Report on Abbitibbi River Department 1822/23.

Conformable to a resolve passed by the Gov.r & Committee at Moose Factory in August last, appointing me to the command of the Post comprising the Abbitibbi River Department (altho' thus appointed in the resolve, I was given to understand by the Gov.r and Committee that the whole arrangement of the Department was left for the Outfit 1822/23 entirely under the management of Mr. Angus Cameron, and with which I was not to interfere) but principally direct my attention to the Transport of the Outfit 1823. proposed to be forwarded from Moose and to take the necessary measures for having the returns of 1822 conveyed thither.) I left Moose Factory on the 18th September taking with me the Duplicate packet for the Gov.r and Committee addressed to the Agents in Canada, - it was my intention to have explored some of the most Portages in the Abbitibbi River, but on my fourth day from the Factory the Weather became extremely cold for the season with Snow which appeared to indicate the early approach of Winter. - I therefore determined to proceed for my Winter Quarters without delay, - below the Carrying places the Water in the River was low, but about it appeared high for the Season. - no occurrence of any importance happened on the Journey & I arrived on the 5th Oct.r encamped at Abbitibbi House where I found Mr.r M.r Rae and Adam with Seven Men all well. - a short time after landing Mr. M.r Rae handed me a Packet from the Agents in Canada addressed to the Gov.r and Council of Moose Factory together with a Letter addressed

assisted to unload by Mr Angus Cameron respecting the encouragement which he has ever given to his expedn for Europe – the next morning Thomas Owen & Robert Robillard were sent off with the above dispatches from Moose at the same time Henry Sanders & Joseph Bijeau set out for Temiscamingue with the Duplicate Packet for the Head Quarters.

On the 17th October Richd Thomas and Thomas Corbett (the latter being ordered to relieve him) met people from Moose – arrived with a Packet addressd to the Head Quarters Committee, and a Letter from Pete Williams acquainting me that the accompanying dispatches contained Orders from Europe for the Lake Superior Department Outfit 1824 – which should be forwarded without delay – next morning one Sanders & Joseph Bijeau were sent off with the above express for Temiscamingue from whence they returned on the 26th (the day before the Lake was set fast).

When I arrived at Moose some days after, appearances were very unfavourable with respect to Provisions owing principally to the unusual height of the Water, for no Fish were caught till the 21st Oct: when the fall fishing commenced – fortunately however 38 keggs of Fish were procured at the Fishing Station and the procuring of the October fish being about 150 bushels, we were enabled to keep the House without dispersing any part –

The Winter set in very early without any remonstrance taking place beyond the usual routine of affairs – of the Servants who visited the House many complained of a total starvation at the same time they all agreed in saying that the season altogether was the most unfavourable for Provisions which they had experienced for several years back –

On the 6th May Henry Sanders and Joseph

Joseph Bijeau arrived from Temiscamingue with a Packet from the Agent in Montreal addressed to the Post in Council of the Southern Factory together with the Copy of a Letter from Mr Mc Bain Chief Factor Lake Superior &c. addressed to the Officer in command of the Temiscamingue Outfit established on the Frontiers of Lake Huron, the Ice on the Lake was at that time in too unsafe a state to depend on sending a Canoe to the entrance of the River which delayed the Couriers proceeding those Letters forwarded till the breaking up of the Ice – From a Letter addressed by Mr Thain to Mr Fraser Senr given to understand that the purport of the Dispatches was to request the Post in Council instructions for sending all the Men belonging with the Temiscamingue Department across to Montreal by the return Canoes – it appeared to me utterly impossible that the express could reach Moose in sufficient time to enable the Post in Council to send the necessary information to Mr Mc Kay before the return of the Canoes – I therefore considered it necessary to endeavour to forward information to Mr Mc Kay by the way of Temiscamingue for this purpose Joseph Abbitibbi on the 19th May in a small Canoe and arrived at Temiscamingue the 23d – on the 24th Two people were sent off for Mattagamingue where Three Canoes had arrived in our Lines –

On the 4th June three Canoes manned by Eight of the Company's Servants and Four Indians arrived at Abbitibbi from Moose in 29 days with 75 pieces of Furs being the whole of Grand Lake and Temiscamingue with the first of the Abbitibbi Outfit 1823 – On the 20th Mr Mc Kenzie arrived in Seven days from Grand Lake with the returns of that Post consisting of 23 Packs of from 90 to 100 Skins each and on the 21st (the day on which the Canoes from Moose and the second Post were appointed to meet agreeable to the arrangement of Mr Aird) in his Report of last year) Mr Fraser arrived in his way from Temiscamingue with the Furs of

of that Port and the Albitibbi Outfit from Canada by 23 packs of Furs and 42 pieces of Goods in three Canoes and by 12 Indians and 5 Voyageurs from Moose.

The annual packages of Goods from and from Moose for 1823 Outfit of Grand Lake Temiscamingue and Albitibbi were all received safe at the Latter place and as usual delivered to Mess.rs Rowan and McKenzie for the Stores of their respective Posts. All the Posts composing the returns were also received safe the list of which (by hand) were forwarded from Albitibbi for Moose on the 23.d June.

The Furs of the several Posts for the Outfit of 1823 are as follows—

	Albitibbi	Grand Lake	Temiscamingue	Total
Beaver ... M	1826	1057	1160	4035
Otter ...	143	112	122	377

Foxes ...	17	6	13	36
Castors ... lb	70	.	22	92
Beaver Scraps	7	.	.	7

The Furs of Albitibbi fall considerably short of last years, particularly in Martins and Muskrats the failure of the former was principally owing to the Death of three Ale Hunters, who in general brought from 400 to 500 Martins and the unusual height of the Water during the last Summer occasioned the decrease of Muskrats.

The Furs of Grand Lake is somewhat less than last year, the Indians in that District were much distressed for Provisions, one whole Family actually perished for want and two many Indians with their Families narrowly escaped the same fate by fortunately meeting the Canoes before

the vital spark was extinguished — Some may be of the Men Belonging to Grand Lake in the May last by the upsetting of a Canoe while they were going to embark at a short distance from the Shore.

Temiscamingue The Furs of this Post is rather more in Beaver, and many other description of Furs, than last year, several Savages were also much distressed for Provisions and required considerable support from the House.

From the measurements taken out by Persons who were settled during the Winter of 1821/22 in the vicinity of Temiscamingue several Indians belonging to that Post and to Metagamingue became much dissatisfied with their former treatment, and actually carried a considerable portion of their hunts to these Parties — in consequence of which it was deemed advisable last Summer to establish an Outpost from Temiskaming at Wanderering Lake. — From a letter addressed by Mr McBain Chief Factor, Lake Huron Department, in Charge last to the Officer in charge of the Temiscamingue Outpost, it appears that the supposed opponents were people sent from Lake Huron previous to Mr McBains appointment to the command of that Department, and from which he very prudently withdrew them the Spring of 1823 — On the receipt of this information orders were given to discontinue Trading with any Indians who have not hereto fore belonged to the Post included in the Temiscamingue Department and when the Navigation opened the Outpost was evacuated.

Mr Augus Cameron returned to Temiscamingue on the 12th June on the 15th the Montreal Canoes arrived with the Outfit from Canada in Good Order, the same day Mr Cameron addressed a letter to me (from the information of the Post and Council) detailing the particular affairs of the Department.

Mr Cameron in his letter to me also

speaking of the Gentlemen of the Pemmenanigue Department says "Mr. John McRae and Mr. John McKay's term of Apprenticeship expires this Summer I can assure the Govr. and Council that Mr. McRae on and during his Apprenticeship has been highly satisfactory, and I consider him perfectly qualified to take the charge of any Post in the Department and trust that a liberal Salary will be allowed him. — Mr. John McKay is an Assistant and a good Mechanic of the self taught kind his services are indispensible at Pemmenanigue. — Mr. McRae was during the past Winter with me at Abbitibi, and I certainly do consider him a very deserving young Gentleman.

The Blacksmith at Pemmenanigue leaves the Service this Summer and I would strongly recommend that a Smith be provided in his place by the Spring 1824 to prepare Iron work for the outfit of that year. — Three Men are indispensibly necessary for Pemmenanigue, with that a Blacksmith, and with one less labouring hands would be sufficient.

Not having had any particular communication with the Inferior arrangements of the Department I have little more to add except it may be a few remarks on the manner in which the Navigation of the Abbitibi River might be improved.

The Carrying places in the Abbitibi I took particularly the 1st, 2nd and 3d from Moose with the Clay Falls and Portage lightning places could be much improved. the 3d Portage is fully three Miles in length, the ground very uneven, the hills are steep, the valleys soft and muddy. To make a good road over these three Portages Timber should be laid in the low swampy ground and planking path (poles such as practicable) formed along the side of the Hills, the bank of the River along the Rapids of the Clay Falls and portage lightning places might be cleared of, underwood, so that Boats or Canoes might be

be hauled up with a line, to accomplish this business in a proper manner would be attended with considerable labour and expense, but when once completed it would be the means of greatly facilitating the Transport of Goods and Furs over this at present difficult part of the route. — From the 3d Portage to Abbitibi Lake I am of opinion that no great improvement can be made in either the carrying or lightning places, except clearing and repairing the Portage paths with enlarging the lightning places. — There are however some Rapids (such as the three Miles, Meadow Rapids) which requires considerable clearing along shore of Trees which hang over the bank, and prevents the towing or hauling up boats with a line. — People have been this Summer employed in clearing and repairing from Abbitibi Lake to the 3d or big carrying place, and if what is here proposed to be done to the lower Portages was properly executed there is no hesitation in saying, that Canoes of from 30 to 35 pieces manned by Five hands properly supplied, might perform the Journey from Moose Factory to the Abbitibi Lake in 20 Days, the length of the Lake from the 16th or last Portage in the River to the House is about 60 Miles, and the passage through which, would of course be longer or shorter according to the state of the Wind or Weather at the time. This year three large Canoes with 25 pieces and Five hands in each performed the Journey from Moose to Abbitibi House in 29 days, and Five Men in a Bark Canoe with 23 pieces, did the same in 21 days.

From the Clay Falls to Moose Factory little benefit would accrue by cutting down the Willows along the Tracking ground, except indeed the whole were cut and be so removed as to prevent the Line from being entangled, generally speaking the Tracking ground from the entrance of the Abbitibi to the above mentioned Falls is very good.

