliged the aforesaid servants of the N.W.Co. to proceed straight to Cumberland House on their arrival at either of Hon. Blacks to deliver up to him Stewart the said Canoes. That on their way to Cumberland House accompanied as aforesaid by Stewart they deponent & companions met the said J. W. Weed with whom Stewart had some private conversation after which he Stewart said to him deponent & his companions, a proper which he Stewart said was an extract from and order of one of the Commissioners sent by Government to enquire into the disturbances existing in this Country & according to which all property

property seized by either party on this territory was to be returned to the original owners except the property seized in Albanel which was given by sanction of that he deponent knows that the said extract was on the hands writing of Stewart. That he deponent, and his fellow servants aforesaid arrived at Cumberland House on the fourth day of September last when the said Stewart immediately demanded the said canoes which were delivered to him whereby the aforesaid servants of the Hudsons bay company were deprived of the means of transporting themselves to any place where they could be better maintained or where they could yet be of some service to their employers, and it was too late for him deponent, to dispose to get a passage to England that season, although his agreement with the N.W.Co expired on the 8th of August last. That all the canoes belonging to the Hudsons bay company in Albanel were seized by the said J. W. Weed and that he deponent considers the seizure of them an attempt to ruin the Hudsons Bay Company as their servants were thereby not only deprived of the means of quitting Albanel but rendered when permitted to quit that country almost useless to their employers for another year. That he deponent was informed before leaving Albanel that his [illegible] and James Peal, a clerk in the service of the Hudsons bay company were [illegible] by the said Weed, and his associates at Fort Chippewyan, to embark in a canoe with several canadians who, report said, were to convey Messrs Clarke and Peal to the Great Slave Lake, and that since Mr Clarke leaving Fort Chippewyan no accounts have been received of him at this place, Cumberland House.

Deponent further declares that after arriving at Cumberland House as aforesaid he represented to the said Stewart the impossibility of his deponents getting a passage to England that season, by Hudsons bay, and requested him, Stewart, to give him, deponent a passage to Canada as his deponents engagement with the N.W.Co was at an end and he might possibly be obliged to remain here another season. That he deponent further told the said Stewart that he had often told him, deponent, that he was detained prisoner on account of misdemeanors

which he alledged that he, deponent, had committed, and that it was therefore the duty of him, Stewart, to take him, deponent, with all convenient speed before a court of justice in order that he, deponent, might be prosecuted for his alledged offences or receive a final acquittal, to which representation of his deponents, the said Stewart replied by saying if all your late companions will accompany me I will take you all before the Commissioner at Red River. He, deponent however, believes that the said Stewart had not the least intention to take him or his companions before the said Commissioner as Stewart soon after the said request had been made by him, deponent, went off in the direction of Athabasca

Before me Thomas Bird Esq. Governor in chief of the Upper Land appeared Auley M'Auley, Clerk in the service of the Hudsons Bay Company and made the following Declaration and Complaint. He saith that he, [illegible] the summer 1817 with W. Duncan Campbell and several other Servants of the Hudsons Bay Company at a trading settlement belonging to the said Company, situated on Shallow Lake in the Indian territories of North America and called Fort Middlebourne when they traded with several Indians who were encamped at Black Islands there. That on or about the 6th of September 1817 Archibald Norman M'Leod Esq. a principal agent and Superintendant of the North West Company, and a justice of the Peace for the said Indian territories, arrived at Fort Chipewyan a Settlement of the said Company situated about one mile and a half distant from Fort Middlebourne: That soon after the arrival of M'Leod deponent perceived several Servants of the N.W.Co. and several Indians attached to them endeavouring to entice seven Indians, the chief of whom generally goes by the name of the Rat who traded at Fort Middlebourne during the preceding winter and were then hunting within fifty Yards of the door of the said Fort, over to Fort Chipewyan but without effect, as the Indians were much attached to the Servants of the Hudsons Bay Company. That in the morning on, or about the 15th of said September one of the seven Indians just mentioned shot a Horse which was staying quiet and fell about one hundred Yards from Fort Middlebourne the Indian who shot it came to fetch the Horse and in the act of doing so was seized by Alexander Kennedy a Servant of the North west Company who usually resided at a House of the said Company which was called Rainy Lake House and situated at about fifteen Yards distant from Fort Middlebourne, the Indian endeavoured to extricate himself from M'Leod and deponent seeing the manner in which he was seized ran to his assistance, and deponent and the Indian having both stronger than M'Leod were gradually getting master of the Indian, but when deponent received a severe blow on the side which cut his mouth from one Lacroix a Servant of the N.W.Co. whom M'Leod had called to his assistance. Deponent returned the blow and knocked Lacroix