In the following lines, I have endeavoured to collect the most material circumstances, which may tend to illustrate the present state of the trade at, and the circumstances regarding the post of Abitibie without any regard to order or method, but merely as they presented themselves to my imagination. But here I may undesignedly, overstep the bounds, by which reports of this kind, ought to be limited But this being probably the first statement of the kind ever received from Abitibie. I may perhaps be excused for mentioning circumstances which may appear foreign to the purpose; as well as unnecessary and impertinent in a yearly report.

Situation. The country possessed by the Abitibie Indians is of considerable extent. To the South and SouthWest it extends beyond the height of lands, partly, on upon Canada, until it reaches the lands possessed by the Temiscaming Indians And in Lower Canada joins the hunting grounds of the Grand Lac Indians to the SouthEast. It is bounded by Waswanipie on the NorthEast. To the North and NorthWest it extends to within little more than one hundred miles of the Sea coast. From this part of the country, is received three fourths of the Beaver collected yearly at Abitibie. Beavers, Martins and Cats, are found to the Northeast. In the Southern quarter the Beaver is almost totally unknown. and this part of the Country being occupied by many poor, and destitute Indians

OTHERWISE WITHOUT PERMISSION OF THE HUDSON'S BAY COMPANY, LONDON

— little or no benefit is derived from it.

Indians and Trade

The number of hunters entered on the books is 82. several of whom are boys having little or no Credit; and who might be kept entirely out of Debt. which would be of great benefit to the Concern; without any prejudice to themselves. If this plan would be adopted, the Indian Credits would in a few years be entirely struck off from the Books. If the present method is continued, the whole will in the end be lost. The number of Martins lost this year, by the death of 44 hunters is 1232

Almost three fourths of the above number of Indians, are in the habit of coming several times in the course of the Winter

to the house, for such articles as they are in want of. This is a pernicious custom; by which their (never to be paid) debts accumulate from year to year, in spite of all precaution on the part of the Trader.

The products of their new Credits are thus destroyed before summer; when they are again as destitute as before. A summer Credit apart from the principal one is the consequence; this ought to be paid in the fall of the year (with Musk Rat and Summer Beaver) when Goods must again be advanced to them not only to enable them to hunt; but also to live. In this manner they may be said to get Credits three times a year.

But what principally allures them to the house, in winter is liquor.

This almost immediately on quitting

the house; if they generally drink, sitting on the ice without any regard to the severity of the weather: and as their liquor is very strong, the consequences may be conceived. Last year an Indian froze to death a few miles from the house, being so intoxicated that he could not move. This excessive drinking is of great prejudice to the trade several Indians are now maimed and crippled caused directly or indirectly by intoxication. This is greatly to be regretted as the best hunters having it in their power to procure most liquor are generally the first victims of their own intemperance

There were 2 Chiefs at Abitibies, one of whom died last winter; besides these there is an Indian who for the last 2

years has got all the perquisites of that office, except the coat which he now expects to receive.

It has been the custom I believe since the trade was first established in this part of the Country, to barter the summer as well as Winter Beaver. It might be imagined that from this circumstance this valuable animal would before now be entirely exterminated Yet from all I can learn on the subject I find that it is now as numerous as ever. In fact Indians on whose lands beavers are found in any considerable numbers always take care to leave a sufficiency for the purpose of breeding. They take as much care as gardeners do to cut up and prune in order that the residue may rise with renewed vigour and augmented numbers.

HUDSON'S BAY COMPANY

But the case is otherwise, with poor and destitute Indians. These not only clear their own Lands of all valuable animals but as marauders and poachers; prey upon their neighbours, and indiscriminately destroy all before them. The Beaver in particular, for the sake of its flesh they never pass by, whether in or out of season.

In dealing with the Indians we differ but little from the established practice at the neighbouring posts We rate Beaver and Cat higher, but at the same time some of our Goods are dearer. Leather in particular I cannot forbear to mention. We often see Indians using fine Winter Beaver for Shoes and Mits; rather than exchange it for the small pieces they

may could procure of our Moose Skins which is likewise far inferior to the Beaver when well dressed.

Of the before mentioned number of Indians 4 hunters are deceased since last June; to this circumstance and to the scarcity of their usual means of subsistence (Hares) is chiefly to be attributed, the great decrease in the returns, compared to other years, particularly Martins. As for Muskrats the unusual height of the water prevented the Indians from killing them in any considerable numbers.

Internal Resources

Hunting

Hares are generally found in considerable numbers Round the Lake and on them the people principally subsist the greater part of the Winter

HUDSON'S BAY COMPANY Reference:

During the summer Months Indian Corn is served out to them daily, the fish taken being very inconsiderable.

Fishing — In the fall of the year about Sixty of 9 Gallon Kegs of Whitefish are generally taken and salted for winter use. of these 15 Kegs and a proportionate quantity of potatoes, are given to the Indians who frequent the house in Winter.

Farming — The soil here is not very favourable for cultivation; it being a hard compact clay and a hoe and spade being the only implements of agriculture no considerable crop can be raised In rainy seasons however, potatoes may be raised to the amount of an hundred Bushels

or an average. This together with a little barley is all that can be procured from the extent of ground now under cultivation, which is about 3 Acres. But great room is left for improvements

There is also near the house a piece of low swampy ground, containing ten or twelve Acres, on which the wood has been cut down several years ago four or five Acres have since been cleared for the purpose of making hay thereon. If this ground would be cleared and drained, which might be done at a trifling expence, a great benefit would accrue to the place in the augmentation of its internal resources.

Dairy

Nor is the situation more favourable for Cattle, on account of the almost total want of pasture; leaves, moss, and a few rushes, being all they can procure in summer. There are nine of all descriptions here now. They have, from the want of proper nourishment degenerated in size to an incredible degree; and when slaughtered, there is (with the exception of one) none, that would weigh 300 pounds. It is needless to observe, that from the same cause they give but little Milk Indeed I doubt whether they are of more harm or benefit to the place several Men are occupied a great part of the summer, in procuring for them a long Winter's provender who might otherwise be usefully employed

Buildings

The Buildings at Abitibbi consists of a Store-house. a Stable, or Cow Byre a Barn or hay Shady. a potatoe vault. and 2 dwelling houses. The latter are in every respect unfit for the accommodation of their respective inmates.

But the occupiers of the principal house may now be greatly benefited. by a Judicious use, of an assortment of board and plank recently prepared for the occasion.

The Store-house and Byre; are well enough; and will last several years if kept in repair.

The whole is covered with Cedar Bark

The Abitibie Lake is about 55 or 60 miles in length. The Tracts of Lands possessed by the Abitibie Indians, to the North East-East & South, joins the Hunting grounds of the Waswanipie, Mistagonsi Lake, and Temiscamingue Indians. To the South West & West it extends to the Lands possessed by the Matawagamingue, Frederic House Indians, & to the North West and North, unites with the Lands occupied by those Factory & Rupert's Bay Indians.

The number of Hunters entered on the books are 70 in number, of whom one Boy passes whom little benefit is derived. Probably there is not an Indian belonging to this Post but what has a few Beaver in his hands, and the limits of the territory which belongs to each Family are well known by their neighbours as the lines which separate parties are, by the Savages in the civilized world; so that any soldier who encroaches upon one another. Indians kill the Beaver only sometimes in order to preserve the Breed, till the old ones leave the young Beaver. I have never seen less than 1350 Beaver Skins into this Post, the general returns are Beaver Skins in future 1400 to 1600 and from 30 to 35 Packs of all Species of Furs. There is but one Indian Chief at this Post who is a very old man. There is another Indian who receives all the perquisites of a Chief except the coat, which probably never will be necessary to give him as such reconciliations of them are not requisite now, and they are always entertained with more expence than other Hunters.

The returns of this post can always equal to any of the other Posts in the Temiscamingue Department & therefore the Indians pay as much for the goods as any of the Posts in the above Department. There is a stated quantity of Liquor given to each Indian, according to the Furs he brings, certainly those that are

good Hunters get a great deal, and those that are indifferent Hunters remain very little, however I am of opinion, that this Method greatly encourages the Indians to enter into Debts in the Autumn, and to pay those Debts if possible the following Spring, that I have seen last Fall, that whoever could be deficient in paying his Debts, would only get half the quantity of Liquor, and also that no Summer Beaver Skins should be taken from them for the future. There has been more Beaver Skins destroyed by the Indians last Summer, and the Winter previous, than there has been for several years before. Six of the Indians belonging to this Post on the Hudsons Bay Quarter did not come here since last Spring. The returns of last year were Eight Packs short of those of the year previous and I fear they will be still less this Season. There is not at this Post since 1813, Hay and of course of Barley to the people at the Post, but never were of any benefit to the Company nor has any thing ever been saved by them except an Keg of Butter and to replace that 2 or 3 Bags of corn is expended in making Hay for them, the people have to go 2 or 3 miles or the way, except a small Meadow that is close to the House, which produces about two Bundles annually

Mares, Fish, some Potatoes are principally the subsistence of the people during the Winter.

(During) the Summer being but scantily supplied with fish the Men each receive one Quart of corn, daily

The extent of ground under cultivation is about Ten Acres the soil is of harsh clay, and very unfavourable for cultivation in which the increasing return, from 1 to 2 hundred Bushels of Potatoes and from 10 to 20 Bushels of barley on an average may be caused.

The following Buildings are erected at Michikan viz a House a Stable, a Byre a Barn a Hay Shed, and Two Dwelling Houses all covered with Cedar Bark.

The following Persons past the Winter at Michikan viz
Wm Polson Interpreter a sober industrious and serviceable Man very capable of taking charge of the Post during the Summer, a native of this Country 36 years of Age, Contract expires this year.

And to the North & North West united
with the Lands occupied by Hannah Bay &
Moose Factory Indians —

The Number of Indian Hunters entered on the Books are 74 —

The Caste Hunting also the Country
Most very unfavorable for Indians to Hunt
In the early part of Winter such a Vast
quantity of Rain fell which Rose the Small
Rivers & Lakes to such a Height that it
was very difficult to Search the Beaver &
to add to this that the Chief support of the
greater part if not all the Indians (of this Post)
for their Subsistance the Hares failed. So that
many of them Suffered greatly from Starvation
& Number of them was under the Necessity
of Leaving their Lands & go to Places where
they could procure Fish for their Subsistance
& many of the Indians before they could pro-
cure a Sufficiant Quantity of Fish & any thing
else to Support themselves & to Baste their
Canoes Snaps. the Season was too far ad-
vanced for them to return to their Hunting
Grounds to Make Snaps. Consequently Some of

of them made hardly any —

In Consequence of the Hares failing the Cats almost disappeared Which is partly the Reason of the returns of this Post being so deficient this Season —

The Indians of this Post that is on the Jamiscanningue quarter & in the Vicinity of this Lake has Hitherto Many Beaver or Martens on their Lands their principal Hunt used to be Cats

The principal Beaver Hunters are those Indians that Hunt at the Uper End of this Lake & down the Abbitibie River

The Indians on the Hanna Bay quarter formerly had the most Martens & some of them were pretty good Hunters but for the Cats These Years they have failed greatly

Last Winter Three of the Indians of this Post Died by them the Honble Company Credit 262 Martens, perhaps none it Will Not be Necessary to give Credit to Indians but formerly it Could not be avoided —

There is not above 4 Indians at this Post but What is able to pay their Debts when it is a favourable Winter for Hunting —

There is a great Number of Young Boys at this Post & in a few Years hence there Will be a Considerable Number of Hunters — Probably it Will not be in favour of the Post to have so Many Indians at it. as they Will not have Lands to Hunt on. & Will Consequently be but indifferent Hunters. a poor hunter is always attended with more appearance than a good Hunter it

It is & always Was the Custom at this Post to advance an Indian New Debt the Next Year that he pays his Old Debt —

There is but one Chief at this Post who is a Very old Man — There is another Indian Who Receives all the perquisites of a Chief except the Coat. at present (at this Post) such description of Man is of no Service & is always attended with more appearance than other Indians, in the time of opposition Chiefs were of some use as the other Indians followed them on account of the quantity of Liquor that was given them —

There is a Stated quantity of Liquor given to the Indians of this Post according to the Fur that they bring by this Means those Indians that are Tolerable Hunters Receives a best quantity & them that are but poor Hunters are not often the Worse of Liquor

There is Cattle at this Post Since 1813 they are of Course of some Cupiny to the People at this Post, but never was of any Benefit to the Honble Concern —

Hares Fish & Potatoes is principally the Chief Subsistance of the People here during the Winter —

During the Summer being but Scantily provided with Fish the Men Each Receive one Quarte of Corn daily —

The extents of Ground under Cultivation is about four Acres The Soil is of hard Clay & very unfavourable for Cultivation. Notwithstanding Which from one to Two Hundred Bushels of Potatoes & from 10

to 20 Bushels of Barley on an average may be raised —

they are of Course of little Use to the Party employed at the Post to which they belong, as they are obliged to subsist themselves during the Winter.

Horses. Fish & Potatoes is principally the Chief Subsistence of the People there during the Winter.

During the Summer when Fish can be procured the Men each receives one Quart of Corn daily.

The Extent of Ground under Cultivation at this is about 7 or 8 Acres. The Soil is of a Clay & very unfavourable for Cultivation & in dry Seasons it is very hard & produces very little of any Species of Grain. The best Season that I have known a pretty good Crop of Potatoes & Barley but 22 Bushels of Potatoes & 19 Bushels of Barley.

The following Buildings are erected at Abbitibee viz. a Store & Stables & Byres & Barn & Hay shed Lime & Dressing House all Covered with Cedar Bark.

The following Persons past the Winter at Abbitibee viz.

William Polson Interpreter Salary £20.00 Lives at Abbitibee & an Indian during Pleasure Person a Native of the Country 37 Years of age. He intends to go to Montreal this Ensuing Autumn or Spring 1827.

Joseph Bisson Steersman & Wageur 600 Livres Age 21 Years a Native of Three Rivers in Lower Canada. Contract expires 1828. A steady Man & very Capable of doing his Duty & fit for being promoted to a Canoe Man but he must be steady before he is.

But after all these above great Qualifications I must mention that although in my opinion I should think that his Conduct too much assumed in asking the Governor (last Summer at Moose Factory) permission to take a Woman & bring her to this Place, as I never objected to his doing so when it was mentioned to him if it was reported to me that he wished but to attend to the Duty of this Post it is impossible for a Man to perform his duty properly when he has a Wife she would Constantly be a burthen upon the Post & his family would be an unavoidable expence in short the Idea is too poor in respect to subsistence for any Man to pretend that he could support a Wife independently of the Company.

Abitibis Lake

This lake is fifty five or sixty miles in length. The tract of land possessed by Indians on the North East and South joins the hunting grounds of the Mastawanipies, the Grand Lake and the Temiscamingue and Fredrick House Indians. To the South West and West it extends to the lands held by the Matawequmaque and Fredrick House Indians. To the North West and North it unites with the lands occupied by Moose Factory and Rupert's Bay Indians. The extent of ground under cultivation here is about seven acres. The soil is very unfavourable being hard clay, notwithstanding which from one to two hundred bushels of potatoes, and from ten to twenty bushels of barley may be raised every year.

The above description of the boundaries furnished by the Thomas Frazer in 1824, is opposed in the report of 1827, which states that the extent of ground under cultivation at the latter period was eight or nine acres. The writer adds "The soil is very unfavourable. One crop last Autumn consisted of two bushels and a half of barley and a hundred and sixty nine bushels of potatoes.

1 Nothing of material importance has occurred at this Post during the year, excepting the Goose Hunts, last fall and this Spring, which turned out rather poorly in consequence of their being no spring Winds which occasioned an early departure of the Geese last fall, and the Latenefs of the Spring this year that the Geese when they did make their appearance remained very short in the Marshes; 4,000 Geese only procured at Capuscasing River fall and Spring, and 3,100 Geese from Chickney Goose Tent fall and Spring.—

2 Albany District is only one Post and a House from it at Capuscasing, about the Distance of 60 Miles North, for the purpose of procuring Geese, Feathers, and Quills in the Goose Seasons.—

Chickney Creek is also a place where we procure Geese in the Spring and Autumn, Salt Ammunition &c is sent to it regularly, and a person to pickle the Geese and attend on the Indians, the Distance from this place is about 12 Miles North.

The ground in Cultivation at this place does not extend to an acre, the Soil Clay and very wet.

Our last years produce was 32 Bushels of Potatoes, 1000 Cabbages and 2 bushels of Small Turnips.—

Built two new Batteaux last Winter for Inland service if required and for Company's Use.

Young Calves to Osnaburgh House for the service of the Colony at Red River.—

and their families were all turned over to Moose District last fall.

The above Indians are pontuar in the payment of their Debts when they have the means to pay, this year has been favourable for them Martins being pretty plentiful. but when that is not the case they are not able to pay their Debts, Beaver being very scarce on their Lands, many of them were in a starving condition all the winter, Animals was nearly thrown to Death. —

No 5 There are no Canadians within this District —

No 6 The Trade of the District this Year is very good altho not quite so much as last year, but better than some former years, the Geese not being so numerous last fall and this Spring in the Marshes Occasions the Trade in Feathers and Quills to be less this year than it was last, and Several families of Albany Indians being turned over to Moose River upon the Trade of this District, and a few are not yet come in with their winter hunts. —

Report of Thomas Vincent Esq.r Governor of the Sea Department of the Transactions and Occurrences at Albany Old Factory District 1815 & 16.

HUDSON'S BAY COMPANY

1

373/515 Sir,

In sending you an account or narrative of the principle transactions which have taken place in this District I shall begin from the 3 of October on that day I received a few lines from Mr Pruden Master at Eskimay Point Fort stating that he had then Sacked 33 Barrels and 3 Kegs of Geese and that the Geese were then all gone from Eskimo.

On the 19th the Albany Sloop arrived from the General Store with a Supply of Goods and Grain for this place and Albany Inland the following passengers arrived in her to winter at this place, Messrs George Geldman Senr. Nicol Finlayson George Atkinson Junr. and Marcus Calder, James Johnson and James Beaven Boatbuilders, this Sloop was unloaded on the 11 and 12 and the Cargo housed, on the 13 she sailed for Moose with 1108 Geese on board, I received instructions from Mr Joseph Beioley for the building of one large Boat and a Batteau, on the 16 I dispatched the Carpenters and Men with them up the river to collect Logs and Knees for that purpose, on the 21 they returned with 48 pine knees, sent them off again on 23 for more Timber detained them for 2 weeks but on the 28 they were obliged to come home with what they had collected (21 Logs) as it had every appearance of winter setting on, which it did very sudden, Ice began to form in the river on the 29 and on the 30th it froze over.

I presume it is unnecessary to particularize in this Report the daily labours of the people as it will be found in the Daily Journals of Occurrences.

On the 20th November Mr Wm Harper arrived from Moose with the unpleasant news of the Ships Eddystone and Hudson Lining returned to winter at Moose. on Saturday the 2 of December, in consequence of the above unfortunate news I issued the allowance of Flour to 3 lb and one quart of Oatmeal to each man of such who were employed, on the 3 I received advice from Mr Joseph Beioley to issue the weekly allowance of Flour to 3 lb and 1½ lb Batteau. on the 6 I returned them Men to with with all the parchment I had to spare and a Dear Miss Jarvis, Mr George Geldman Senr. Mess

— pointed them in order to offer his services to conduct an Expedition to Canada — on the 22d December three returned passengers arrived from Moose to be maintained here, on the 23d Six more arrived and on the 24th Six more came: —

On the 30th I sent 12 people returned passengers and unemployed Servants to Capuse with a Months Flour each at the rate of 3lb each p week and to receive there at the rate of 5 Pieces each p week — On the 1st March Six more returned passengers arrived from Moose. — On the 10th I received a note from Mr Prince Master at Capuse informing me that Boyce Bowman, a returned passenger, died there on the 13th of a Swelled Throat — On the 23d April Mr Owen Heurey and 8 Men arrived from Moose to wait here till the breaking up of the Ice then to proceed for the Colony at Red River

On the 8th May the North River broke up and cleared out to Sea, it broke the 26 before the South passage cleared out — On the 18th May I sent to Chickney Geese Net in hopes to get some Geese, but there was not one then salted at that place, was under the necessity of killing this Spring Bear for Mr Owen Heurey and his party for their Journey to the Colony. — On the 19th Mr Heurey and Eleven Men took their departure for Red River in a New Batteau and two small Canoes — On the 20th two Men came back from Mr Heurey and told me he was very ill and wished to see me, I sent immediately and reached his tent in the evening where I found him very ill indeed — on the 21st he was no better got him into the Batteau and returned to the Factory. — on the 31st he was considerably better — On the 1st June Mr Heurey still in a very poor state of health took his departure for Red River, Lis Steersman Wm Swinger was then unable to do Duty I therefore sent James Johnston to manage the Journey till they met Inlanders. — On the 5th I sent a note to Mr Prince at Capuse to send all the people that were there to the Factory as we were then getting pretty good luck in fish from the seine. — On the 10 Johnes Johnson returned in one of the Inland Batteaus. —