Sinclair down and the Indian at the same time escaped from Stewart and ran into the tent. M'Leod then struck Deponent and a scuffle ensued in course of which he Deponent also struck by one Lajimoire, another servant of the Nor'Wt Co. and at length threw down from which situation he was extricated by some of the servants of the Hudsons Bay Company, living at Fort Wedderburne, who came to his assistance, and he returned home. That soon after the said scuffle had taken place he, Deponent, saw two servants of the Nor'Wt Co. go in a small Canoe to Fort Chippewayan, where the said Archibald Norman M'Leod resided, and in a short time after their departure he perceived a large Canoe coming from Fort Chippewayan towards Fort Wedderburne. The Indians who were at Fort Wedderburne seeing the Canoe and apprehending that it was Archibald Norman M'Leod coming to take them by force, requested and were permitted, to go with their families into Fort Wedderburne. The Canoe soon landed near Fort Wedderburne and he Deponent saw the said M'Leod and about eight armed Men get out of it and go into the house of the Nor'Wt Co. in their respective, the guard there. That soon after M'Leod had entered the said Guard House he Deponent and M'Campbell received a message from said M'Leod saying he wished to speak to them. M'Campbell told the Messenger that himself and Deponent would meet M'Leod halfway between the two Houses. And M'Campbell and Deponent immediately proceeded towards M'Leod who also came forward to meet them, but had not provided himself or his men with arms from the Canoe, neither did they. Deponent and Campbell forced them into the house, which M'Leod had just entered in, and took them on to Fort Chippewayan where they were confined four days, at the end of which time they were allowed to keep the house themselves in Nor'Wt and two sentries viz. 100 each. That when he returned home he learnt from those who were present that immediately after his apprehension the said M'Leod obliged the seven Indians above mentioned to go on to Fort Chippewayan. Deponent further saith that the first evening of their confinement he and M'Campbell were put into a room without a Blanket or candle, and that on M'Campbell expostulating with the

Archibald Norman Mc Leod in the cruelty and injustice of the treatment he had received, he said Mc Leod abused Mr Comptbell in presence of Deponent, in the most grossest manner threatening to hit him and put him in irons, Mr Mc Leod also called Deponent a "damned rascal": Deponent and Mr Comptbell afterwards received a Comble but no bed clothes for that night.

Before me James Bird Esquire Governor in Chief of Rupert Land
Stephen Finlay McAulay, clerk in the service of the Hudsons Bay
Company, did make the following declaration

That he left York Factory about the 1st of October 1813 & arrived at
Great Slave Lake in the Indian Territories of North America, with
about thirteen Men in the service of the Hudsons Bay Company, and
a quantity of goods the property of the said Company for the
purpose of trading with the Natives of that place. That after
his arrival he dispatched his only dependance for procuring food,
to himself and Men was on the Rivers which he set in the water to
catch fish, but all his Nets were unfortunately carried away
by the violence of wind and he was left without any means
of procuring food for immediate subsistence except through
the assistance of Archibald McLellan Esqr who was in charge
of a Settlement of the North West Company on the
opposite side of the Lake, and had a large quantity of provisions at his command
The deponent therefore applied to the said Archibald McLellan to furnish him
with a little provisions for subsistence for himself & people (as
soon till he could make the materials for making a Net
and to procure fish) but the said Archibald McLellan absolutely refused
to furnish the deponent with any provisions or any other terms
than his delivering up his Goods to the said McLellan all the
Goods the property of the Hudsons Bay Company which the
deponent had then in his possession and signing an agreement
stipulating in his favour but on his refusing any other demands
of the Hudsons Bay Company ordered the conducting Clerk

for the purpose of taking possession of the North West Company
Canoe for the conveyance of the Chipewyan Indians, bound across
Athabasca Lake from Lac la Biche in the Autumn of 1816, and

The following is a correct Statement of the Violent conduct of Mr Simon McGillivray Jun.r Bailey Lavelly and the crew of a Canoe he dispatched to the North West Company on the 18th of May 1818.

On the morning of Robert McVicar Clerk to the Hudsons Bay Company embarked on a small Canoe with Augustus Bouche and Baptiste a half Breed and proceeded from the English Island on Lake Winnipic Southward to the mouth of the River to Cedars shooting - At about mid day of the 19th when we entered Lake Winnipic we met a large Canoe - on the opposite side of the River when we embarked I saw a Mr. Robert Stewart disembark and immediately proceed a little further on shore with whom he took some food for supper - and we about half an hour after my departure from my men I met two of the North west Company of whom Lavelly was one who let me Clerk Augustus Bouche and Baptiste the Salesprotes were taken prisoners by Simeon McGillivray and party and carried to Fort Chipewyan - Justice Lavelly would not hear my men were taken prisoners when he replied that Bouche was taken in consequence of the oath he was compelled to make to the Partners of the North West Company of Canada 1817 and for my Interpreter he could not do for what reason I know not - I am ignorant when my Canoe was on shore at that encampment in the french language I could not - Bailey embarked with - he the said Lavelly further declared that I have no Canoe that he could give a passage in his Canoes to Fort Chipewyan the Lavelly replied as I stated that my men - which I do not know from Simeon McGillivray upon circumstances on the occasion that when Mr Spencer the English Clerk belonging to the Hudsons Bay Company should be embarked with Lavelly his Canoe as I could always be able to compell him to embark on board people to embarke and proceed when I embarked Simeon McGillivray of the NW Company put me on shore for Supper I immediately demanded August 1818 of me my Interpreter but he refused and the answer that Simeon McGillivray made was that he would take away me of Bouche to the Fort Chipewyan to be confined by force when I went to the Canoe when my Interpreter was in order to take him out of the Canoe but no sooner I the said of him Clerk I was endeavouring by force and Bailey who prevented me - when a warm altercation took place between myself and Simeon McGillivray who told me that he could give me a passage in his Canoe to Fort Chipewyan - which I refused and after I asked my Canoe and Men from Simeon he would give me no Satisfactory answer they were prepared to embark which put me to a stand or what measures