On the 10th the Indian Jack Kipling who was sent off on the 9th to make a basket in the fishing Creek 50 Miles up the river returned having made the basket and laid Lines of Catching fish, this Indian was engaged to attend upon a party of Men at this Creek or any other place where he could find their living — On the 19th I dispatched the Indian with Eleven Men in a Batteau to the fishing Creek — on the 26 I was very sorry to see them all return, could get no fish on account of the water rising in the Creek which prevented the basket to stand — on the 2d July I sent 9 Men off in a Boat to the Lock, about 40 Miles from here towards Moose, with 4 Nets and a Smale Seine to endeavour to find their living — On the 21st the Albany Sloop was seen in the Channel and between 11 and 12 o'Clock at night 3 of her crew arrived in the Boat and told me the Sloop was a ground and about half Tide of water when they left her at 9 o'clock at night I dispatched the Carpenter and 12 Men to her assistance, they got to her about Low water and made some temporary repairs which with the pumps constantly going, enabled them to get her into the River that same Day —

On the 23d the big Boat called the Capuse was Launched — On the 27th the people returned from the Lock, they said that they would have lived very well had it not been for the bad weather which here and hindered their nets from standing. — On the 28 the big Boat being rigged and ready for Sea sent Mr Mark Prince and 4 hands on her to Capuse to bring home the Spring hunt and the Feathers and Quills —

On the 6th August the Boat returned from Capuse with all the Geese Feathers and Quills, they experienced very bad weather, Camped every Night, Carried away some of the Boats Chain plates &c

On the 9th the Sloop after receiving a good repair Sailed for the General Store with as much of the Furs as she could take and 9 of the returned passengers as per order received from Mr Beasley — On the 23 She arrived here again and on the 27th Sailed again for Moose with the rest of the Furs. — On the 6th September two of Mr Heurey's party (Hugh Linklater and Wm Donald) arrived here that left Mr Heurey a little below Portage de la Loche on the night of the 2d of August together with Mr Joseph Brown and David Saunders. —

State of the Post — No addition or diminution has taken place since the last Report with respect to the buildings —

The ground in cultivation at this place does not exceed an Acre in 8 different Divisions of unequal extent the soil not Clay, this produce saved last fall from this ground was a little 30 bushels of Potatoes 1600 Cabbages. — a piece of ground was cleared last fall a little the West of the old Factory and was planted in the Spring with Potatoes, but a little the 26 August the frost destroyed them completely, the Gardens at this place were also blighted a little; about Seven Barrels of Potatoe seeds were planted this Spring but I do not expect we shall reap 10 Barrels from it.

The Conduct of Officers and Men

Mr Harper — Master of the Albany Sloop, his Character is not altered from what it was before.

Mr Mark Prince — Master at Capuse Grass Sent. his conduct has been the same as last year perfectly satisfactory. —

Mess.rs Neil Finlayson, Marcus Calder, George Atkinson — Clerks, the two former came out to the Country last year the latter is a Native. been three years in the Service, I can say nothing in favour of their abilities or activity. They are all three gone Inland this year

James Johnson, James Brown — Carpenters, were employed together building Boats last winter and this Spring they are both hard working Men I have nothing to say against their Characters.

James Morrison — Black Smith, is an able bodied and hard working Man at any job he is put to as well as his own branch, is rather given to Drinking; in other respects he bears a good Character —

Hongman Kay — House Carpenter, was chiefly employed last winter sawing plank &c. for the Boat he is a sober active man.

Wm. Dickson Sloopper, is a good Seaman, is much addicted to Drunkenness Thieving and Lying

Wm. Stringer Sloopper. he does very well I understand when on board the Sloop but is inactive when on Shore this has been his first year in the Country.

John Leask. Sloopper. Came out to the Countries last year, he became Lame in one of his Limbs last winter and still Continues so was active and sober.

Mag.s Brown Cookeeper did extreamly well last winter in that station, is sober and I believe Honest.

James Cromarty
Wm. Saunders } Apprentices are very tractable youths the former is able bodied and works as well as the best of Labourers, the latter is but weak he goes as a hand on the Summer Season.

Wm. Mowat Cooper, has been one year at this place and appears to be sober and active.

Albany 1816 Letters Governor

Report to Thomas Vincent Esqr Governor of the Hon Department of the principle occurrences at Albany Ola Factory District 1815 & 17

1

Sir/

In giving you an account of the principle transactions which have occurred in this District I shall begin at the 5th of October on which day the Albany Sloop arrived from the General Store with Supplies for this District Albany Inland. I received a Letter from Mr Joseph Beioley acquainting me of the Boy Esquimaux Jeffy arrived in the Ship on the 21st September. On the 6th October the Sloop sailed for Moose with 16 Barrels of Goods on board. On the 15th Mr Alexander Collie and James Conjeal arrived from Point aux Pins in a small Canoe they were both of Mr Hennys Party on his expedition towards Winter Lake. Mr Collie brought Mr Thomas Mr Nots Packet Mail with Dispatches for you from the Governor of the Hon Department which Mr Collie received to bring down and that Mr Note returned to the Northward. On the 17th Mr Collie and James Conjeal proceeded to Moose with their Dispatches over land. On the 21st October the Sloop arrived from the General Store bound with Goods for Albany Inland for the Service of next year.

On the 28th of October the Sloop Hunter and six Boats sailed for Canoes in the Canoes Road to bring home the Goods Furrs and Furrs from Mr Spears Post the wind blowing to the Northward and cold weather setting in they were obliged to return on the 31st. On the 5th November Mr William Sinclair Junr and 23 more returned Passengers arrived from Moose overland; I received at the same Mr Joseph Beioley an order to acquaint me of the return of the Boy Esquimaux Jeffy to his own Country, and accompanied by the Hon the Governors Packet Dispatches of March and Directed that I would as soon as possible Dispatch Mr Sinclair to the Northward Department with the News of this unfortunate event. On the 7th November the Gipsey Schooner arrived from Moose with 11 more returned Passengers and the baggage of those who came by watchings. On the 20th November 37 People returned Passengers and Servants, were dispatched to Canoes to be maintained there out of the Fore Goods which proceeded at Half Shares, at the rate of 3 Measures each Man per week, Small Corn for 6 weeks, viz. 2 Mr Regan and 3 Pecks of Oatmeal to each per week. On the 1st December 5 People arrived from Moose to be maintained here on the same terms. On the 9th December 5 People arrived to be maintained here. On the 10th December, Leaving Summers at this Out engagee Virgeau for a guide, Dispatched Mr William Sinclair to the Northern Department and to take with him from Canoes, 13 of the returned passengers, the Old orders to Old Moosonee and Rupert River provided to Mr Nicholas Corbeau as a guide Canoe to proceed. On the 12th Sent 5 More Men to Remain at Canoes. On the 25th December Mr William Harper returned from Canoes, he accompanied Mr Sinclair from here on the 16th to Canoe and the Provisions to the returned passengers which had to proceed by the Northern Settlements, and to the Men left from Canoes; I learned from him that Mr Sinclair and 10 more of the returned passengers belonging to the Northern Department took their Departure from Canoes on the 16th December, 2 of the party decamped from Canoes and not left for the Journey, and one (Jos Flatter) got intoxicated the night before he was to have proceeded on the Journey, along with John Brodie which detained the Letter Bag from the Factory till the 29th and Old Moose in his possession. Brodie arrived at Moose on the night and gave the

people of this House to understand that Statter was laying on the River, 2 Men were sent to bring him to the House but could not find him, next morning he was found almost Dead and his Hands frozen in a Shocking condition —

On the 10 January a Party of Men, chiefly returned Passengers, left Capuse to come to the Factory for a Months allowance of Grain for themselves and others, at Capuse, James Clouston a young Lad in the Country, was one of the Party and towards the evening of that Day he was some Distance behind the rest of the Party except George Cromarty and John Gaudy who were in company with him, night Coming on they Lost sight towards the woods intending to put up for the night but finding the place unconvenient for that purpose they turned back again and proceed on; they had not gone far till they saw the tracks of those who had gone before them going towards the usual resting place, Cromarty and Gaudy was then before and Clouston was a little to one side, Gaudy called to him to come this way but was the Man Tracks, Clouston answered that they were further on, but he saw them, and that he would go on, till he found them —, Gaudy called again, but got no Answer, Cromarty and Gaudy followed the path which was on, till they came to where the rest of the people had made their Fire — and there they all remained for the night as unconvenient as it was Poor Lad was in Company with them, it was a Clear Sharp Night the Thermometer that morning, 13th January, was 29 Below 0th (Cypher), all of them well knew that this unfortunate Lad had neither Hatchet, Steel, Flint or any thing else to enable him to make a Fire; and again, much to their Regrets, next morning 5 of them set out and left Clouston Poor Lad some after they left their Fire, their track was going towards the woods, and they pursued it without making the least endeavours to see if the Poor Lad was to be found or in distress, 3 Men of the Party remained all Day in the Tent without making the least search for the Lost Man — (See Names of these Men and all entered in the Cuddy Journal 15th January, the Day on which 5 of them returned Home and the 6th came on the 15th & the 16th 4 of them were returned to Capuse with the Allowance of Grain for themselves and the Men from Deggs Encampment were ordered and strictly ordered them to search for the Body of James Clouston and bury it — On the 23d January Magnus Corrigal of the Nelson River Brigade arrived with Passengers — he said that the Life was more or less some time to remain the last all — On the 24th the two youths, apprentices, who was sent to assist a few part of the way to Capuse returned, they saw the Man who was sent to look for the Body of James Clouston — but they had not found it — Received this Day a Letter from Mr Joseph Bentley Secretary of the Home Department requesting me to forward a Letter which I was ordered addressed to the Governor of the Nelson (Department — On the 26th January sent the two youths to Capuse with a note to Mr Hook Peering in Cuddy to get information Concerning the Lost Man, they returned on the 1st February, as they went from Home they saw a smoke close about the place where James Clouston was Lost, they went towards it and when they had just entered the willows they happened on the place where he died, they saw only Left of the Body Home, it had been cut away below the Breast seeing a track from it towards the woods they followed it and came to a family of Indians (Swampmasons) where they found pieces of Thermometer Glass lying

outside the Tent — On the 2d February three Indians came to the Place.

On the 3d Three Men were sent to look for the bones of the Late James Clouston and bury it — which they did and returned on the 4th Inst; as they went from Home and as they came back they saw a fresh track beyond the Swamp and the tracks of two Indians going that way with sleds on Snow Shoes.

On the 5th February two Men were sent off on the Provisions to look after the Indians where five were seen on the 3d Inst. they returned in the evening and Mistaphyas (Swampmasons) Eldest Son with them, they met him at the Swamp where he was making a Sled, on being questioned he said that he was Encamped a few miles off, that Father he says started to Death a few days ago, the man found on the 3d the pieces of his Father's body — On the 20th February Despatched the Indians (Mistaphyas and Jackrabbit) Sons with the Letter which I received from Moose on the 5th January to forward to the Naud.

On the 11th March 9 returned Passengers coming from Severn for an Months allowance of Provisions for themselves and others at that place, they brought with them the Corpse of the unfortunate James Clouston who was found on the Night of the 17th December at Caboose, he died this morning on the 3d March after they left their Tent — On the 26th Mr Jones & two Men (John Smith and John Brodie) returned from Caposuse they said that Mr Johnston a returned Passenger belonging to the Severn Department, accompanied by another Man & Indian from Caposuse and then turned back, that Man was never seen or heard of after that day, search was made for him but in vain, On the 11th Mr Miles Lee Master (separate this life he was entrusted all the Monies, Compliments moved of his Head and Breast).

On the 21st May the Indian Nigeus, arrived with guide Passengers & the Severn Department & accompanied them to York — On the 29th June George Spence returned here from Penbeat with Despatches for the Governor of the Severn Department by him I received a Letter from Mr Joseph Bentley Desiring that he be forwarded to Severn as quick as possible.

On the 20th June engaged an Indian Misquanabick, for a guide to George Spence and they took their departure from here.

On the 29th Came the two Indians returned from Severn with more Dispatches from here on the 30th February —

I beg leave to refer you to the Daily Journal & Occurrences for the Daily contents of the Year 1824 and Correspondence.

State of the Post.

No alterations has taken place since the last Report with respect to the buildings; the ground is in the same as last year, the produce from the last fall was only a small 16 Bushels of Potatoes and a few Cabbages, the Potatoes were very small the most of them were no bigger than a Nutmeg

B 3/e/4 Augt. Georgiala I Albany Fort 1760

Report to Thomas Vincent Esqr. Governor of the Southern Department of the Principal Commanes at Albany Fort Factory District 1759/60.

1

Sir

In consequence of a Minuter of the Principal Transactions which have occurred at this District since the last Report you received from it, I shall begin at the 30th of August last, at which time I had nothing before that Date worth taking notice from the Commencement of that Day I had the pleasure of receiving a Note from Mr Joseph Beadon by his Messenger informing me of the safe arrival of the Ship Cupstone in Moose River, and at the same time received my Letters from Europe. On the 5th September sent back the two Men for Moose with a Note to Mr Bentley. On the 3rd sent off 12 Returned Indians to Moose, in case that a Vessel may not be here in time to convey them to the Bay in that they may get a Passage for Europe. On the 7th the Ship arrived with a Sufficiency of Goods from the General Store for the Service of this District. On the 8th sent back the Ship to Moose & by her a Note for Mr Bentley shewing to him the Letter I received and the great need of Rum, she was to acquaint before for this Service this Summer. On the 11th sent off Mr Wm Stewart & Jno Dans and 8 Indians in a Boat to Eastmain with Ammunition, Goods & Rum and every other Necessary for the Goose Hunt at that Place. On the 21st the Men from Moose with Goods and Provisions for the Service of Albany Inland. On the 25th the same again in Company with the Eastmain Sloop and Vessel arrived here on the 28th sent for Moose. On the 4th October Seven Indians came Home with the Boat from Eastmain, brought 97 Casks of Geese. 8 Eastmain remained [illegible]

and Albany Inland, and a Letter received from Mr Foster to acquaint me that James Johnston who had engaged his Passage by the Cupstone for Europe, was to be employed in procuring Fire Wood during the ensuing Season in order to be Shipped to Albany Fort for England Service. The several Indians arrived who had been hunting Geese at the North River since the 7th Inst. they brought about 300 Geese which are the last of the Hunt. 4500 Geese in all have been procured. 22nd in the course of this Night the Frost was such as was very unfavourable to the Navigation of this River, as all the Principal Rivers were compleat as the Goose Hunt and were unable to get it from their Canoes so as to make their usual Encampments. The consequence of which was they suffered much from Hunger, the low Beaver Meat which some of them had procured, they were obliged to subsist on, and many nearly perished. They walked from Low Water Island to the Fort in Four Days. Twelve Geese they returned to the Factory and Several obliged to subsist them for some time.

First Nov. The River Sloop after remaining frozen up 8 Days broke last Night and left Albany with the Flood at the Night of the 30th when it again set fast in a very rough State. 10th The Sloop entirely stripped of all her Rigging &c it was thought proper to unload her Stores, accordingly sent Men for the Stand and three Timbers which broke off the Keel, her Stores were found safe. On the Evening of the 9th Inst. Mr Hugh Caswell came from Moose, George Spence Nich. Mc Cumber and 2 Indians arrived with a Packet for England from the Northern Ship Britannia which was obliged to be run on Shore in Charlton Island Bay about 60 Miles to the Northward of Moose. On the 11th they took their Departure for

Moose—the Indians who accompanied them returned on the 24th with a letter from Mr Beatty requesting Canoes to obtain them at hand until the Spring and to be forwarded some Provn to Albany with Letters for the Northern Department—

January 3rd Mr Weir & Vause and two Men arrived from Moose with the Letters for the Northern Department which were dispatched from here on the 6th Inst by the two Indians.— On the 5th two Men arrived from Martins Falls District, they brought a Letter from Mr Thomas stating that for want of Provisions he was under the necessity of sending 5 Men to Albany to be maintained, and as if them to be sent back towards the Spring.— the Men informed me that one of their party turned back when a few Miles below Martins Falls, Case Dead on the Journey and one remained at Woodly.— On the 15th Mr Weir Vause and the two Men who came with him set off for Moose— sent a Letter to Mr Beatty requesting him to what time the Packet was to be sent for the Northern Department.— Feb 28th Mr Joseph Beatty arrived from Moose for the purpose of ascertaining what quantity of Goods could be spared from this District and from the Inland Posts for supplying the Northern Department in the Spring he was accompanied by Mr Richard Hardisty— having made every necessary arrangement relative to these Supplies on the 6th March Mr Beatty and Mr Hardisty took their departure for Moose— March 16th they sent the two Inland Men who came here on the 3rd January last Present to them a Letter to Mr Thomas mentioning the Reasons why only two of the Men reached the Factory— On the 8th April 3 Men came here from Moose with 2 Horses and 3 Dogs with Gum for the Northern Department— On the 9th Inst they sent back the Men and Horses to Moose.— May 29th Inst Mr Thomas arrived on his return from a Visit to Martins Falls with 71 Pieces of Goods for the Service of the Northern Department.— June 5th Mr Hart Jones and Wm Stevens arrived in the large Boat from Rupert, with Furs, Feathers and Dry Goods.— On the 21st Inst the Boat that was sent here here in the 29th May to Martins Falls with Supplies for the Northern Department returned, and as the Battoe from Fort Vince had not arrived at Martins Falls to receive the Cargo, it was delivered to the Person in the charge of that Place, who gave a Receipt for it.— On the 9th July last the Steps out of Number Two Boat, the last of the complete set gone, all new Timbers, new planked, new Main Boat &c &c—

2

1st State of the Post— No Alterations have taken place since the last Report with respect to the Buildings— the Ground in a Cultivation is the same as last Year, the Produce from it last Fall was about 30 Bushels of very good Potatoes, but the Cabbages and Turnips did not grow—

2d The Behaviour of the Officers and Men—

Harper Mr Weir— Master of the Ship, his Behaviour with regard to Duty is perfectly satisfactory, but he associates too much with the Men for an Officer in his Station—

Primes Mr Mark— Master at Expenses House and Grove Point, his Conduct Continues to be satisfactory in his Station—

Fraser Mr John— Clerk— has been two Years in the Country, he arrived here from Moose last Fall, his Conduct has given me great satisfaction and he will deserve the good Character which the Resident Factory gave me of him in his Letter to me of the 5th Dec 1814—

Bowman Magnus— Tradesman— Continues to behave in the last Station—

Cowgal Thomas— This Man while continues to be steady and sober, has been very useful as a Bricklayer, and during the Winter at Grove Point, in the Fall and Spring— In 1815 I had leave from Mr Vincent to advance his Wages to £35— Mr Vincent of the Canada remain in the Country but he continued staying, but in consequence of the Ship being detained in the Country, he came to Albany as a Returned Passenger and remained unemployed until the 12th of August 1815 since that period he has been constantly employed and Mr Vincent agreed to go home in 1816 but went to the Grove Point before Shipping— In the Fall of 1817 he expressed a Wish to go home, but as I was then in want of his Services, I requested him that if he would stop in the Country for one Year more that he should have £35— for each of the last two Years viz 1817 and 1818— I mentioned this circumstance to Mr Joseph Beatty when here in the Winter and he made a Memorandum of it—

Daniel Jordan— Is an Invalid was sent in the Service, speaking of Cabanne the only Job he can do, at which he was employed all the Winter

Hains Samuel — Labourer — Came here last Fall was employed during the Winter at the Pt Jaune — he is a very steady, sober Man and active at any Work he is put to. —

Johnston James — Boat Builder — was employed last Winter and part of this Summer repairing the R. Sloop and made a Boat for the Use of the District — in this regard he has done very well, but in many other Respects he is a Dissatisfied Character, is always ready to create Mischief amongst the Men, and to encourage them to be Discontented with their Wages — in addition to the Allowance of Provisions given to them — he is paid in the Amount of £30 — Sterling. —

St. For his ill Behaviour about the end of Dec.r last — in the Men's House — struck Wm Linklater with a Billet of Wood without the least provocation, when sitting on a Stool — and afterwards struck Wm Linklater, when my back was towards him, and ran off to his Cabin, where Linklater followed him — he then took up a Bread Axe and struck Linklater on his side, and Wounded Linklater severely, me the first whom he received the Blow which appears blue. —

2d. For his Insolent and bad Language to his Master on the morning of the 4th June 1818 and also gross Insolently Disputing his Order. —

Linklater William — Sailor — Same as formerly by the Sloop Master that he is a very good Seaman, and I have found him to be active and obedient when employed on Board, he wrought at the Pt Jaune the whole of last Winter

Martin Joseph — Cooper employed on the Sloop last Season and at this Place Lays for the whole Year remaining a Domestic at the Factory. —

Monroe James — Blacksmith — The Principal part of his Employment during the Winter and Spring was assisting the Carpenter in repairing the Sloop, and I must observe, he has been very successful therein — I must say that Job he is very obedient and active at any Employment he is put to, — I cannot complain of Insolence by last Year. —

Mowat Wm 15yrs — Cooper — is an Orkney Man of steady, sober and active, has been of great service last Winter and this Spring in assisting repairing the Sloop. —

Rowland William — Came here last as a hand on board the Sloop, — was employed during the Winter as Cook, — he is Obedient and Active. —

Scott George — He came to the Country last Year, — is willing to do what he can, but is very unhandy, — he is sober and I think honest.

Smith William — Was Drowned in July during the Year much to my Satisfaction and I have not any Fault to find with his Conduct in other Respects

Stringer William — Sailor — The Sloop Master says that he is a good Seaman and Obedient and active when on board, and I have found him to be the same when on Shore. —

These all missing and I have great reason to believe they are all gone to Severn with their Fms to trade as Esquimaux from Severn. — The Severn Indians who came here in the Hudsons Bay Company with Mr Caswell, informed me, that the Master at Severn, Mr Stan Todd had employed an Indian of his to go amongst the Albany Northern Indians, Severn to them to come to Severn and there Trade, — I am sorry to observe that this Report appears to be too true as since the Albany Indians have arrived here and I am much surprised at it, the Ships are now to late (6 July) to expect to see any of them. — For many Instances I have to mention which will prove that the Master at Severn is endeavouring to get the Albany Indians to trade their Furs at that District, — in the Year 1814 on the 15th Dec.r two Albany Indians were sent from here with a Packet for the Northern Department, when they arrived at Severn, one of them Mr Gladstone was encouraged to stay at that Place and has never been since, and on the 21st Feb.y 1815 two Albany Indians Mr Spencer and Northcott were again sent to Severn with a Packet for the Northern Department, at Severn one of the Indians Mr Spencer gave them every encouragement to remain, but they would not consent, however to please him, they engaged, if they got credit to return in the Fall, to encourage what the Indians could. They leave Severn to go to Split Lake in a Mr Richard's Canoe, he has returned to Severn, he informs me he is certain of those Indians, he informs me to be careful what Debt they get, for should Severn they intend coming here. — My Letter as enclosed in the Albany Journal in the 23d July 1815. —

Athawaiscaw — Was home pretty well this last Winter, he has 3 Men all about 35 Men Beaver, Chief on Martens, Feathers and Quills. —

Cuskatenage — Is a Leader at the Goose hunt at Eskimay Lost Fall, and this Summer one year in seven got off from here by Water as soon as the usual Leaders Ground, which caused him to be a starving Winter at the Mistic— he brought in Summer the Year about 60 Made Beaver which consists of Beaver Skins pay 55 the Remainder in Martens, Otters Feathers and Quills

[illegible] Hunter the Goose last Fall and in consequence of which he returns late this Winter and procures little or no Furs, he owes 50 Made Beaver and pays only 20, he is said to be one of the best Beaver Hunters belonging to Athiawa—

Cossiscumenaw — Was brought in during the Year 87 Made Beaver 30 of which consists of Beaver Skins the rest in Martens, Otters &c—

[illegible] — He was all the greatest part of the Winter hunting but only 7 Made Beaver in Martens

[illegible] — Was during the Year brought in 50 Made Beaver 30 of them consist of Beaver Skins the rest 20 Otters, Martens, Quills and Feathers the Hunter attended the goose hunt last Fall—

[illegible] — Brought in 50 Made Beaver this Spring 35 of which consists of Beaver Skins and the remainder in Otters and Martens—

Jack Cobbet — Martin's Beaver Skins and 30 Made Beaver in Martens, Feathers and Quills, he Hunted at the Fall goose hunt—

[illegible] — Martin about 20 Made Beaver in the Spring in Martens— last Fall he traded 30 Made Beaver in Feathers and Quills, he does not like those who attended at the Fall goose hunt and the Ice set fast before he got home, in consequence of which himself and Family were nearly starved to death in Winter—

Missiapie Wawet — Was brought in during the Year 55 Made Beaver chiefly in Martens Feathers and Quills—

Missiapie Wawet — Was during the Year brought to the Place 30 Beaver Skins and 20 Made Beaver in Martens, Feathers, Quills &c— he also attended the Goose hunt last Fall and was here when the Ice set fast— himself and family suffered severely from starvation all Winter

Missawayquon — Was brought in only 26 Made Beaver during the Year 6 only were Beaver Skins, the rest Martens, Feathers, Quills &c— During all the Fall Goose hunt and Ice not set fast until after the Rivers set fast, he was a starved Creature all Winter—

Missahegan — He hunted only 30 Made Beaver during the Year, in Otters, Martens, Quills and Feathers—

Missahegan's Son — Was brought in 11 Made Beaver during the Year all in Feathers and Quills—

Michaskey — Brought in this Spring 53 Made Beaver most part of which 30 were Beaver Skins and the rest Otters, Martens &c—

Michaskey's Son — Brought in 52 Made Beaver which were all that he owned—

Wachatomin — Brought in 80 Made Beaver in Martens which part of the Skins and Beaver about 50 Made Beaver in Otters, Foxes, Martens &c—

Negamenesse — Has been all the best of this Winter hunting 35 Made Beaver Chiefly Martens—

Nemmecosetty — Has brought in only 30 Made Beaver during the year in Furs, 4 of which consists of Beaver Skins, the rest Martens and Otters he and his family are a Number of Beaver Skins and even many Beaver to trade, which was caused by their being at the goose hunt last Fall, and unable to get home here on account of the Ice—

Paleshecut — His Son in his part only 10 Made Beaver of his Skills he was also one of the goose hunters last Fall and chiefly owned by those hunting the Winter—

Cachistegwan — Was brought in during the Year 27 Beaver Skins and 5 Made Beaver in Martens—

Wampyace — Brought in during the year 52 Made Beaver and traded about 7 Made Beaver in the Fall in Feathers and Quills— He and Family suffered severely from Starvation in Winter

Washequin — Was brought in during the Year 42 Beaver Skins and 50 Made Beaver in Otters, Martens Feathers and Quills &c—

Wapchuski — Was brought to 45 Made Beaver chiefly in Martens—

Besides the above several Women Boys and Girls have brought many small Made Beaver in Martens &c—

5th Of the Canadians— There are no Canadians in this District nor none near it—

6th Of the Trade— The Trade of this District is now little more than 200 Made Beaver which is considerably less than in former Years— the Reasons of its Decrease, are, as I have already pointed out, that the Principal Beaver Hunters by attending the Geese hunt last Fall were unable by the settling in of the Winter to reach their usual Hunting Grounds, and that all the Mattheim Indians belonging to Albany are Yearly to leave, encouraged to trade their Furs at Brunswick none of them have arrived here, and it is now too late to expect them this Season—

In case however it is my Opinion, to let the Indians follow their own Inclinations with regard to their hunting Geese in the Fall, there will always be some remain'd who will be able to furnish a sufficient Supply for this District, but not enough for supplying any other Places—

I beg also to recommend that those who wish to go to their Hunting Grounds may be allowed to take them Early enough as to enable them to reach therein time, which will be of much more Advantage to the general Concern than detaining them on the Coast hunting Geese until they are prevented by the setting in of the Winter of reaching their Place of Destination—

3d.— The Conduct of the Officers and Men.—

Harper Mr. William — Master of the R. Sloop.— his Conduct throughout the Year has been perfectly satisfactory.—

Isbister Mr. John — Clerk.— his good and prudent Conduct still continues to be very satisfactory, he is capable of managing the Affairs of a District.—

Brown Magnus — Cabinkeeper.— he still continues to do well in that station.—

Flaney Samuel — Sawyer.— he continues to be obedient, sober and active.—

Hunter Peter — Sailor.— has a good Character according to the report of the Sloop Master, and as shows he is an active able and willing Servant, he has also been employed as a Sawyer, and as his Wages are only equal to those of an Labourer, I beg leave to recommend him as deserving of some small advance.—

Lankster Williams	Labourer — was employed all the Winter at the factory, belonging to the Company and assisted to Coopering. —
Martin Joseph	he is useful for any hard work, but is very useful at many jobs about the place and acts as Steward. —
Morgan James	Blacksmith — he still continues to be a very useful Servant, — he has a small Boat this Spring which is very useful, — I can say nothing in favor of his Character. —
Thomas William	Cooper — his Conduct continues as usual very satisfactory. —
Rasband William	he is employed during the Winter as Cook and in Summer as a hand on board the Sloop, he is obedient and active
Saunders Williams	a Native, in the Summer Season he is employed on board the Sloop and in Winter at various Jobs about the factory he is active at anything he is put to but his inability cannot be depended on.
Scott Magnus	Boat builder, — he arrived here last fall and has been employed with the Ship-wright since that time, — his Conduct has given satisfaction. —
Taylor Edward	Shipwright — he came to this Country last fall and was sent to Albany for the purpose of building two Ships Boats which are now made complete the whole of his Conduct has given me great satisfaction, his Wife who came to the Country with him is a very decent Woman. —
Thomas Richard	A Native Son of the late Mr Wallis Thomas, he was employed chiefly in hunting during Winter in which he was very active. —

Are all missing, — these Indians have always a propensity to lead an unsettled and vagabond life and would require as other encouragement than being permitted to trade their Furrs at Severn, which ought to have paid their Debts taken by them at this place. Indian information is certainly none of the best yet when it is often corroborated and contradicted by a number of other circumstances it deserves Credit and it is strongly reported by many Indians how that great encouragement has been held out by the Masters at Severn to such Albany Indians as would trade with them. —

Report.

Of principal Occurrences, Trade &c. of the Trading Post Albany Old Factory District, 1819/20.

To Thomas Vincent Esq.r Governor of the Southern Department Rupert's Land.

1. Narrative of Occurrences. — On the 1st August the Sloop — dropped down to the Lodes, but could not get out to Sea. On the 7 a.m the ensuing day she made Sail, and was soon out of sight. The people commenced Home and several Indians were employed procuring Grass from the Marsh and Drying it on the Island with the 21st. when having procured Eleven Boats Load, which will be sufficient for our Cattle they gave over getting more; but the making of it was very much retarded by the uncommon wetness of the Season. — On the 7th September the Sloop returned from Moose with Cargo for this District; when I received a Letter from Mr. Joseph Beioley informing me that the Trade of this District, the Accounts, and other Papers, had been safely received. and also acquainting me of the safe arrival of the Hon.ble Company's Ship Eddystone and of sundry appointments being entertained for the safety of the Brig Prince which accompanies the Hon.ble Company's Ships on part Straights on board of which was a considerable quantity of Cargo for the Southern Department. On the 9th inst. I dispatched the Sloop again to Moose with the homeward bound Passengers. On the 13th sent off a Bateau to Canoe Rivers with Casks, Ammunition &c. for the Goose Hunt at that place. On the 16th sent a Boat to the North River with all requisites for prosecuting the Hunt in that Direction. On the 27th the Bateau was returned from Canoe Rivers with 6 Barrels of Geese. sent them back immediately with a few more Casks. On the 29th the North River Hunters came home with 14 Casks of Geese, and returned with mutual Communication &c. On the 3d October the Indians from Canoe Rivers brought home the boat with 8 Casks of Geese. the following Day sent them off again with more Casks but they returned on the 8th informing me that the high Tides and Wind the Evening before had driven the Old Boat against the Stones, and that it was so much damaged, that they were unable to proceed with it. but the Indians across the River that they, may walk to Canoe Rivers. — On the 10. Two Indians arrived who had been at Chickney hunting and informed me they have killed 18 Casks (left them Cast Spring) with Geese. 11 & 12. Two men employed taking up Potatoes; they filled 10 Flour Casks — which is considerably more than the produce of last Year. On the 16th the Sloop arrived from Moose with Letters for this place and Albany Inland; by her I received a Letter from the Governor of the Southern Department Conveying the agreeable intelligence that

The Brig Wear had safely Anchored in Moose Roads on the 20th September and that the Intel Consignments from England had been recd. On the 17th sent the new Barge to Fairey Tides with the Sloops Crew to bring home the Geese, Feathers, Quills &c. prepared there, and to take up the Buoys on their return, on the 18th they returned having accomplished the Business they were sent on.

The 19th they were Dispatched to Chickney to fetch home the four Casks of Geese procured there by the Indians; they returned with them on the 21st. On the 23d Preparations were made for taking the Sloop up to her Winter Birth, the Hay Boat likewise was got on the ways. 24th Clear weather and plenty of Ice in the River which prevented the Sloop being got on the ways. 25th the River entirely frozen over. The Ice setting fast so early in it was impossible to get the Sloops hauled upon the ways till the 4th Nov. when the Ice was sufficiently strong to go on, all hands was then set to work to cut the Ice with Saws, and form a Passage to the mouth of the Creek, which is usually laid up with great exactness they was accomplished and we got her a considerable on the ways by the 10th Inst. and secured her there till the Spring when we can take her up easier. — On the 22d February Mr. Rich. Hendrick and Richard Thomas arrived from Moose with a Letter from the Governor desiring that the Packet expected from Martins Fall should be forwarded to him as early as possible. — On the 6th March two men arrived with a Packet from Martins Fall which was forwarded to the Governor of the Southern Department. — On the 12th two men were Dispatched to Martins Falls Mr. Wm. Mowat having recd instructions from Mr. Davis at Martins Fall to return them back from there on the 4th March at furthest. — On the 19th Mr. Wm. Swanson and Richard Thomas arrived from Moose with a Packet to Mr. Davis at Martins Fall, which was forwarded on the 22d by Rich. Thomas and an Indian. On the 29th Mr. Swanson took his Departure for Moose; Mr. Rowson went to accompany him part of the way on his return. On the 31st Richard Thomas and the Indian who went from here on the 22d instant returned, saying that when walking in the Night time the latter fell into the river by which accident he lost his Sledge and the greatest part of their Provisions which was on it. — On the 3d April they got another supply of Provisions and set off again on another attempt with the Packet for Martins Fall. On the 5th inst. an Indian brought intelligence that he had seen the

Track

of a Person about 2 or 3 Miles to the Southward of the Factory — seemingly in great distress and that he thought it was some Europeans as the might probably be Mr. Harper who went away on the 29th Ult. Mr. William Saunders accompanied with Mr. Mowat in quest of him, and they returned the next Morning with him having found him about Sun Set the Night before leaving eagerness to see and their appears little doubt that had they not found him that Evening he would have perished as he was in a very exhausted state and extremely delirious. On the 15th the Carpenter who was sent here to Canoe in Boat for the service of Inland leaving completed the 50 was sent back to Moose in Company with an Indian, wrote to the Governor acquainting him of the above mentioned Occurrences &c.

24th ~~May~~ in the Evening the Rivers Ice above gave way and came down to about 4 Miles above the Factory where it stopped, on the same Night the North River gave way in part, which was very fortunate as if same went to an immense body of Ice and water which was hanging over us, had it all come down the South Branch it certainly would have cleared all before it. 26th the Ice announced on the South side as on the 24th Inst. on the North river it was again in motion, the Water rose and fell here alternately, the water came across the Island from the North River as there is considerable depth of the Institution, in the Evening heard several Guns fired very quickly in a N.E. Direction and a person calling for assistance. The Indians went with 2 Canoes from the N.E. Point to endeavour to reach them but night coming on they were obliged to return without accomplishing the object. Next morning Early they went again but with great reluctance then returned at Noon with no better success than last night, they met with very heavy grounded Ice and so compact that they could not get a Canoe through it to the Marsh. All we can hear of is some Guns sent by the Indians once more and Wm. Saunders with them, the 27th set off in hopes they might get a passage thro' the place in which they succeeded and brought an Indian his Wife and two Children from their dangerous situation they were on a small Stage surrounded with heavy Ice and water. On the 29th last night the Ice above the Factory got in motion and before morning the Ice was all cleared out to Sea — the North River also cleared out; several Indians who were Tenting in that direction were in imminent danger by water and Ice none of them ever remember to have seen so dreadful a breaking up.

On the 9th May sent a boat to the North River

with Casks and Ammunition in hopes there may be a few Geese in the Marsh here after, at present the Indians are starving, there being neither Geese or Ducks to be seen.' 26th sent off a Canoe yesterday to bring home the greatest Ammunition &c. from the North River; they received this down with only one Barrel and a half Kegs Gunpowder, Two Bunnels only have been Salted at the Factory, as yet a Goose Trout Salmon to say was never known at Albany.—

On the 9th June, Mr Wm Christie and four men arrived on a half long Canoe from Attawapiskat, our Out post from Martins Fall, they intended to have returned by Swan Creek; which is but a short distance below Martins Fall, and they Detained us for three days; when they were obliged to return back to Attawapiskat River and came down to the Coast as they could procure no Fish from their nets in that Creek, they were several days at times without eating any thing except by the water in the oven and Cowskin being a remarkable high, it was any fortunate for them Mr Christie said that Mr Prince had not left Coppuco before they arrived there, for they could not have reached the Factory without the Supply of Geese he procured from them.

Mr Christie had no Complaint or Opposition to make against any Canadians in that quarter; but the Opposition which he met with from the Hon.ble Companies Servants also Friend Post from Severn, about 3 days walk from his Post I was much more hurtful to his Trade than that of the Canadians; I could dwell longer upon the several Information I have received from Mr Christie of the absurd Conduct of the Company Servants in the Northern Department by entering the Martins Fall Indians with great presents &c. to Trade their Furrs with them, but their Conduct will no doubt be well represented to the Martins Fall District report, I shall mention hereafter in its proper place. Concerning the number of Indians they have Enticed from Albany District.— On the 10th Mr Prince and John Robertson arrived from Coppuco with the Big Boat they brought 23 Casks of Geese of last Fall Hunt and 15 procured this Spring, Chiefly to Pluck Feathers, and some Quills. On the 30th Jeames Graham who came from Martins Fall the 10th Ulto departed this Life (he had been ere he came here a long time Afflicted) no one here could form an Idea of his Complaint, but he was a mere Skeleton. On the 2nd July he was interred and had the Funeral Rites performed.

2. The State of the Post.— The buildings are the same as last Year but some of them are in a very Decayed condition the Warehouse Starehouse and South Side in particular which is almost entirely rotten. The Ground in Cultivation was but little Productive last Fall about 10 Bowls full of Potatoes were procured, and a few Cabbages.

3. The Conduct of Officers and Men.

HUDSON'S BAY COMPANY

Geord. Wm Phillips. Arrived here last Fall as Clerk for this District, his Conduct has given me every satisfaction in that Station, and in every thing else which he may have been employed about.

Master Mr Wm Tailor of the Albany. His Conduct in general Continues to be perfectly satisfactory.

Prince Mr Hark. Master at Coppuco House where geese Feathers and Quills are procured and does very well in that Station. He killed 5 Foxes during the winter.

Daniel Jenkins. Has been upwards 20 Years in the Service as Superannuated and unfit for every Duty except picking Oakum.

Hunter Peter, Linklater Wm, Saunders Wm — Sloopers are all good hands, when on board according to the report of the Master of the Sloop, and on Shore they are active able and willing Servants.

Merriton Joseph. Has been upwards of 36 Years in the Country he is unfit for any Hard Labor but is very useful at many Jobs about the Places and acts as Steward.

Morrison Jn.° Blacksmith, and Tolerably Carpenter and Boatbuilder, he built a smooth boat last Year which is very useful at this place this Year he has built as fine a Batteau as ever I saw built at the place he is also a Carpenter and well adapted for the purpose, she was built for to go to Cape Dent with Goods Ammunition &c. he has also made a new Rudder for and repaired the Sloop this Spring, the Sloops master declares that she is much more to his satisfaction now than last Spring when she was repaired by this Carpenter, he is Obedient and very active at any job he is set about. I beg leave to recommend him as deserving of some remuneration.

Stewart Wm.° Cooper, he is also a Brickslayer & Taylor and has been a very steady and useful Servant during his stay here.

Robertson John.° Labourer, he passed the winter at Cape Jones with Mr. Prince who gives him no bad Character.

Rowland Wm.° Labourer. During the Summer he is employed on board the Sloop as 4th Hand in winter he is employed as Cook at the Factory, he is Obedient and active and will get drunk as often as he can.

Reeves David.° Labourer was employed as Cooper per Ditto the winter, and is a very tolerable hand for that situation, he is a steady and active Servant at every job he is put to.

Young John.° Labourer. He came to this Country last Ship Time, is a very poor hand at the business about there is not the least activity about him I am inclined to believe he is lazy.

what Debts they have remaining, and Endeavour to recover it.
Such Conduct may surely be progressical to our Hon.ble
Company, for not the encouragement Debts been paid by Indians
the Year before would there been as good as in the former Years.
but I must recognize that when Indians are once encouraged
to Ramble from Post to Post little dependence can be placed
upon em: and Traders in such cases do not further to their
Employers Interest. What can be more absurd and nonsensical to
the Concern than the Hon.ble Company's Servants in the Main
Department Intercepting the Albany Indians from the
Sea Coast and to lead em away to an Island, Post from
Severn, where in all probability, sooner or later, they will
fall into the Clutches of the Canadians. — I understand
that as a pretext they say the Indians were hardly
treated here at Albany, but I assure you that was not
the Case, and may only be a Cloak as pretext for their own
unjustifiable and unjust misconduct for enticing the Indians from Albany
and Moosonee Inland Districts, to go to the Main Settlement
Surely they can be little acquainted with the Concern
of Trading when they use such means to obtain Trade
and it must be obvious to every one it will Ruin the
Concern. — Last Winter there was a Message sent from
the Severn people to Mistaskesy (Cap.n Smith) to come
and Trade there, Mistaskesy with them, but neither he nor any
of his party accepted of the Invitation. Such Opposition
as this (the Company's Servants opposing their own
fellow Servants) is as great deal more Destructive to the
Interest of the Concern than Canadian opposition
could possibly be.

No 5 Of the Concern

There are none in this Country.

No 6 Of the Trade

In spite of the many Opposition which I have
Experienced from my fellow Servants in the Main Department
the Trade of this District is not much short of 30000 lb
the Feathery and Quills are considerable less than last
Year, on Account of their being killed or ran Scant
this Spring; but upon the whole, the Trade is a little
better than last Year.

Report of principal Occurrences, State of the Trade, &c. &c. at Albany Old Factory District.

To Thomas Vincent Esqr. Governor of the Seven Departments Rupert's Land.

1st. Narrative of Occurrences. 'On the 12th August the Sloop dropped down to Ball's Island, on the 15th the wind being fair the boat came up with two of the homeward bound bateaux of the Inland Fleet, which had put west owing to the leaky state of the Vessel; they were dried and repaired and again sent on board; on the 16th the Sloop was towed out, and at Noon was out of sight, on the 24th the Moose made her appearance and next day came to an Anchor, boarded Passengers, and I also recd a Letter from Governor of the Seven Department.' On the 27th The Sloop again proceeded for Moose. 'The Canoe boat was likewise Dispatched with Casks, Ammunition &c. for prosecuting the Goose Hunt at that place.' On the 29th they both proceeded to Sea. 'On the 2d September Peter Thomas arrived with Letters for Mr. Davis who started for Martins Falls this Morning, he preceded after him, and overtook him: on the 6th he returned again to Moose.' On the 9th sent a Boat to Canoe River, likewise one to the North River with Casks, Salt, Ammunition &c. &c. for the Goose Hunt both boats were chiefly manned by Indians.' On the 13th finished the Hay making, it was long delayed by a series of wet weather. Twelve boats of Grass were procured in part by Indian assistance; and a small Quantity was procured off the plantation.' On the 22nd the boat returned with Ten Casks of Geese, and some Low ones, from the North River.' On the 23d the Boat was again Dispatched with more Ammunition &c. &c. 'On the 26th the Sloop anchored opposite the Factory; recd some more Passengers on Shore. 'I likewise recd a Letter from Mr. Brisley.' On the 3d October finished taking up Potatoes &c. produced 23 Flour Casks, which is the most I've known during my residence here.' The boat returned again from the North River on the 4th with seven Casks of Geese; on the 5th she returned again with more Ammunition. On the 8th The boat came home from Canoe Rivers with seven Casks of Geese. On the 13th completed getting the Sloop to her wintering berth. On the 15th the Geese were brought home from the North River. Viz. one Hogshead. On the 19th

were Dispatched to Chickney to Lodge Casks, Ammunition Salt &c. to be in readiness for the next Spring Goose Hunt, 24th to 27th. The Snow was headed and met with tolerable good success. On the 29th The river set fast. this day we saw the two last Geese. On November 1st the River cleared of Ice, but finally set fast on the 8th; and on the 10th it was crossed. The 13th a few white Partridges were shot. (20th for some time past sickness prevailed were many and no Medical man was here to afford the requisite assistance, instead of the necessary Medicines bark here some relief might have been afforded. On December the 9th The Cooper began making a bathing Tub for the benefit of the men, as several were at that Date in a very precarious state) on Jan.y 23d the Thermometer was 16° below Zero. On February 1st two men arrived from Moose. Procured a Letter from Mr. Beverly, as likewise a Packet for the Worn Department from the Governor of the Severn Department, to be forwarded to Mr. Davis at Newton Fall. On the 21st two men arrived from Newton Fall, with Letters for the Governor, to be forwarded to Moose. On the 22d the two Moose men who arrived here the 4th inst were Dispatched to Moose, and I availed myself of the Opportunity of returning an Answer to Mr. Beverly Letters of the 18th September 1820, and 29th January 1821 Duly. On the 20th the two Albertons Fall men were Dispatched again. On March 7th having occasion this day to spare two Casks of Salt to send to Caprusco (for the Geese hunt there) I was induced from the appearance of the smallness of the Casks to measure them as well as to weigh them, the result was that the Contents of one was only 3¾ Bush.ls and the other 4½ Bush.ls each of these Casks, are charged at six Bushells, so that a Loss of 2 Bushells or 320 lbs. accrues to the District, indeed other articles are equally over charged in proportion a just opinion of the regularity of the person who supplies the Salt may be observed, for on actually measuring the Casks, after being emptied, they could contain only 4¼ Bushells each. I think it high time some notice should be taken of such base faced frauds. On the 14th five persons, and five Dogs, were sent off with a supply of Salt &c. for Caprusco, by them I sent a Note to Mr. Prince with orders to erect a new dwelling House there. On the 15th one of the men (Wm. Saunders) returned having severely cut his Leg, another man was Dispatched Early the next morning in his Stead. On the 22d two of the persons returned from Caprusco they brought a Note from Mr. Prince informing one man of [illegible] Young

is very much frozen, particularly about the privates; his wife the man would he consent to be handed home by the Dogs, altho' in so dangerous a state. On the 24th the same two persons were sent with Dogs for the purpose of bringing him home. On the 27th the Blacksmith (Morrison) laid down the Keel of a boat (on the stocks) 25 Feet long. On the 29th the people returned from Caprusco with the poor man who is in a pitiable condition. On the 31st two returned again to Caprusco with a supply of Flour; by them I sent a Note to Mr. Prince, in the Evening one of em returned, (Merryman) having lost his Partner (Moar) the former was a head of him; but finding him not come up he thought it prudent to return to look for him. On the 1st April, Merryman and four others set off, at 3 a.m. to look for the lost man, in the afternoon the four latter returned, having tracked him up as far as Chicaway, where the remains of his Fire was still burning, they likewise saw he had bent his course for Caprusco. On the 3d Procured a Letter by two Indians requesting Will.m Saunders to be forwarded by em to Moose, this is the same man mentioned on the 15th Ult.o, who is unable to walk, the wound was a very severe one. On the 8th Mr. Garton and the Ind.s of the 3d set off for Moose sent a Letter to Mr. Beverley requesting Medicines, or Medical assistance to be forwarded, for the benefit of the unfortunate sufferers, of the former there is scarce sufficient to suffice, till a supply can be received. On the 18th further supplies were keyed at Chickney for prosecuting Goose hunt; on the 16th two men went to stop at Chickney Goose Tent. On the 19th Mr. Garton & Mr. McKenzie Cormick arrived from Moose. Procured a Letter from Mr. Beverley, Mr. McKenzie Cormick pronounces Young and Saunders to be in a fair way of recovery. On the 23d Mr. McKenzie Cormick took his Departure for Moose, sent a Letter by him to Mr. Beverley. On the 27th Geese made their appearance, and on the 28th saved the first one. The Snow this last winter was only about 2½ Feet deep. and the Ice equal the same in thickness — May 6th Observed the Geese to be swinging On the 8th The River ice appeared to be up above. On the 9th May Morrison finished the boat he began to build on the 27th March. The 17th The River clear of Ice, on the 25th one of the men returned from Chickney, with Saw Geese has been procured there. a Packet arrived

Moatons Island. I received a Letter from Mr. Davis, and a Packet to be forwarded to Moose from the Governor of the Moose Department. Mr. Davis's son was unfortunately drowned on coming down with it. Vide Journal May 25th. On the 29th Wm. Saunders who is now recovered from his lameness, and an Indian set off for Moose with the aforementioned Packet &c. Likewise sent a Letter to Mr. Vincent. On June 2d the Goose Hunt was brought home from Chickney, only eight barrels and an Allow Cask procured there. On the 7th the Eskimoe boat arrived they experienced a very poor Spring Hunt. On the 11th Received a Letter from the Governor of the Moose Department, Dated North Bluff June 9th wherein he informs me the Hon.ble Committee had recently made an arrangement with the N.W. Company; and that the whole of the Moose Trade was to be under the management of the Hudsons Bay Company. This seemed to give universal pleasure to all the Officers here, who ever had experienced what it was to be where an Opposition was. On the 13th the Sloop was hauled from her wintering berth. On the 21st two Canoes belonging to the Albany Inland Department arrived from Long Lake, from whence he receive information that the Decease of Mr. Brown took place last Sunday the 17th inst. on their journey down. On the 28th The Sloop dropped down the River to lay the Buoys and Beacons; and to sail direct for Moose with the AR homeward bound Boat. Capn. Wilcocks is on board. On July 1st they proceeded on their Voyage with a fair wind. On the 18th she appeared in the Offing; and on the 19th the Wind being South. Mr. Gaston and part of the Crew came ash for a supply of Provisions, he returned again on board, and on the 20th came to an Anchor opposite the Factory.

2nd. *State of the Post.* The buildings are in the same decayed condition as last Year. All the outer Stockading round the Factory was repaired last fall and this Spring a new Platform has been laid from the Sloop Gally to the Bank edge.

3rd. *Conduct of the Officers and Men 1820/21.*

Gaston Mr. Joseph.	Master of the AR Sloop. His Conduct has been perfectly satisfactory.

Sundry Women, Girls & Youths &c.	These have brought us Sundry Furrs during the Year, various Furrs, Feathers, and Quills, &c. which they Traded to the Amount of Mrs.

5th Of the Trade.

The Indians of this Department for the most part have had tolerable good success in Hunting. The Trade this Year is upwards of 1000 Mr Beaver more than last Year; and the increase of the Furrs, chiefly consists in Beavers, and Otters, of a prime Quality. But in Feathers and Quills, it is very much short, owing to the scarcity of Geese in the Spring hunt. Some few of the Deserters belonging to this Department, have returned: but Cotheespeuniccawe's Family who were here last Year with a part of their Trade, I believe has gone to the N.W.ern settlements. Annexed is a List of those Indians, with the Amount of each of their Debts in Mr Beaver; belonging to this place, who are still encouraged to visit them.
